TO: Fiscal Officers of All State Agencies

FROM: Kathleen Killion, Director - State Accounting

DATE: July 20, 2023

SUBJECT: Special Provisions for FY24 Appropriation Transfers

NUMBER: 266

Public Act 103-0008 amends the State Finance Act to allow eight percent transfers among operational line items during fiscal year 2024. The law became effective June 07, 2023, and is valid for State fiscal year 2024. The new language is as follows:

30 ILCS 105/13.2

Sec (c-10) Special provisions for State fiscal year 2024. Notwithstanding any other provision of this Section, for State fiscal year 2024, transfers among line item appropriations to a State agency from the same State treasury fund may be made for operational or lump sum expenses only, provided that the sum of such transfers for a State agency in State fiscal year 2024 shall not exceed 8% of the aggregate amount appropriated to that State agency for operational or lump sum expenses for State fiscal year 2024. For the purpose of this subsection, "operational or lump sum expenses" includes the following objects: personal services; extra help; student and inmate compensation; State contributions to retirement systems; State contributions to social security; State contributions for employee group insurance; contractual services; travel; commodities; printing; equipment; electronic data processing; operation of automotive equipment; telecommunications services; travel and allowance for committed, paroled, and discharged prisoners; library books; federal matching grants for student loans; refunds; workers' compensation, occupational disease, and tort claims; late interest penalties under the State Prompt Payment Act and Sections 368a and 370a of the Illinois Insurance Code; lump sum and other purposes; and lump sum operations. For the purpose of this subsection, "State agency" does not include the Attorney General, the Secretary of State, the Comptroller, the Treasurer, or the judicial or legislative branches.

The amendment impacts agencies by increasing their flexibility to make transfers among appropriations within the same treasury fund for operational and lump sum expenses (including late interest penalty lines) and increases the limit of these transfers from 4 percent to 8 percent. The Attorney General, Secretary of State, Comptroller, Treasurer, and legislative and judicial branches are excluded from these changes.

The IOC has made changes to SAMS that reflect the special provisions for State fiscal year 2024. The changes are summarized below:

1. SAMS table APTL (Appropriation Transfer Limit Inquiry) is updated to track the agency's available balance based on the 8 percent limit.
2. SAMS monthly report SB03 (Appropriation Transfer Report) reflects the 8 percent limit and the new transferability for operational and lump sum expenses beginning with the July, FY 2024 reports.
3. The transferrable appropriations have a "T" in the "Transfer Type" field on EAP2 and the Appropriation Transfers continue to use a "TA" transaction prefix on the SB01.
4. The agencies excluded by the legislation will not see any changes to APTL or the SB03 report.

Appropriation Transfer Authorization (C-66) forms must comply with the following requirements:

1. All C-66 forms that utilize the new transfer authority must clearly identify in the "Comments" section that it is a transfer pursuant to 30 ILCS 105/13.2 (c-10).
2. Agencies must reflect the change from the 4 percent to 8 percent limit in the "Total" field on the form.
