Chicago, IL 60601

Dear Mr. Sinsheimer:

Thank you for your letter regarding our firm's State of Illinois credit default swap activities for the period October 1, 2013 through December 31, 2013. We are pleased to provide the following information in response to the questions referenced therein:

Disclose whether your firm has participated in credit default swap market-making activities related to any State of Illinois credit default swaps ("CDS") within the past 3 months. Please include and/or indicate the following:

1. *In the event of your firm's participation in State of Illinois CDS activities within the past 3 months please disclose your firm's cumulative notional volume of State of Illinois CDS trades and the firm's outstanding gross and net notional amount of State of Illinois CDS, as of the end of the current 3-month period.*

Barclays does not actively make a market in municipal credit default swaps ("CDS"). The firm did not engage in any State of Illinois CDS trades from October 1, 2013 through December 31, 2013.

As we have previously noted in our submissions to the State, in January 2011, Barclays' Credit Risk Management Group, a group separate from Barclays' Bond Department, erroneously entered into an Illinois CDS trade in order to hedge counterparty risk. This trade was unwound a few days later since it had been put on in error. The two trades consisted of \$10 million buy and sell. Other than those trades, the firm has entered into no Illinois CDS trades since August 2009.

Below is the most recent data regarding our gross and net positions for the period October 1, 2013 through December 31, 2013.

- Gross notional of trades from October 1, 2013 through December 31, 2013 = \$0
- Net notional of trades from October 1, 2013 through December 31, 2013 = \$0
- Net notional of trades outstanding as of December 31, 2013 = \$0

2. *Disclose whether your firm has entered into any proprietary trades for its own account in State of Illinois CDS, as of the end of the current 3-month period.*

Please see our response to #1.

3. *Disclose your firm's outstanding gross and net notional amount of proprietary State of Illinois CDS and whether the net position is short or long credit protection, as of the end of the current 3-month period.*

Please see our response to #1.

4. *List all time periods during the past 3 months during which the firm held net long or net short State of Illinois CDS proprietary credit protection positions, the amount of such positions, and whether those positions were net long or net short credit protection positions.*

Please see our response to #1.

5. *Indicate whether within the previous 3 months, the firm released any publicly available research or marketing reports that reference State of Illinois CDS and include those research or marketing reports as attachments.*

Prior to February 2011, Barclays published a monthly municipal research report that referenced CDS market activity for a group of fifteen major issuers including the State of Illinois. Barclays ceased publishing research that referenced Illinois CDS pricing in February 2011. Our firm did not release any publicly available research or marketing reports referencing State of Illinois CDS during the period of October 1, 2013 through December 31, 2013.

We are available at your convenience to discuss this information further. I may be reached at (312) 609-8508. Thank you.

Sincerely,

Carole Brown

State of Illinois Credit Default Swap Questions

Disclose whether your firm has participated in credit default swap market-making activities related to any State of Illinois credit default swaps (“CDS”) within the past 3 months. Please include and/or indicate the following:

- In the event of your firm's participation in State of Illinois CDS activities within the past 3 months please disclose your firm's cumulative notional volume of State of Illinois CDS trades and the firm's outstanding gross and net notional amount of State of Illinois CDS, as of the end of the current 3-month period.

BMO Capital Markets GKST, Inc. has not participated in any State of Illinois CDS Activity within the past three months ending December 31, 2013.

- Disclose whether your firm has entered into any proprietary trades for its own account in State of Illinois CDS, as of the end of the current 3-month period.

No trades were done.

- Disclose your firm's outstanding gross and net notional amount of proprietary State of Illinois CDS and whether the net position is short or long credit protection, as of the end of the current 3-month period.

Not applicable.

- List all time periods during the past 3 months during which the firm held net long or net short State of Illinois CDS proprietary credit protection positions, the amount of such positions, and whether those positions were net long or net short credit protection positions.

None.

- Indicate whether within the previous 3 months, the firm released any publicly available research or marketing reports that reference State of Illinois CDS and include those research or marketing reports as attachments.

No research or marketing reports were done referencing State of Illinois CDS.

Disclose whether your firm has participated in credit default swap market-making activities related to any State of Illinois credit default swaps ("CDS") within the past 3 months. Please include and/or indicate the following:

In the event of your firm's participation in State of Illinois CDS activities within the past 3 months please disclose your firm's cumulative notional volume of State of Illinois CDS trades and the firm's outstanding gross and net notional amount of State of Illinois CDS, as of the end of the current 3-month period.

By way of background, BofAML does not take and maintain unhedged long or short positions, unrelated to market making, of Illinois General Obligation ("GO") CDS. Instead, BofAML is a swaps market maker and in that capacity makes regular two-way markets in municipal CDS, including CDS on Illinois GO bonds, and acts as a swaps dealer with respect to Illinois GO CDS. BofAML's trading of Illinois GO CDS, while effected as principal for our own account, is in response to the flow of actual and anticipated counterparty market making transactions, and while BofAML's Illinois GO CDS exposure on a net basis at any given time may be modestly long (BofAML being a net purchaser of unhedged credit protection) or short (BofAML being a net seller of unhedged credit protection), BofAML seeks to maintain, over time, a more or less balanced book of long and short transactions. For the quarter ending December 31, 2013 the cumulative notional volume of Illinois GO CDS purchases was \$0 and sales was \$0. As of December 31, 2013, BofAML's outstanding gross notional amount of Illinois GO CDS was \$764,700,000 and the outstanding net notional amount of Illinois GO CDS was a net short position of \$46,900,000 (that is, BofAML was a net seller of Illinois CDS protection as of that date, and thus net long Illinois GO risk, as it would be if it were a holder of Illinois GO bonds).

In addition, we have prime brokerage positions which represent our "back-to back" intermediation of trades between certain hedge fund clients and their counterparties. These transactions are custodial in nature and do not represent risk positions of our firm. As of December 31, 2013 BofAML's prime brokerage outstanding gross notional amount of Illinois GO CDS was \$260,000,000 and the outstanding net notional amount of Illinois GO CDS was \$0 (that is, prime brokerage accounts were flat Illinois GO CDS protection as of that date).

Disclose whether your firm has entered into any proprietary trades for its own account in State of Illinois CDS, as of the end of the current 3-month period.

As discussed above, BofAML does not engage in proprietary trading by taking and maintaining unhedged long or short positions, unrelated to market making, of Illinois GO CDS. The activity conducted for BofAML's own account is undertaken (a) to hedge specific, identified State credit exposures held by BofAML, such as State general obligation (GO) bonds, credit facilities or derivative credit exposures, or (b) pursuant to BofAML's ongoing, client- driven market-making activities.

Disclose your firm's outstanding gross and net notional amount of proprietary State of Illinois CDS and whether the net position is short or long credit protection, as of the end of the current 3-month period.

As discussed above, the question is not applicable as BofAML did not engage in proprietary trading.

List all time periods during the past 3 months during which the firm held net long or net short State of Illinois CDS proprietary credit protection positions, the amount of such positions, and whether those positions were net long or net short credit protection positions.

As discussed above, the question is not applicable as BofAML did not engage in proprietary trading.

Indicate whether within the previous 3 months, the firm released any publicly available research or marketing reports that reference State of Illinois CDS and include those research or marketing reports as attachments.

During the three-month period ended December 31, 2013, we would have included information about generic Illinois CDS spreads along with information about other state spreads in certain marketing materials, but did not specifically highlight them.

We are not aware that municipal research analysts at BofAML published any research reports referencing State of Illinois CDS during this period.

This letter is being submitted to you with the request that you keep it confidential and not provide or otherwise disclose it to any party, unless you are required to do so by law. If your office should decide to disclose any of the information to any other government agency or person, we also ask that you notify us immediately and provide that agency or person with notice of this request. Furthermore, if any person should request the opportunity to inspect or copy this letter, we ask to be notified immediately and given advance notice of any intended release.

Dear Mr. Sinsheimer:

I am pleased to respond on behalf of Goldman, Sachs & Co. about our firm's activities related to State of Illinois municipal credit default swaps ("CDS").

Disclose whether your firm has participated in credit default swap market-making activities related to any State of Illinois credit default swaps ("CDS") within the past 3 months.

Please include and/or indicate the following:

- ***In the event of your firm's participation in State of Illinois CDS activities within the past 3 months please disclose your firm's cumulative notional volume of State of Illinois CDS trades and the firm's outstanding gross and net notional amount of State of Illinois CDS, as of the end of the current 3-month period.***

As it has done in respect of many states' CDS, Goldman Sachs participated in market-making activities with respect to State of Illinois CDS in the past fiscal quarter (October 1, 2013 through December 31, 2013). Goldman Sachs's cumulative notional volume of trades in State of Illinois CDS during that time was \$57.0 million. Goldman Sachs's net notional position as of December 31, 2013 in Illinois CDS was negative \$33.5 million, and our gross notional position in Illinois CDS was \$3.05 billion.

It is not feasible to assess whether Goldman Sachs is long or short exposure to State of Illinois credit solely by reference to notional amounts of CDS, as other considerations, including the various maturities of our CDS positions and our risks related to market-making activities in the State's bonds, are key determinants and drivers of the firm's risk profile.

- ***Disclose whether your firm has entered into any proprietary trades for its own account in State of Illinois CDS, as of the end of the current 3-month period.***

Goldman Sachs has not entered into any trades for its own proprietary account in State of Illinois CDS during the past fiscal quarter. As noted above, Goldman Sachs has entered into Illinois CDS contracts from time to time, stepping in with its own capital to execute client trades as a principal in order to promote market liquidity in a market-making capacity.

- **Disclose your firm's outstanding gross and net notional amount of proprietary State of Illinois CDS and whether the net position is short or long credit protection, as of the end of the current 3-month period.**

Please see the above answers.

- **List all time periods during the past 3 months during which the firm held net long or net short State of Illinois CDS proprietary credit protection positions, the amount of such positions, and whether those positions were net long or net short credit protection positions.**

Please see the above answers.

- **Indicate whether within the previous 3 months, the firm released any publicly available research or marketing reports that reference State of Illinois CDS and include those research or marketing reports as attachments.**

During the previous fiscal quarter, Goldman Sachs has not published any research or marketing reports concerning State of Illinois CDS. In that regard, the firm's Global Investment Research Division does not create or publish research on municipal issuers. From time to time, various groups within the firm's Securities Division have provided marketing materials to clients to educate them generally about the municipal asset class and the products available to gain or limit exposure to that asset class, including tax-exempt bonds, interest rate derivatives, CDS and BABs. These materials are available to the firm's institutional sales force and are on occasion in turn provided to certain investing clients.

Thank you for the opportunity to respond to your questions. We look forward to continuing to serve the State of Illinois and the larger municipal market.

Sincerely,

Re: Request for CDS Information

Dear Mr. Sinsheimer:

We write on behalf of Morgan Stanley & Co., LLC. ("MSCO") to provide information regarding MSCO's activity in single-name credit default swaps related to the State of Illinois for the period of October 1, 2013 through December 31, 2013 as required by Illinois statute.

The CDS transactions referenced herein were not effected by MSCO. Rather, they were effected by affiliates of MSCO known as Morgan Stanley Capital Services, LLC. and Morgan Stanley International, PLC, neither of which act as an underwriter for State transactions. The cumulative notional volume¹ of State of Illinois CDS trades during the Review Period was \$15,000,000. The outstanding gross and net notional amount² of State of Illinois CDS as of the end of the Review Period is \$2,551,731,000 and (\$9,069,000), respectively. There were no proprietary transactions in State of Illinois CDS effected during the review period, and there were no research or marketing reports created during the review period.

Respectfully submitted,

Erik Cohen
Vice President

cc: Kacy Bassett

¹ This number reflects the sum of the absolute value of the notional of all purchases and sales for CDS related to the State of Illinois.

² We interpret gross notional value to mean the sum of the absolute values of the notional of the individual transactions. We interpret the net notional value to mean the net amount of underlying exposure on the State of Illinois when transacting in CDS.

RE: State of Illinois Credit Default Swap Inquiry

Dear John:

On behalf of RBC Capital Markets, LLC please allow the following to reply to the January 2014 correspondence related to the above captioned matter.

RBC Capital Markets, LLC has not participated in credit default swap market-making activities related to any State of Illinois credit default swap within the past 3 months (October 1, 2013 – December 31, 2013). In addition, RBC Capital Markets has no responsive information to the five bullet points contained in the January correspondence. This does not reflect a categorical decision by the firm not to recommend or sell credit default swaps in appropriate circumstances, nor has the firm made any determination regarding marketing making activities of credit default swaps in the future.

Please advise if you are in need of any further information.

Dear John:

Below please find Siebert Brandford Shank's response to the State of Illinois request for information regarding our firm's market activities related to credit default swaps ("CDS") from October 1, 2013 through December 31, 2013.

Siebert Brandford Shank does not participate in CDS market-making activities; accordingly, we have not participated in CDS market-making activities over the past three months. During this timeframe, our firm's cumulative notional volume of State of Illinois CDS trades is \$0 as is our firm's outstanding gross and net notional amount of State of Illinois CDS. Our firm has not entered into any proprietary trades for our own account in State of Illinois CDS as of the end of the current three-month period. Siebert Brandford Shank has never held net long or short State of Illinois CDS proprietary credit protection positions nor has our firm released any publicly available research or marketing reports that reference State of Illinois CDS over the past three months.

Please feel free to contact us if you have any questions or require additional information. We look forward to working with you and the State of Illinois in the future.

Thank you,

Karen Walker
