CHC: Creating Healthier Communities, formerly Community Health Charities, is a catalyst for good health, bringing communities, nonprofits, and businesses together around a shared commitment to better health and wellbeing. We represent thousands of high-impact nonprofits nationwide, working to address barriers to good health, and we connect them with capital from our corporate, foundation and government partners to **power transformative change**.

By listening to partners and convening community and business leaders, we ensure that we always act in the best interests of the communities, directing resources and expertise where it is needed most.

CHC brings communities, nonprofits, and businesses together around a shared commitment to better health and wellbeing.
