## **HOW TO USE THE TEMPLATE TIF REPORT FORMS**

### **Create Customized TIF Report forms for each TIF District**

First, open the TIF Report template form and use your 'Save As' option to create separate TIF Report forms for each of your redevelopment project areas (TIF Districts) designated by the municipality. Be sure to use a unique file name that clearly identifies the TIF District(s) and FY represented in the TIF Report.

For example, if the City of AnyTown has three TIF Districts named TIF1, TIF2, and TIF3 for FY 2012 then they should use the template to create three separate Excel files (FY2012AnyTown\_TIF1\_SEC1\_8, FY2012AnyTown\_TIF2\_SEC1\_8, and FY2012AnyTown\_TIF3\_SEC1\_8)

### **Create Customized Worksheets Within the TIF Report forms**

Open the customized TIF REPORT form(s) that you have created for your TIF Districts. Note that *Sections 1 through 8* are nine separate worksheets in the same file. These worksheets are located at the bottom of the spreadsheet as tabs. To move from page to page, simply click on the tab that corresponds to the worksheet you wish to use. In order to facilitate the review process, please answer each question on the TIF Report form. **In addition, take note that if you answer 'Yes' to any of the questions in Section 2, it is necessary for you to enclose the requested documentation as part of your TIF Report. These attachments are to be in alpha order after sections 1-8 of the TIF report.**

- ✓ **NOTE:** *FY* and *TIF Name* are written in on the footer on each page of the TIF Report form. You will have to type in the TIF district's name in the footer portion of your spreadsheet by clicking View on the toolbar, select **Page Layout**, scroll to bottom and type the TIF district's name in the right-hand section. This must be done for each page of the Excel spreadsheet. FY is already populated to 2012.

## **HOW TO SUBMIT YOUR COMPLETED TIF REPORT FORMS**

TIF Administrators will **NO** longer e-mail your government's TIF Reports to the Office of the Comptroller. Any TIF reports FY 2010 onward have to be uploaded by the government.

In an effort to make it easier for TIF Administrators to submit their Annual TIF Reports electronically, a new application is now available on the Illinois State Comptroller's website. This application, '**Upload TIF Reports**' will allow TIF Administrators to upload a **single** PDF-formatted TIF Report for **each** of their TIF Districts. All TIF Administrators were mailed the password and a '**Quick Start**' inserts to help them use the new application. The '**Quick Start** insert is also available online. Call our **Local Government Assistance Hotline Phone Number** (877) 304-3899 if you need help using the new application.

## **SECTION 3.1**

Input the revenue/receipt information for the cumulative column. The column titled “**Cumulative\***” is necessary to determine a balance by source as required by statute. The column titled “Percent of Total” automatically calculates based on each cumulative revenue source divided by the total cumulative revenues. If a surplus is calculated (see *Section 3.3*), it will be assumed that the sources of the surplus will be prorated based on the percentage of cumulative revenues collected, not based on current year revenue alone.

*Complete Section 3.1* utilizing the basis of accounting presented in the certified audited financial statements. Therefore, the reporting year information should be the same information as presented in the audited financial statements. The fund balance at the beginning of the reporting period and all revenue/receipts information will need to be entered for the reporting year. All other amounts will be calculated. In addition, expenditure/cash disbursement totals should be carried over from *Section 3.2A*.

\*Cumulative totals **MUST** be entered for **ANY** column that has an amount in it.

## **SECTION 3.2 A**

List itemized expenditures from the special tax allocation fund by category of permissible redevelopment cost. Statutorily permitted categories are set forth in the statute.

Some categories are permissible only to Tax Increment Allocation Redevelopment TIF districts and others to Industrial Jobs Recovery TIF districts (see form *Section 3.2A*). If additional rows are needed to report itemized expenditures under a particular category, please type "Other" into the last available row and attach a schedule detailing the remainder of the expenditures.

Permissible costs may be entered under each category of natural classification (i.e., legal services, engineering fees) or by function/type of expenditure (i.e., salaries, contractual services). **For any expenditure over \$10,000, you must also complete *Section 3.2 B*.**

The categories of permissible redevelopment costs are included in 65 ILCS 5/11-74.4-3 (q) and 65 ILCS 5/11-74.6-10 (o). These are described below in summary. Address questions on the categorization or permissibility of a particular cost to your municipality's legal counsel or accountant.

1. Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan.
2. Marketing costs.
3. Property assembly costs.
4. Costs of rehabilitation, reconstruction/repair, or remodeling of existing public or private buildings.
5. Costs of the construction of public works or improvements.

#### **SECTION 3.2 B**

This schedule should include all payments made in excess of \$10,000 to other municipal funds for reimbursement of TIF eligible expenditures. - If **YES**, for each bond issue, note or other obligation include a description and state the amount of the fund balance designated for the subsequent reporting periods.

✓ **NOTE:** The amount designated can be shown up to the total amount of principal and interest due on any debt obligations in future years. It is not limited to the current portion of principal and interest.

##### **2. Description of Project Costs to be paid**

Did the redevelopment project area have any redevelopment project costs during or prior to the reporting period (other than obligations listed above) for projects consistent with the redevelopment plan that remain unpaid?

#### **SECTION 4**

#### **SECTION 5**

*Section 5* seeks information regarding both public and private investments in this redevelopment project area, actually undertaken to date after November 1, 1999 and estimated to be undertaken during the year following the current reporting fiscal year. The form then calculates the ratio of private to public investment. Please provide the information on a project-by-project basis. At the top of this page, please check off **EITHER** NO projects were undertaken by the Municipality or if you **DO** have projects then you **MUST** put the total numbers of projects listed. Section 5 provides Pages 1-3 to accommodate up to 25 projects. Page one **MUST BE INCLUDED** with the TIF report, even if there are NO projects listed. Pages 2-3 should be included **IF** projects are listed. Please **NOTE** if you do have projects listed then the name of the project **MUST** be filled in. The name is typed directly below the title (e.g. only **Project 1:** etc.).

#### **SECTION 6 through SECTION 8 (OPTIONAL)**
