## **Equipment**

Equipment assets are typically any **movable**, non-consumable, tangible personal property used in the operations of the State. Equipment includes the following assets:

- **Vehicles** – including, but not limited to, automobiles, trucks, trailers, aircraft, motorcycles, and farm vehicles.
- **Furniture and Fixtures** – movable equipment incorporated in a building including, but not limited to, office and building furnishings, communication devices, and other assets necessary to the use of the premises.
- **Library Assets** – includes assets that do not meet the requirements of non-capitalization for Works of Art and Historical Treasures (under paragraph 27 of GASB 34). Examples of library assets include: information sources that are circulated to students or the general public; including books, journals, periodicals, audio/visual media, computer-based information, manuscripts, maps, documents, and similar items which provide information essential to the learning process or which enhance the quality of academic, professional, or research libraries.
- **All other moveable tangible personal property used in the operations of the State.**

Capital expenditures that add value, extend the useful life, or adapt “equipment” (including leased equipment) to a new use and exceed the capitalization threshold for “equipment” should also be included in this category.

## **Construction in Progress**

The accumulation of costs incurred during construction of assets. The accumulated costs are held in Construction in Progress until such time as the project is determined to be “substantially complete” (i.e. ready for its intended use).

## **Repairs and Maintenance**

Repairs and maintenance include the ordinary and necessary projects needed to keep an asset serviceable through its expected life. Repairs and maintenance projects, by definition, do not increase the capacity or operating efficiency or extend the useful life of the asset. Repairs and maintenance costs are not capitalized, but rather expensed in the period incurred.

## **Network**

A network is composed of all assets that provide a particular type of services for the State or an agency. A network of assets may be only one asset that is composed of many components. For

example, a network of infrastructure assets may consist of a series of inter-connected highways and roads.

### **Subsystem**

A subsystem is composed of all assets that make up a portion or segment of a network. For example, all the roads of the State could be considered a network of infrastructure, while interstate highways, state highways, and rural roads could each be considered a subsystem of that network.

### **Capitalization Threshold**

The dollar value at which the State elects to capitalize tangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

### **Depreciation**

A systematic and rational method of allocating the cost of a capital asset to the periods benefiting from its use.

### **Composite Methods**

Calculating depreciation for a collection of similar assets (group depreciation method), such as traffic signals or lane-miles or dissimilar assets, such as all assets composing a transportation network or building.

### **Modified Approach (Infrastructure)**

The election not to depreciate infrastructure assets that are part of a network or subsystem of a network that meet two specific requirements. First, the agency manages the eligible infrastructure assets using an asset management system that has certain specified characteristics, second, the agency documents that the eligible infrastructure assets are being preserved approximately at (or above) a condition level established and disclosed by the agency.

### **Intangible Assets**

Intangible assets are assets that lack physical substance, are nonfinancial in nature, and have an initial useful life extending beyond a single reporting period. Examples of intangible assets include, but are not limited to, software (both internally generated and non-internally generated),

easements and rights of way, water and land use rights, and subscription-based technology arrangements.

**Internally-Developed Intangible Assets in Progress**

The accumulation of costs incurred during development of intangible assets, such as software, patents, trademarks, and copyrights. The accumulated costs are held in Internally-Developed Intangible Assets in Progress until such time as the project is determined to be “substantially complete” (i.e., ready for its intended use).

**POLICY**

Capital assets owned by an agency should be capitalized in the government-wide financial statements and in proprietary and fiduciary funds (except for certain works of art and historical treasures as discussed in the procedures section of this policy) that **individually** equal or exceed the following capitalization threshold amounts:

Capital Asset Category	Capitalization Threshold
Infrastructure	\$250,000
Land	\$100,000
Land Improvements	\$25,000
Site Improvements	\$25,000
Buildings	\$100,000
Building Improvements	\$25,000
Equipment	\$5,000
Works of Art, Historical Treasures	\$5,000
Intangible Assets:	
Internally Generated Software	\$1,000,000
Non-Internally Generated Software	\$25,000
Right-to-Use Lease Assets	\$25,000
Subscription-Based Information Technology Arrangements	\$25,000

Universities and component units may adopt different capitalization thresholds, which should be adequately documented within their entities' policies and procedures.

For capital assets (including infrastructure) that are depreciated, expenditures that extend the useful lives of capital assets beyond their initial estimated useful lives (preservation costs) or improve their efficiency (improvements) or capacity (additions) are capitalized, whereas expenditures for repairs and maintenance are expensed.

For infrastructure assets that are not depreciated under the modified approach, expenditures for additions and improvements to eligible infrastructure assets (which increase the capacity or efficiency of assets rather than preserve their useful lives) are capitalized. All other expenditures, even preservations costs, are expensed in the period incurred.

PROCEDURE	CAPITALIZATION	REVISION NUMBER NEW

---

Assets acquired in various amounts for a single purpose which may not individually meet the capitalization threshold may be capitalized if the estimated total of the project exceeds the capitalization threshold. For example, an agency may purchase several parcels of land which are individually less than the capitalization threshold for land. However, if these parcels were purchased for a single purpose, i.e., a State park, and the total is greater than the threshold, then the total amount may be capitalized. Similarly, if an agency acquires an item of equipment with a cost less than the capitalization threshold for equipment and the agency intends to improve the equipment item, and the cost of the asset and improvements are expected to exceed the threshold, the total cost of the equipment should be capitalized.

Each agency is required to maintain a capital asset management system which includes for all capital assets, at a minimum, the major asset category, description of asset, date of acquisition, method of acquisition, cost or other value, responsible organizational unit, location of asset, identification of applicable network or subsystem (for infrastructure assets), estimated life, estimated salvage value, annual and accumulated depreciation, appropriation, and insured value. If an agency reports infrastructure assets under the modified approach, the capital asset management system should also include condition assessment and maintenance data. If an agency reports works of art and historical treasures, the capital asset management system should also specify whether the asset is exhaustible or inexhaustible.

Agencies should conduct an inventory of all capital assets on an annual basis in accordance with Procedure 29.10.10.

**PROCEDURES**

**Capitalization of Works of Art and Historical Treasures**

Unless an agency meets the following conditions, it should capitalize collections of and additions to works of art and historical treasures. Agencies are encouraged, but not required, to capitalize those items that meet all of the following conditions:

- a) Held for public exhibition, education, or research in furtherance of public service, rather than financial gain;
- b) Protected, kept unencumbered, cared for, and preserved; and
- c) Subject to an organizational policy that requires the proceeds from sales of collection items to be used to acquire other items for collections.

Individual items that are not part of a collection should always be capitalized if the cost of that item exceeds the capitalization threshold.

PROCEDURE	LEASES/FINANCED PURCHASES/CERTIFICATES OF PARTICIPATION	REVISION NUMBER 24-002

**LEASES/FINANCED PURCHASES/CERTIFICATES OF PARTICIPATION**

**ACCOUNTING FOR LEASES-LESSEE**

In governmental accounting, under GASB Statement No. 87, there is now a single model for lease accounting. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset. A lease is defined as “a contract that conveys control of the right to use another entity’s nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment.”<sup>1</sup>

Short-term leases are excluded from this requirement. A short-term lease is defined as “a lease that, at the commencement of the lease term, has a maximum possible term under the lease contract of 12 months (or less), including any option to extend, regardless of their probability of being exercised. Lessees ... should recognize short-term lease payments as outflows of resources ... based on the payment provisions of the lease contract.”<sup>1</sup>

A lessee should recognize a lease liability and a right to use asset at the beginning of the lease term, unless the lease is a short-term lease (as described above) or it is an installment purchase. The lease liability will be measured as the present value of the payments over the lease term, less any lease incentives. The right to use asset will be measured as the amount of the initial lease liability plus any payments made to the lessor at the beginning of the lease term.

Lease transactions are processed by the Comptroller’s Office using a form SCO-560, which is completed by agencies. The future commitments for leases are recorded as part of “Leases Payable” in the agency’s financial statements.

**ACCOUNTING FOR FINANCED PURCHASES**

Financed purchase transactions are those in which payments of the purchase price are made in installments over an extended period. These transactions are processed like leases by the Comptroller's Office, with agencies filling out the required SCO-560. Unlike a lease, however, the title passes to the buyer at the beginning of the payment schedule, not the end, and the property is reported in the appropriate asset category (e.g., equipment, buildings) rather than as a lease asset. The future commitments are recorded as part of "Leases Payable" in the agency's financial statements.

**ACCOUNTING FOR CERTIFICATES OF PARTICIPATION**

The State is authorized to issue certificates of participation representing the right to receive a proportionate share in lease-purchase or financed purchase payments made for the benefit of State agencies for the acquisition or improvement of real or personal property, refinancing of such property, payment of expenses of such property, or payment of expenses related to the issuance. State agencies are required to submit to the Comptroller's Office a copy of the certificate of participation's official statement/prospectus, the notice of sale, if available, and Bond Interest and Redemption Schedule within 30 days of the closing date or the beginning date of the borrowing, whichever is later. (See SAMS procedure 31.30.10.) The balance of these certificates is recorded as "Certificates of Participation" in the agency's financial statements.

**DISCLOSURE OF LEASES-LESSEE**

The following information with respect to leases, other than short-term leases, shall be disclosed in the lessee's financial statements or the footnotes thereto.

- a. "A general description of its leasing arrangements, including (1) the basis, terms, and conditions on which variable payments not included in the measurement of the lease liability are determined and (2) the existence, terms, and conditions of residual value guarantees provided by the lessee not included in the measurement of the lease liability
- b. The total amount of lease assets, and the related accumulated amortization, disclosed separately from other capital assets
- c. The amount of lease assets by major classes of underlying assets, disclosed separately from other capital assets
- d. The amount of outflows of resources recognized in the reporting period for variable payments not previously included in the measurement of the lease liability
- e. The amount of outflows of resources recognized in the reporting period for other payments, such as residual value guarantees or termination penalties, not previously included in the measurement of the lease liability
- f. Principal and interest requirements to maturity, presented separately, for the lease liability for each of the five subsequent fiscal years and in five-year increments thereafter.
- g. Commitments under leases before the commencement of the lease term
- h. The components of any loss associated with an impairment (the impairment loss and any related change in the lease liability)."<sup>1</sup>

Criteria for the accounting and disclosure of leases from the standpoint of the lessor are also included in the Governmental Accounting Standards Board Statement No. 87.

**DISCLOSURE OF FINANCED PURCHASES**

The following information with respect to installment purchases shall be disclosed in the buyer's financial statements or the footnotes thereto:

1. Future payments, broken down between principal and interest, as of the balance sheet date for the next five fiscal years and in five-year increments, thereafter.
2. Financed purchase assets with a fair market value greater than \$5000 are recorded under the appropriate asset category (e.g., equipment, buildings), not leased assets, since the title to the property has already passed. In governmental funds, the asset value of new current year financed purchases must be recorded in the year end GAAP package as an increase in other financing sources. Payments made on financed purchases are originally recorded as expenditures. At year end, these payments must be reclassified out of expenditures and recorded as debt service principal and interest. To convert to the government-wide statements the amount shown as other financing sources should be reversed and shown as an addition to assets and a liability. Principal payments during the year should be eliminated from expenditures and shown as a reduction in the liability account. In proprietary funds, the related liability is recorded on the balance sheet at the beginning of the financed purchase. As payments are made, the amounts applicable to the principal are recorded as a reduction to the liability account. The interest portion is shown as an expense on the agency's records in the accounting period in which the liability is incurred.

**DISCLOSURE OF CERTIFICATES OF PARTICIPATION**

The outstanding year end balance of Certificates of Participation (COPs) and the future COPs debt service requirements for the next five years and in five-year increments thereafter must be disclosed in the financial statement footnotes. COPs are recorded in the financial statements in a manner similar to other long-term debt instruments, e.g., revenue bonds. Refer to procedure 03.50.20.

Governmental Accounting	The composite activity of analyzing recording, summarizing, reporting and interpreting the financial transactions of governmental units and agencies.
Governmental Funds	<p>Those funds through which most governmental functions typically are financed. The acquisition, use and balances of the government's expendable financial resources and the related current liabilities--except those accounted for in proprietary funds--are accounted for through governmental funds. Governmental fund types include general fund, special revenue funds, capital projects funds, debt service funds and permanent funds.</p> <p>The governmental fund measurement focus is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources), rather than upon net income determination.</p>
Grant	A contribution made by one governmental unit (State or Federal) to another unit or to an individual. The contribution is usually made to aid in the support of a specified function, but it may be for general purposes.
Impairment of Capital Assets	A significant, unexpected decline in the service utility of a capital asset.
Imposed nonexchange revenues	Assessments by governments on nongovernmental entities, including individuals, other than assessments on exchange transactions. Examples include property taxes, fines and penalties and property forfeitures (e.g. seizures and escheats). The principal characteristic of these transactions is that the required transmittal of resources to the assessing government is imposed by that government on an act committed or omitted by the provider (e.g. property ownership or the contravention of a law or regulation) that is not an exchange transaction. Enabling legislation sometimes places purpose restrictions on the use of the resources. Alternatively, or in addition to purpose restrictions, the government may specify the period when the resources are required to be used or when use may begin. For example, property taxes generally are required to be used in or beginning in a particular period – the period for which the taxes are levied – which may not be the same period that payment is due or the period when the government has a right to place a lien on the property.

Incurred But Not Reported (IBNR) Estimated liabilities related to claims that have occurred, but have not been reported as of the date of the financial statements.

Indirect Expenses Expenses related to a function (or some lower classification level presented in the Statement of Activities) that are not direct expenses. For example, the general government function includes expenses that are, in essence, indirect expenses of other functions.

Inexhaustible Assets Capital assets that have an infinite useful life.

Infrastructure Long-lived capital assets that normally are stationary in nature and can be preserved for a significantly greater number of years than most capital assets. Examples of infrastructure assets include roads, bridges, tunnels, drainage systems, waterways, water and sewer systems, dams and lighting systems (attached to infrastructure assets, e.g., interstate lighting or airport runway lighting). Buildings, except those that are an ancillary part of a network of infrastructure assets, should not be considered infrastructure assets.

Income Receipt Adjustments Adjustments to receipts of the previous fiscal year.

Increase/Decrease-Fund Year to Date The difference between the current fiscal Year-to-date item (expenditures or receipts) and the prior fiscal year-to-date item (expenditures or receipts).

% Increase/Decrease-Current Month Percentage increase or decrease of the current item (cash receipts or expenditures) over the item (cash receipts or expenditures) for the same month of the prior fiscal year.

% Increase/Decrease Fiscal Year To Date Percentage increase or decrease of the current fiscal year-to-date item (cash receipts or expenditures) over the item (cash receipts or expenditures) for the same period of time in the prior fiscal year.

Financed Purchase Agreement An agreement where title to the property (ownership) vests in the purchaser immediately, in exchange for a written promise to pay the seller a series of future payments at agreed upon dates and amounts.

Financed Purchase Obligations Liabilities for the payments of principal and interest under an financed purchase contract.

APPROPRIATION TRANSFERS

STATUTE STATEMENT

The authority for agencies to make appropriation (budget line) transfers is contained in the following sections from An Act in Relation to State Finance (30 ILCS 105/13.2):

Sec. 13.2. "Transfers among line item appropriations. (a) Transfers among line item appropriations from the same treasury fund for the objects specified in this Section may be made in the manner provided in this Section when the balances remaining in one or more such line item appropriations is insufficient for the purpose for which the appropriation was made.

No transfers may be made from one agency to another agency, nor may transfers be made from one institution of higher education to another institution of higher education. Transfers may be made only among the objects of expenditure enumerated in this section, except that no funds may be transferred from any appropriation for personal services, from any appropriation for State contributions to the State Employees' Retirement System, from any separate appropriation for employee retirement contributions paid by the employer, nor from any appropriation for state contribution for employee group insurance. Further, if an agency receives a separate appropriation for employee retirement contributions paid by the employer, any transfer by that agency into an appropriation for personal services must be accompanied by a corresponding transfer into the appropriation for employee retirement contributions paid by the employer, in an amount sufficient to meet the employer share of the employee contributions required to be remitted to the retirement system.

(c) The sum of such transfers for an agency in a fiscal year shall not exceed 2% of the aggregate amount appropriated to it within the same treasury fund for the following objects: Personal Services; Extra Help; Student and Inmate Compensations; State Contributions to Retirement Systems; State Contributions to Social Security; State Contribution for Employee Group Insurance; Contractual Services; Travel; Commodities; Printing; Equipment; Electronic Data Processing; Operation

of Automotive Equipment; Telecommunications Services; Travel and Allowance for Committed, Paroled and Discharged Prisoners; Library Books; Federal Matching Grants for Student Loans; Refunds; Worker's Compensation, Occupational Disease, and Tort Claims; and, in appropriations to institutions of higher education, Awards and Grants. Notwithstanding the above, any amounts appropriated for payment of workers' compensation claims to an agency to which the authority to evaluate, administer and pay such claims has been delegated by the Department of Central Management Services may be transferred to any other expenditure object where such amounts exceed the amount necessary for the payment of such claims...

(c-10) Special provisions for State fiscal year 2024. Notwithstanding any other provision of this Section, for State fiscal year 2024, transfers among line item appropriations to a State agency from the same State treasury fund may be made for operational or lump sum expenses only, provided that the sum of such transfers for a State agency in State fiscal year 2024 shall not exceed 8% of the aggregate amount appropriated to that State agency for operational or lump sum expenses for State fiscal year 2024. For the purpose of this subsection, "operational or lump sum expenses" includes the following objects: personal services; extra help; student and inmate compensation; State contributions to retirement systems; State contributions to social security; State contributions for employee group insurance; contractual services; travel; commodities; printing; equipment; electronic data processing; operation of automotive equipment; telecommunications services; travel and allowance for committed, paroled, and discharged prisoners; library books; federal matching grants for student loans; refunds; workers' compensation, occupational disease, and tort claims; Late Interest Penalties under the State Prompt Payment Act and Sections 368a and 370a of the Illinois Insurance Code; lump sum and other purposes; and lump sum operations. For the purpose of this subsection, "State agency" does not include the Attorney General, the Secretary of State, the Comptroller, the Treasurer, or the judicial or legislative branches.

(d) Transfers among appropriations made to agencies of the Legislative and Judicial departments and to the constitutionally elected officers in the Executive branch require the approval of the officer authorized in Section 10 of this Act to approve and certify vouchers. SUB-SECTION	OVERVIEW	EFFECTIVE DATE August 1, 2023
PROCEDURE	OBLIGATION REQUIREMENTS	REVISION NUMBER 24-001

---

OBLIGATION REQUIREMENTS

Generally, all contracts, purchase orders, leases, and grant agreements exceeding \$20,000 must be filed with the Comptroller and obligated on SAMS.

CONTRACTS FOR SERVICES

Generally, individual orders for repairs, maintenance or other services that will exceed \$20,000 to any single vendor must be reduced to writing, filed with the Comptroller within thirty days of execution, and individually obligated on SAMS. The \$20,000 is based on the individual order and not on individual payments.

Individual orders not exceeding \$20,000 are not required to be filed or obligated with the Comptroller. Agencies should, however, maintain all encumbrances on prospective expenditures within their internal accounting systems to prevent obligating in excess of their appropriations.

GRANTS

Per the Illinois Procurement Code (30 ILCS 500/1-15.42), a grant is “the furnishing by the State of assistance, whether financial or otherwise, to any person to support a program authorized by law. It does not include an award the primary purpose of which is to procure an end product for the direct benefit or use of the State Agency making the grant, whether in the form of goods, services, or construction. A contract that results from such an award is not a grant and is subject to this Code.”

74 Illinois Administrative Code 900.120 (administrative rules implementing the Prompt Payment Act 30 ILCS 540 et seq.) excludes awards and grants—such as pass-through grants, distributive payments, and refunds—as defined here in Procedure 15 from eligibility for prompt payment interest. However, the Prompt Payment Act further specifies that “prevention, intervention, or treatment services and supports for youth provided by a vendor by virtue of a contractual agreement” is included in “goods or services furnished to the State” for the purpose of this Act.

PURCHASES OF COMMODITIES AND EQUIPMENT

Individual purchases or Orders for Delivery from the same vendor that exceed \$20,000 must be filed with the Comptroller within thirty days of execution and individually obligated on SAMS.

---

Purchases of commodities and equipment from the same vendor are viewed as a series of isolated transactions and as long as a single purchase or Order for Delivery does not exceed \$20,000, it need not be filed or obligated.

MASTER CONTRACTS

Master contracts negotiated for use by multiple agencies to be used on an as needed basis are to be filed with the Comptroller’s Office. The liability of the State with these contracts is contingent upon the agency’s use of the service.

An order against a Master Contract and any modifications to the order must include:

- The goods and/or services ordered
- The term of the obligation
- The amount(s) of the obligation
- The Agency Head signature
- The Master Contract number in the description on the Contract Obligation Document (C-23)

The Master Contract field in SAMS must be populated with the master contract number. Master contract information can be accessed on the Comptroller’s website, [www.illinoiscomptroller.gov/financial-data/state-expenditures/contracts/](http://www.illinoiscomptroller.gov/financial-data/state-expenditures/contracts/).

FILE ONLY AGREEMENTS

File Only agreements paid entirely from locally held funds do not require obligation and are not entered into the SAMS system. They must, however, be included on the File Only Agreements Quarterly Reports in compliance with Public Act 102-029.

FILING REQUIREMENTS

State Agencies shall file with the Comptroller a copy of a contract, purchase order, grant, lease, cancellation, or modification thereto within 30 days of execution. For filing purposes, “execution” occurs when all required elements of an agreement have been written and formally approved (in writing) by all parties as required by law for filing with the Comptroller. For contracts that require three agency signatures per the State Finance Act (30 ILCS 105/9.02), execution will occur when the vendor and all three agency signatures have been affixed.

STATUTE STATEMENT

The Comptroller Act prescribes the functions of the Office of the Comptroller. The statutes provide guidance on what and to some degree how the Office of the Comptroller is to accomplish the tasks it is authorized to perform.

Those sections of the State Comptroller Act of particular interest to vouchering are:

Section 9 of the State Comptroller Act, (15 ILCS 405/9) provides:

- (a) “No payment may be made from public funds held by the State Treasurer in or outside of the State treasury, except by warrant drawn by the Comptroller and presented by him to the Treasurer to be countersigned except for payments made pursuant to Section 9.03 or 9.05 of this Act.
- (b) No warrant for the payment of money by the State Treasurer may be drawn by the Comptroller without the presentation of itemized vouchers indicating that the obligation or expenditure is pursuant to law and authorized, and authorizing the Comptroller to order payment.
- (b-1) An itemized voucher for under \$5 that is presented to the Comptroller for payment shall not be paid except through electronic funds transfer. This subsection (b-1) does not apply to vouchers presented by the legislative branch of State government.
- (c) The Comptroller shall examine each voucher required by law to be filed with him and determine whether unencumbered appropriations or unencumbered obligational or expenditure authority other than by appropriation are legally available to incur the obligation or to make the expenditure of public funds. If he determines that unencumbered appropriations or other obligational or expenditure authority are not available from which to incur the obligation or make the expenditure, the Comptroller shall refuse to draw a warrant.
- (d) The Comptroller shall examine each voucher and all other documentation required to accompany the voucher, and shall ascertain whether the voucher and documentation meet all requirements established by or pursuant to law. If the Comptroller determines that the voucher and documentation do not

meet applicable requirements established by or pursuant to law, he shall refuse to draw a warrant. As used in this Section, 'requirements established by or pursuant to law' includes statutory enactments and requirements established by rules and regulations adopted pursuant to this Act.

- (e) Prior to drawing a warrant, the Comptroller may review the voucher, any documentation accompanying the voucher, and any other documentation related to the transaction on file with him, and determine if the transaction is in accordance with the law. If based on his review the Comptroller has reason to believe that such transaction is not in accordance with the law, he shall refuse to draw a warrant.
- (f) Where the Comptroller refuses to draw a warrant pursuant to this Section, he shall maintain separate records of such transactions.
- (g) State agencies shall have the principal responsibility for the pre-audit of their encumbrances, expenditures, and other transactions as otherwise required by law.”

Section 9.03 of the State Comptroller Act, (15 ILCS 405/9.03) provides:

“The Comptroller, with the approval of the State Treasurer, may provide by rule or regulation for the direct deposit of any payment lawfully payable from the State Treasury and in accordance with federal banking regulations...in the accounts of those persons or entities maintained at a bank, savings and loan association, or credit union, where authorized by the payee.”

Section 10.17 of the State Comptroller Act, (15 ILCS 405/10.17) provides:

“Section 10.17. Refusal to draw warrant. Whenever the Comptroller shall refuse to draw a warrant pursuant to any voucher, the Comptroller shall notify the submitting agency of the reason for the refusal and shall retain a record of the disapproved voucher. If the agency receiving the statement is not the originating agency, it shall transmit such information within 3 days to the originating agency.”

Section 14 of the State Comptroller Act, (15 ILCS 405/14) provides:

“The Comptroller may prescribe and require State agencies to use forms for all documents required by law in the performance of his duties or which he may reasonably require therefor. The Comptroller may prescribe by rule the general nature of information to be contained in contracts required to be filed with him under Sections 11 and 15 of this Act. Any such rule shall be adopted, amended or repealed as provided by the Administrative Procedure Act. The Comptroller may, when he deems it advisable for the promotion of efficiency in State government, accept magnetic tape vouchers, electronically submitted vouchers, and computer output microfiche vouchers. The Comptroller shall process such vouchers as provided in Section 9. These vouchers shall be subject to conditions and requirements established by the Comptroller. Computer output microfiche vouchers shall be deemed original records under the Comptroller’s Records Act.”

Section 9.02(b) of “An Act in relation to State Finance,” (30 ILCS 105/9.02) provides in part:

- (b)(1) “Every voucher, as submitted by the agency or office in which it originates, shall bear (1) the signature of the officer responsible for approving and certifying vouchers under this Act and (2) if authority to sign the responsible officer's name has been properly delegated, also the signature of the person actually signing the voucher.
- (2) When an officer delegates authority to approve and certify vouchers, he shall send a copy of such authorization containing the signature of the person to whom delegation is made to each office that checks or approves such vouchers and to the State Comptroller. Such delegation may be general or limited. If the delegation is limited, the authorization shall designate the particular types of vouchers that the person is authorized to approve and certify.
- (3) When any delegation of authority hereunder is revoked, a copy of the revocation of authority shall be sent to the Comptroller and to each office to which a copy of the authorization was sent.

The Comptroller may require State agencies to maintain signature documents and records of delegations of voucher signature authority and revocations of those delegations, instead of transmitting those documents to the Comptroller. The Comptroller may inspect such documents and records at any time.

- (c) The Comptroller may authorize the submissions of vouchers through electronic transmissions, on magnetic tape, or otherwise.”

Section 9.04 of “An Act in relation to State finance,” (30 ILCS 105/9.04) states:

“The certification on behalf of the State agency on every State voucher for goods and services other than a payroll or travel voucher shall be as follows:

I certify that the goods or services specified on this voucher were for the use of this agency and that the expenditure for such goods or services was authorized and lawfully incurred; that such goods or services meet all the required standards set forth in the purchase agreement or contract to which this voucher relates; and that the amount shown on this voucher is correct and is approved for payment. being procured pursuant to a formal, written contract the terms of which require advance payment. If it is not possible to execute a written contract, the voucher shall so state. The voucher shall also state that the contract requires the goods or services to be delivered or received prior to the expiration of the lapse period of the fiscal year to which the expenditures are charged, provided however, that such a statement shall not be required on vouchers submitted for periodical subscriptions or organizational memberships.”

Vouchers for advance payments must comply with this provision. A sample statement is set forth below:

“The goods or services specified on this voucher were procured pursuant to a formal, written contract the terms of which require advance payment. The contract requires the goods or services to be received or delivered as of August 31 of the current fiscal year. Services which involve professional or artistic skills or any personal services of a contractual employee will be performed as of June 30 of the current fiscal year.”

Section 11 of “An Act in relation to State finance,” (30 ILCS 105/11) provides in pertinent part:

“When an appropriation is made for the following fixed charges, the State Comptroller shall draw his warrant on the State Treasurer for the payment thereof, upon the presentation of itemized vouchers issued, certified....”

Section 12 of “An Act in relation to State finance,” (30 ILCS 105/12) provides in pertinent part:

“Each voucher for traveling expenses shall indicate the purpose of the travel as required by applicable travel regulations, shall be itemized and shall be accompanied by all receipts specified in the applicable travel regulations and by certifying that the amount is correct and just; that the detailed items charged for subsistence were actually paid; that the expenses were occasioned by official business of unavoidable delays requiring the stay of such person at hotels for the time specified; that the journey was performed with all practicable dispatch by the shortest route usually traveled in the customary reasonable manner; and that such person has not been furnished with transportation or money in lieu thereof; for any part of the journey therein charged for.

Upon written approval by the Office of the Comptroller, a State agency may maintain the original travel voucher, the receipts, and the proof of the traveler’s signature on the traveler’s certification statement at the office of the State agency. However, except as otherwise provided in this Section for State institutions of higher education, nothing in this Section shall be construed to exempt a State agency from submitting a detailed travel voucher as prescribed by the Office of the Comptroller. Each State public institution of higher education is exempt from submitting a detailed travel voucher to the Office of the Comptroller but shall retain all receipts specified in the applicable travel regulations and shall annually publish a record of those expenditures on its official website using a form that it prescribes.”

STATUTE STATEMENT

The set of laws that have the primary impact upon the State of Illinois Payroll System is the State Comptroller Act and the State Salary and Annuity Withholding Act. The most relevant sections of these acts are:

State Comptroller Act (15 ILCS 405/9): This section of the act provides that payments made from public funds must be made by a warrant drawn by the Comptroller except as provided in Section 9.03 (see below). It also specifies that agencies supply an itemized voucher and that the Comptroller's Office audit the voucher for legality and fund sufficiency prior to issuing warrants.

State Comptroller Act (15 ILCS 405/9 (b-1)): An itemized voucher for under \$5 that is presented to the Comptroller for payment may not be paid except through electronic funds transfer.

State Comptroller Act (15 ILCS 405/9.03): This section provides that payments to a person paid from personal services may be made by direct deposit to the account of the person at a bank, savings and loan association, or credit union.

If a State Agency pays an employee's payroll without using direct deposit, the Comptroller may charge that employee a processing fee of \$2.50 per paper warrant. State employees covered by provisions in collective bargaining agreements that do not require direct deposit of paychecks are exempt from this mandate. In addition, a State employee may file a hardship petition with the Office of the Comptroller requesting an exemption from the direct deposit mandate.

State Comptroller Act (15 ILCS 405/10.05): This section provides that deductions may be made from the net pay by the Comptroller's Office whenever there is a claim in favor of the State on file against a State employee. No deductions may appear on the voucher relating to this section.

State Comptroller Act (15 ILCS 405/12): "The Comptroller shall be the State payroll officer, shall maintain the official payroll for all State agencies and shall supervise the issuance of all payroll warrants. The Comptroller shall design and approve payroll voucher forms and payroll distribution schedule forms, and any person presenting a payroll distribution schedule to the Comptroller shall use the prescribed form."

AGENCY TRANSMITTALS - RECEIPTS

GENERAL

The Receipts Deposit Transmittal, SAMS Procedure Exhibit 25.20.10-A, is used to deposit all receipts into the State Treasury. It has been designed to eliminate a free form transmittal letter. This form must be used when receipts are submitted to the Comptroller for ordering of money into a fund. The Comptroller's Office has begun accepting receipts on files.

An agency may report up to nine (9) receipt accounts within the same fund on one form. Multiple forms may be used when one deposit instrument, such as a Treasurer's Draft, is to be deposited into more than nine (9) receipt accounts or into receipt accounts for different funds. There does not have to be a one-for-one relationship between deposit instrument and receipt account.

Agencies requesting wire transfers must coordinate with the Treasurer's Office. The Agency will order monies and the wire transfer or advice will be sent to the Treasurer's Office. The Agency prepares a completed C-64 Form and sends to the Treasurer's Office. In the deposit instrument identification number, the "Type" is "1" and the "Description" is "Advice". The Treasurer's Office will affix the advice (wire transfer) and send to the Comptroller's Office for processing.

It is important to note that the instrument(s) accompanying a Receipts Deposit Transmittal should be receipts only. The deposit instrument should not contain monies applicable to cash refund transactions. When depositing cash receipts and cash refunds into the Treasurer's Clearing Account, it is the agency's responsibility to request separate instruments -- one for receipts and one for cash refunds. Any exception to this procedure requires approval by the Comptroller's Office prior to processing.

INSTRUCTIONS FOR COMPLETION OF THE  
RECEIPTS DEPOSIT TRANSMITTAL

PURPOSE

The purpose of this procedure is to provide instructions to complete the Receipts Deposit Transmittal to request the Comptroller to order monies into a State Treasury Fund.

PREPARATION OF THE FORM

The instructions for completing the form are set forth below. SAMS Procedure Exhibit 25.20.10-A illustrates a blank form with the instruction reference numbers on it. SAMS Procedure Exhibit 25.20.10-B illustrates a properly completed form. SAMS Procedure Exhibit 25.20.10-C is a

blank form for agency use. Please contact the Comptroller's Office for an electronic version of this form.

General Information

- 1 Name of Agency
- 2 Agency Address
- 3 A unique sequential number assigned to each transmittal by the submitting agency. **(Please note that this number is for your internal agency use only.)**
- 4 Date forwarded to Comptroller. **(Please note that this date is for your internal agency use only.)**
- 5 Name of fund into which money will be deposited. **(To be completed by the submitting agency.)**
- 6 Name, phone number, title, and email address of individual to be contacted for additional information.

Account Information

- 7-9 Receipt Account Code - the eleven (11) digit receipt account code as indicated in the receipts chart of accounts. If more than one deposit instrument is applicable to one receipt account, the receipt account need only be shown once. However, total instruments must equal total deposits.
- 10 Amount to be deposited into the receipt account. (Amounts cannot be negative.)
- 11 Enter CFDA (Catalog of Federal Domestic Assistance) Number, if applicable.
- 12 Description: Include a brief description of the major source of receipts and any other explanatory information on the nature of the deposit. For example: Federal monies received from the Illinois Criminal Justice Information Authority for a violence prevention program. Negative amounts may be used here for agency purposes.

- 13 Indicate type of instrument by inserting:
- 1 - if the instrument is an Advice of Credit (wire transfers or type),
  - 2 - if the instrument is a State Warrant,
  - 3 - if the instrument is a Treasurer's Draft,
  - 4 - if the instrument is a United States check,
  - 5 - if the instrument is a state-funded Illinois educational facility check,  
and/or
  - 6 - if the instrument is other than listed above.
- 14 Insert all instrument numbers.
- (Note: When the volume of deposit instruments exceeds the space provided on the Receipt Deposit Transmittal form, a separate list of the instrument numbers and type must be attached to the white distribution copy. In all cases, except deposits of interest income by the State Treasurer, a list of instrument types and numbers must either be cited on the transmittal or on an attached list.)
- 15 Total of "Amount" column.
- This total should equal the receipt accounts listed on the transmittal. If more than one transmittal is submitted, the combined total of all transmittals must equal the amount of the accompanying instrument(s).
- 16 **This Date Field is for Comptroller Use Only.** Date in this section is the date the deposit is ordered into the fund by the Comptroller.
- 17 Enter the six-digit agency assigned order number. This number should begin with the Comptroller-assigned alpha prefix and must be unique. See Exhibit 25.50.20-A for prefix list.
- 18 Total Dollar Amount of Deposit.

TRANSMITTING DEPOSIT TO COMPTROLLER

Transmitting Deposit

Receipt deposits are to be submitted on the Receipt Deposit Transmittal (C-64) form in a multiple copy format. The copy distribution must be clearly identified either at the bottom of the form or in the upper left-hand corner of the form.

Copy 6 (Goldenrod) of the Receipt Deposit Transmittal should be removed and retained by the submitting agency. Copies 1 through 5, with the deposit instruments attached, should be submitted to the Office of the Comptroller for processing.

After the deposit has been processed by both the Comptroller and the State Treasurer, copy 4 (Pink) will be receipted and returned by the State Treasurer to the depositing agency countersigned by the State Treasurer (20) and signed by the Comptroller (21). The Comptroller's deposit date (16) will be indicated. The countersigned C-64 and the deposit order number will facilitate reconciliation.

AGENCY NOTIFICATION

If any errors or omissions are detected on the transmittal before the deposit is made, the deposit will be returned to the agency.

If an error is discovered after the deposit is made, the Comptroller's Office will work with the agency and/or the Treasurer's Office to either correct the transaction or return it to the agency.

PROCEDURE	CAPITAL ASSET SUMMARY (SCO-538)	REVISION NUMBER 24-002

---

**CAPITAL ASSET SUMMARY (SCO-538)**

**PURPOSE**

The purpose of the Capital Asset Summary (Exhibit 27.20.38-A) is to ensure all capital assets of State agencies are reported in the State of Illinois' GAAP financial statements.

When applicable, this form must be completed annually and sent to the Comptroller's Office as part of the year-end reporting package. Two copies should be retained by the agency: one to provide an internal record, and one for the Auditor General or his representative.

**GENERAL**

The Capital Asset Summary should be used by all State Agencies to report capital assets and related accumulated depreciation/amortization. Agencies should complete one form summarizing capital asset information for all governmental funds and a separate form for each proprietary fund using the SCO-538 form within the Comptroller's WEDGE system. Agencies should complete a separate manual form for each pension trust fund, private purpose trust fund, and component unit. To determine fund classification, refer to the Summary of Agencies and Fund Classifications (Procedure 27.50.10).

The amounts reported in the Balance at June 30, Prior Year column should be the amounts reported in the Balance at June 30, Current Year column from the final SCO-538 in the prior fiscal year. In addition, the amounts reported for leases and subscription-based information technology arrangements (SBITAs) and the related amortization should equal amounts reported in the Comptroller's lease system. These amounts will be provided by the Comptroller's Office after all SCO-560's submitted by an agency have been processed.

Capital outlay payables should only be recorded if the expenditure is greater than or equal to the related capitalization threshold (see 03.30.20). For example, equipment purchases should be \$5000 or greater.

It is of vital importance the standard journal entries made in conjunction with the SCO-538 for capital outlays accounts payable and the expenditure reconciliation agree with the corresponding information on the SCO-547, 548 and 549. When the GAAP package is completed, it should be reviewed to ensure entries for capital outlays agree to the SCO-538 submitted in August for governmental funds. If the capital outlays reported on the early submission SCO-538 do not agree to the final year-end reporting package, adjustment(s) should be made as necessary. A revised

---

SCO-538 must be submitted to the Comptroller's Office as soon as possible. Changes to the SCO-538 could result from the availability of more complete or accurate information regarding the amount of lapse period capital outlays subsequent to the SCO-538 submission in August.

The Comptroller's Office has established capital asset policies that include capital asset definitions, financial reporting thresholds, economic useful life guidelines, and depreciation/amortization methods. Refer to Capital Asset Reporting (Procedure 03.30.10).

Descriptions of the capital asset classes are as follows:

- Land and Land Improvements
- Site Improvements
- Buildings and Building Improvements
- Equipment
- Infrastructure
- Construction-in-Progress
- Historical Treasures and Works of Art
- Leases
- Subscription-Based Information Technology Arrangements
- Intangible Assets

The State is also required to disclose information on certain items identified in the following:

- Impairment of capital assets - GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and For Insurance Recoveries*, provides guidance on accounting for impairment losses associated with permanent impairments of capital assets.
- Public-Private/Public-Public Partnerships (PPPs) (including Service Concession Arrangements) and Availability Payment Arrangements (APAs) - GASB Statement No. 94, *Public-Private/Public-Public Partnerships and Availability Payment Arrangements*, provides guidance on accounting for PPPs, in which a government contracts with an operator to provide public services by conveying the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset, for a period in an exchange or exchange-like transaction. Service concession arrangements fall under the PPP guidance. GASB Statement No. 94 also provides guidance on APAs, in which a government compensates an operator for services that might include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period in an exchange or exchange-like transaction.

All amounts reported on this form should be rounded to the nearest thousand. Where a row or column does not apply, leave it blank.

**INSTRUCTIONS**

All capital assets meeting the capitalization threshold as discussed in 03.30.20 must be included on this form. All of an agency's governmental funds' capital assets are to be combined and reported on one form within the Comptroller's WEDGE system. Each proprietary fund GAAP Package contains an individual SCO-538 form for completion within the Comptroller's WEDGE system.

A separate SCO-538 manual form should be submitted for each Pension Trust Fund, Private Purpose Trust Fund, Component Unit, and University and be accompanied by a completed SCO-537, SAMS to GAAP Reconciliation – Capital Assets. The SCO-538 should be completed first.

Additions to Capital Assets

Additions to capital assets include new purchases, new leases and SBITAs entered into during the current year, acquisitions related to prior years not previously reported, or property donated to the State. Lease and SBITA information is provided by the Comptroller's Office in connection with SCO-560 and SCO-560S using the Comptroller's lease system.

Additions to accumulated depreciation/amortization include current year depreciation expenses associated with the capital assets as predetermined by the original value and useful life using the straight-line depreciation method as prescribed by the Comptroller's Office in Chapter 3.30.40. The current year amortization expense for leases/SBITAs will be computed by the Comptroller's Office using the lease system.

Deletions from Capital Assets

Deletions include reductions to capital assets and unplanned terminations of lease or SBITA assets. Reductions include capital asset inventory adjustments and sales or retirements. Unplanned terminations of lease or SBITA assets are leases or SBITAs terminated at any time prior to the normal expiration of the specified term.

Deletions to accumulated depreciation/amortization include reductions to capital assets and terminations of lease or SBITA assets. Transfers

Transfers are transactions involving a change in ownership of capital assets between agencies and/or funds. Total Capital Development Board (CDB) transfers for the year, including transfers-in-transit at fiscal year end, should be included in this column. Any amount of CDB transfers **not** capitalized should be included in the deletions column. CDB transfers-in-transit at fiscal year end must also be included as a reconciling item on the SAMS to GAAP Reconciliation tab of the SCO-538 form within the Comptroller's WEDGE system or on the SCO-537, SAMS to GAAP Reconciliation – Capital Assets.

Transfers within the accumulated depreciation/amortization section are transactions involving a change in ownership of capital assets between agencies and/or funds. The transferring agency must notify the receiving agency of the accumulated depreciation/amortization of a transferred asset at the time of the transfer.

When the lease or SBITA agreement is complete and ownership of the asset is acquired, that asset and related accumulated amortization must be transferred out of the lease or SBITA asset class and transferred into the appropriate class (e.g. equipment).

Corrections of prior year errors, deemed not material for restatement, can be recorded against additions or deletions as applicable. Material additions and deletions, corrections or prior year errors must be accompanied by an explanation.

**STANDARD JOURNAL ENTRIES**

Capital outlays should be reclassified from the agency's designated expenditure function. For each fund listed in the capital outlays reconciliation section, "Expenditures Per SAMS" less "Non-capitalized Expenditures" plus "Other Capital Outlays" less "Leases" (the sum of (30) and (32) less (31) and (33)) is the amount to reclassify to the capital outlays expenditure account 550. This reclassification should then be posted on Form SCO-547. The Comptroller's Office will post the portion of this reclassification related to leases or SBITAs from information captured in the Comptroller's lease system.

NOTE: An entry in (35) requires capital outlays accounts payable to be disclosed on the SCO-549, and an adjusting journal entry to be made to the SCO-548.

**GRANT/CONTRACT ANALYSIS (SCO-563)**

**PURPOSE**

The purpose of the Grant/Contract Analysis Form is to calculate a receivable or liability at the fiscal year-end and determine other pertinent financial information related to grants and contracts. Form SCO-563 also provides information needed to prepare the Statewide Schedule of Expenditures of Federal Awards (SEFA) for the primary government portion of the State of Illinois Reporting Entity in accordance with the Federal Single Audit Act of 1984 (with amendment in 1996) and OMB Circular A-133 (“Audits of State, Local Governments, and Non-Profit Organizations”).

When applicable, this form must be completed annually via the Form SCO-563 electronic reporting system which can be accessed via the Comptroller’s website. Two copies should be retained by the agency: one to provide an internal record and one for the Auditor General or his representative.

**GENERAL**

Form SCO-563 should be completed by all State agencies of the primary government for each fund receiving cash or non-cash assistance from the Federal government, other government units or private organizations. Contracts or awards received from another State fund must be reported on Form SCO-567.

For reimbursement-type grants in which the State cannot qualify for resources without first incurring allowable costs, grant expenditures are the prime factor for determining whether eligibility requirements have been met. An expenditure should be recognized in the accounting period in which the fund liability is incurred, if the amount is measurable. Revenue should be recognized when the expenditure is incurred for reimbursement-type grants. For other grants in which incurring allowable costs is not an eligibility requirement, revenue should be recognized when all applicable eligibility requirements are met regardless of the amount and timing of expenditures. Emphasis in completing this form should be placed on the items comprising total reimbursable costs. Total reimbursable costs are defined as the amount of reimbursement earned for the grant or contract during the fiscal year. Reimbursement may be received after year-end. Disallowed costs should be excluded from the calculation. The formula for total reimbursable costs for reimbursement-type grants is as follows:

Plus: Current Year Due To (From) Subgrantees per SCO-568

Less: Prior Year Accounts Payable

Total Reimbursable Costs

Information reported on Form SCO-563 is used in preparation of the Statewide SEFA. In order to capture required data, fields related to CFDA number, pass-through entity identification number and amounts provided to subrecipients must be completed. Funds passed-through to other State agencies must be reported to ensure Federal funds are not double counted on a statewide basis.

All amounts reported on this form must be rounded to the nearest thousand. Where a line does not apply, leave it blank. In addition, for SEFA reporting purposes, expenditures and amounts paid to subrecipients are required to be reported in whole dollars. The whole dollar values should be reported in the additional fields provided.

When preparing Form SCO-563 for funds with multiple grants/contracts it is often beneficial to prepare a summary spreadsheet prior to inputting transactions in the Form SCO-563 electronic reporting system. Exhibit 27.20.63-A has been included to facilitate preparation of the Form SCO-563.

## INSTRUCTIONS

Grants or contracts reported on this form should be one of two types: non-cash or cash. If a grant or contract has both cash and non-cash components, they should be reported as separate lines on Form SCO-563.

### *Non-Cash Grants or Contracts*

The value of non-cash assistance distributed must be reported as revenues and expenditures in the applicable section of Form SCO-563. The following methods of valuation should be used for non-cash awards expended:

#### *Loans and Loan Guarantees*

New loans made or received during the fiscal year plus the balance of loans from previous years for which the federal government imposes continuing compliance requirements, plus any interest subsidy, cash, or administrative cost allowance. Proceeds of loans received and expended in prior years are not considered federal awards expended in the current year when the laws, regulations, and provisions of contracts or grant agreements pertaining to such loans impose no continuing compliance requirements other than to repay the loans.

**INTERFUND ACTIVITY-GRANTEE AGENCY (SCO-567)**

**PURPOSE**

The Interfund Activity-Grantee Agency Form has several purposes: to provide receivable and liability adjustments relating to transactions with other State funds, to provide mandatory transfer documentation and to determine entries necessary to the GAAP Trial Balance Forms. Data collected on Form SCO-567 also assists in the preparation of the Schedule of Expenditures of Federal Awards (SEFA) for the primary government portion of the State of Illinois' Reporting Entity. In addition, Form SCO-567 captures all non-internal service and non-pension trust activity. Only federal activity is required to be reported for component units and universities. Interfund transactions consist of internal reimbursements, third party reimbursements, services provided, transfers, transfers-like, interfund borrowing, and designated revenue transfers activity. Furthermore, such transactions are broken down and summarized on the form by reporting activity between:

- Primary Government Funds Transactions
- Primary Government Fiduciary Transactions
- Component Unit Transactions

When applicable, this form is to be completed annually and submitted to the Comptroller's Office electronically via the Comptroller's WEDGE system. Two copies should be retained by the agency: one to provide an internal record and one for the Auditor General or his representative.

**GENERAL**

Form SCO-567 should be completed for all funds on the receiving end of fiscal year activity that included transactions with other funds, except as noted above. There are two general interfund activities reported on Form SCO-567. They are as follows:

1. Agency Activity – Transactions between primary government agencies and component units not included as a SAMS Mandatory Transfer as defined below.
2. SAMS Mandatory Transfers – Transfers initiated by the Comptroller's Office pursuant to statutory guidance.

Interfund transactions **must** be reviewed to determine the transaction type. Within each of the two activities reported on Form SCO-567, there are seven types of transactions. Those transaction types are as follows:

1. Internal Reimbursements - **Interfund reimbursement** transactions from other funds of the State where the providing fund is not being reimbursed by a third party,
2. Third Party Reimbursements - **Interfund reimbursement** transactions from other funds of the State in which the providing fund is being reimbursed through a grant or contract by a third party,
3. Services Provided - **Interfund services provided** or used activity with other funds, except for internal service funds,
4. Transfers - **Interfund transfers** between a primary government governmental or proprietary fund and a primary government governmental or proprietary fund. Transfers are a flow of resources without an equivalent flow of resources in return and without a requirement for repayment,
5. Transfers-like - **Interfund transfers** between a primary government governmental, proprietary or fiduciary fund and a primary government fiduciary fund; or between a primary government governmental, proprietary or fiduciary fund and a component unit,
6. Interfund Borrowings - Loans between two primary government funds with expected repayment, and
7. Designated Revenue Transfers - **Interfund transfers** where revenues are initially deposited into one fund and subsequently transferred to a designated special revenue fund.

See SAMS Procedure 05.50.01 for definition of the bolded terms above.

All amounts reported on this form must be rounded to the nearest thousand. Where a line does not apply, leave it blank. For SEFA reporting purposes, receipts, expenditures, and/or amounts paid to subrecipients are required to be reported in whole dollars for federal third-party reimbursements (“P” type transactions). The whole dollar values should be reported in the additional fields provided.

**STANDARD JOURNAL ENTRIES BY TRANSACTION TYPE**

The purpose of the following journal entries is to record the various reclassifications and adjustments resulting from completion of this form. The entries identified below are based on the type of transaction.

GASB 34 requires these types of transactions to be recorded differently on each fund's trial balance based on the respective transaction type. All entries shown assume a due from other funds scenario will result. If a due to other funds or an unearned revenue scenario results, see page 35 of these instructions for guidance.

When preparing reclassification entries, it is helpful to utilize the Summary tab on Form SCO-567. However, when preparing entries for fiduciary transactions, the detail tabs will need to be utilized in order to determine transaction type. When preparing adjusting entries, the detail tabs should be utilized as amounts due to/from other funds must be recorded in gross rather than net amounts. In certain situations, variation from the entries below may be required based upon the activity in the fund. The Comptroller's Office should be contacted for guidance when necessary. **Agencies should carefully analyze and understand activity to ensure the journal entries posted are appropriate.**

Note: the accrual entry examples included below are all prepared assuming a due from is calculated.

**1. INTERNAL REIMBURSEMENT TYPE (R) ACTIVITY:**

Activity is an **Internal Reimbursement** and is between:

- two Primary Government Governmental Funds, or
- two Primary Government Proprietary Funds, or
- a Primary Government Governmental Fund and a Primary Government Proprietary Fund.

*For Agency Activity, the following entry should be made as an adjusting entry to Form SCO-544 (Use Due Amount):*

Account Number	Account Name	Debit	Credit
141	Due from Other Funds	XXX	
4XX	Revenue (by GAAP account number)		XXX

To record due from other funds for internal reimbursement type transactions.

**COMPONENT UNIT AND FIDUCIARY SCHEDULE OF FOOTNOTE DISCLOSURE  
INFORMATION (SCO-585)**

**PURPOSE**

The purpose of the Component Unit and Fiduciary Schedule of Footnote Disclosure Information Form (Exhibit 27.20.85-A) is to collect all required footnote disclosure information to be reported in the State's Annual Financial Report.

When applicable, this form must be completed annually and sent to the Comptroller's Office as part of the year-end reporting package. Two copies should be retained by the component unit: one to provide an internal record and one for the Auditor General or his representative.

**GENERAL**

The Component Unit and Fiduciary Schedule of Footnote Disclosure Information must be completed by all component units and fiduciary funds preparing manual GAAP Packages (pension trust funds, investment trust funds, and private-purpose trust funds).

All amounts reported on this form must be rounded to the nearest thousand. Where a line or column does not apply, leave it blank. If more space is needed, attach additional pages clearly indicating to which section the attachment refers.

**INSTRUCTIONS**

The Leases-Lessee and Leases-Lessor, Financed Purchases, and Subscription-Based IT Arrangements (SBITAs) sections of the SCO-585 can be completed using the Comptroller's lease reports and/or component unit records. The Certificates of Participation and Revenue Bonds Payable and Extraordinary Items, Special Items and Endowment Information sections can be completed using component unit records. Total future commitments for certificates of participation and revenue bonds reported by the component unit should agree to the principal and interest outstanding reported in the confirmation of the State's Annual Report of Bonded Indebtedness and Long Term Obligations.

INTRODUCTION

GENERAL

State property consists of land, land improvements, site improvements, buildings, building improvements and equipment. Equipment is defined in section 5010.200 of the Illinois Administrative Code (Title 44, Subtitle D, Chapter I, Part 5010, Subpart B). Other categories of State property are defined in 03.30.10 of the SAMS Manual.

Reporting by agencies to the Comptroller on State property ensures current statewide information applicable to property held by or on behalf of the State and ensures that agencies update property records, as necessary, to reflect the current balance of State property. It also enhances the accuracy of the statewide information reported by the agencies and the Comptroller.

The objective of the State property reporting process is to maintain current property information at a summary level. The reporting of detailed property information to the Comptroller at the transaction or individual property item level (except leases and subscription-based information technology arrangements ) is not required at this time. This detailed information is to be maintained and made available to the Comptroller upon request.

GASB Statement No. 87, Leases, is effective for fiscal year ending June 30, 2022 and establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. A lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment.

GASB Statement No. 94, Public-Private and Public-Public Partnership Arrangements (PPPs) is effective for fiscal years beginning after June 15, 2022. A PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs), is effective for fiscal years beginning after June 15, 2022 and establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability. A

SBITA is defined as a contract that conveys control of the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction.

The reporting of leases to the Comptroller should be done using the forms SCO-560 (Lessee) and SCO-561 (Lessor). Refer to instructions in 27.20.60 and 27.20.61 of the SAMS manual.

The reporting of PPPs to the Comptroller should be done using the form SCO-561P. Refer to the instructions in 27.20.61P of the SAMS Manual.

The reporting of SBITAs to the Comptroller should be done using the form SCO-560S. Refer to the instructions in 27.20.60S of the SAMS Manual.

#### DETAIL RECORD KEEPING

Although agencies are required to report to the Comptroller on the summary level, supporting detail records must be maintained. Such detail records are to be organized by major asset category and include the following information for each asset: (1) Cost (or other value); (2) function and activity; (3) reference to acquisition source document; (4) acquisition date and date placed in service; (5) name and address of vendor; (6) short description of asset; (7) organization unit charged with custody; (8) location; (9) fund and account from which the item was purchased; (10) method of acquisition; (11) estimated useful life; (12) estimated salvage value; (13) date, method and authorization of disposition; (14) tag number; (15) accumulated depreciation; (16) depreciation method; (17) depreciation convention; and (18) insured value (if applicable). This list is not exhaustive. An agency may include additional information for its own needs. Items of a nominal value may be excluded from the detail records; however, sound internal controls would still dictate maintaining accountability for items of a nominal value.

#### REPORTING TO THE DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

The State Property Control Act (**30 ILCS 605**) describes an agency's reporting responsibilities to the Department of Central Management Services (CMS). CMS is required to keep a master record of real property (e.g., land, buildings, etc.). Therefore, agencies are required to report to CMS any changes, additions, deletions, or other transactions affecting real property on a monthly basis. Forms will be furnished by CMS.

Agencies must also maintain a permanent record of all property. A listing of the permanent record is required to be submitted to CMS annually in a format prescribed by CMS. Annual or even more frequent inventories may be required by CMS. Detail reporting requirements will be transmitted to agencies by CMS.

### SYSTEM CYCLE

The system cycle begins at the agency level with the preparation of the "Agency Report of State Property" (Form C-15). When the report is completed, it is submitted to the agency official responsible for approving it. After the official has reviewed and signed the report, it is submitted to the Office of the Comptroller for processing.

Purchased assets should generally be included on the Form C-15 in the quarter the assets were received.

Upon receiving the report from the agency, the Comptroller's Office will review it for completion of all data elements, clerical accuracy and reasonableness. The data from the report will be used for reporting purposes and for responding to inquiries by the general public and other users of statewide State property information.

### DOCUMENT DESCRIPTION

The "Agency Report of State Property" is for the reporting by State agencies of State property information classified by major category. The report also reconciles the beginning balance of State property by category, per agency records, to the ending balance of State property by category, per agency records. Its primary data elements are the major categories of State property, their related costs, the beginning balances for the quarter, the additions for the quarter, the deductions for the quarter, net transfers for the quarter and the ending balance for the quarter.

### PROCEDURES FOR ANNUAL ASSET COUNT AND INSPECTION

Each State agency should conduct an inventory of its assets on an annual basis in order to support the existence and accuracy of amounts reported. The inventory should include all capital assets meeting the requirements for capitalization in Procedure 03.30.30, Capitalization, as well as any additional assets meeting the requirements identified in Section 5010.460 of the Department of Central Management Services' Property Control Regulations. Agency management should take into consideration the number of assets to be counted and the location of the assets when determining the timing of the count.

---

Procedures to be followed in conducting an inventory depend on the category of the asset:

**Movable Assets**

A physical inspection and count should be conducted of all movable assets (e.g., equipment and works of art) to ensure the Agency's asset records are complete and accurate.

**Immovable Assets**

Agencies will need to determine if it is practical to physically count immovable assets, e.g., infrastructure, land, land improvements, site improvements, buildings and building improvements. At a minimum, agencies should ensure the listing of immovable assets is complete, accurate and supported by underlying documentation of ownership (e.g., certificate of title or deed).

Assets that are obsolete, damaged or no longer used in operations should be identified and, if necessary, removed from the agency's asset records. The asset records should be reconciled to the results of the inventory and updated accordingly.

STATEMENT OF GENERAL POLICY

"AGENCY REPORT OF STATE PROPERTY" (FORM C-15)

As mentioned previously, this report provides information at a summary level. When properly completed, it should present the total cost of State property, by category, reflected on the agency's records as of the reporting date and reconcile the beginning balance of State property to the ending balance. The Office of the Comptroller has determined that, for purposes of quarterly State property reporting, all assets with an individual value of \$2,500 or greater must be reported. Additionally, any items with an individual value of less than \$2,500 that are highly susceptible to theft must also be reported. Leases and SIBTAs are not required to be reported on the form.

In order to facilitate the consistent preparation of this report for transactions of a similar nature, the following guidelines should be followed:

I. Donated Property

Land, buildings, equipment and/or other State property received as a gift or donation should be recorded in the agency's records at their fair market value at time of donation. The fair market value is generally established by an appraisal performed by a qualified appraiser.

II. Financed Purchase Property

The value of property acquired by the financed purchase method is calculated by the Comptroller's Office in the same manner as leased property. All installment purchase transactions that have a transaction code of 38 or 39 on their Contract Obligation Document, an SCO-560 must be sent to the Financial Reporting Department of the Comptroller's Office at the time the Contract Obligation Document is submitted to the Obligations Unit. The Comptroller's Office will then inform the agency of the proper cost of the asset to be recorded in their records in a timely manner. When an agency is informed of the cost, this amount must be treated as an addition to the appropriate category of State property (i.e., buildings and building improvements, equipment, etc.).

III. Capital Development Board (CDB) Activity

A. Construction in Progress

The cost of projects involving the construction of assets or major remodeling, renovation and rehabilitation projects (as defined by the CDB) which are funded by direct appropriations to the CDB will be reported by the CDB as “Construction in Progress” (CIP) on their “Agency Report of State Property” until the CDB determines the project to be “substantially complete” (i.e., ready for its intended use). At the time the project is substantially complete, the CDB will complete the CDB Agency Turnover Report to transfer the project cost to the agency. The agency is then responsible for recording the capital asset on their books and records.

Remodeling, renovation and rehabilitation projects that are not classified as “major” by the CDB will not be accounted for as CIP. Costs associated with these projects will be transferred to the agencies on a quarterly basis, through the use of the “CDB Agency Turnover Report.” These costs will be classified as Non-CIP costs. At the time of the transfer, these costs should be recorded by the agency in their capital asset records as a repair and maintenance cost for that period. The guidance for distinguishing between repairs and maintenance and capital items is provided in SAMS 03.30.10.

B. Completed Projects

When a project which is being accounted for as construction in progress by the CDB is substantially complete (i.e., ready for its intended use), the CDB will remove these costs from its construction in progress account. The CDB removes costs from construction in progress quarterly and notifies agencies, through the use of the “CDB Agency Turnover Report,” of the costs to be recorded on their books. The agency for which the project was undertaken should record the cost of the project in the applicable asset category.

C. Capital Development Board Durable, Moveable Equipment

When an agency receives durable, moveable equipment purchased by the Capital Development Board, the equipment should be recorded on the agency's property records as the equipment is received, and the equipment should be

reported on the Agency Report of State Property in the period during which the equipment's cost is transferred from the CDB. If problems are encountered with the transfer report, please contact the CDB.

IV. Non-CDB Construction in Progress

Agencies that have construction in progress which is funded by direct appropriations to them should report the construction in progress costs as "Construction in progress" on their "Agency Report of State Property." This is true even though the Capital Development Board may be administering the project.

INSTRUCTIONS FOR COMPLETION OF THE  
"AGENCY REPORT OF STATE PROPERTY"

The following instructions present the procedures to follow in preparing the "Agency Report of State Property" (Form C-15). Exhibit 29.20.10-A illustrates a blank form with the reference numbers on it. Exhibit 29.20.10-B illustrates a properly completed "Agency Report of State Property." NOTE: A single Form C-15 should be prepared for all of an agency's governmental funds, while a separate Form C-15 should be prepared for each proprietary and fiduciary fund. In addition, a single Form C-15 should be prepared by each university. \*All amounts should be rounded to the nearest dollar.

**GENERAL INFORMATION**

- (1) Print or type the name of the agency, board, commission, university office, etc.
- (2) Enter the 3-digit Comptroller assigned agency number. Refer to Section 11 - Expenditure Authority (Procedure 11.50.40) for a complete listing of agency names and numbers.
- (3) Enter the official fund name for proprietary and fiduciary funds.
- (4) Enter the 4-digit Comptroller assigned fund number.
- (5) Enter the last day of the reporting period. For example, December 31, 2001 would be .

**ACCOUNT INFORMATION**

Instructions (6) through (10) apply to the cost of land and land improvements, site improvements, buildings and building improvements, equipment, financed purchases, and construction in progress reflected on the reporting agency's records as of the end of the last quarter reported. Cost refers to the historical cost of the assets. Assets should **not** be reported net of depreciation.

The cost of land, land improvements, site improvements, buildings and equipment should include the agency's cost of completed and substantially completed (i.e., ready for its intended use) facilities whether constructed or acquired by the Capital Development Board or the agency. Additionally, financed purchases should be included in the appropriate asset category. (Refer to

- (6) Enter the previous quarter's "Amount Per Agency Records" balance for land and land improvements.
- (7) Enter the previous quarter's "Amount Per Agency Records" balance for site improvements.
- (8) Enter the previous quarter's "Amount Per Agency Records" balance for buildings and building improvements.
- (9) Enter the previous quarter's "Amount Per Agency Records" balance for equipment.
- (10) Enter the previous quarter's "Amount Per Agency Records" balance for construction in progress. (See SAMS Procedure 29.10.30 for construction in progress reporting requirements.)
- (11) Sum amounts reported in (6) thru (10) and enter the result.
- (12) Enter, on the appropriate line, all additions to each asset category that occurred during the quarter being reported. This does not include transfers-in. Additions are new purchases, property donated to the State, and acquisitions related to prior years not previously reported. Note: Addition amounts related to prior years' acquisitions should also be separately identified on line (26).
- (13) Enter, on the appropriate line, all deletions to each asset category that occurred during the quarter being reported. This does not include transfers-out. Deductions include reductions and corrections of prior year errors. Reductions can include inventory adjustments down and sales or retirements. The majority of corrections are adjustments for prior year errors and material deletions. Note: All corrections must be footnoted. If deductions result in a positive amount, they are to be shown in brackets.
- (14) Enter, on the appropriate line, the net amount of transfers in/out that occurred during the quarter being reported. If the balance of net transfers is negative, it must be shown in brackets. Transfers refer to items that have either been moved between agencies (e.g. Capital Development Board construction, Central Management

Services surplus property) or within an agency between property categories. Also, items reported the previous quarter as "Transfers in from CDB" (16) must be included in the current quarter as "Net Transfers" in the appropriate asset category. Because these items were not part of the "Amount Per Agency Records" for the previous quarter, they were not included in the current quarter's beginning balance, and they need to be accounted for in the agency's records.

- (15) For each asset category, subtract (13) from the sum of the appropriate beginning balance (6-10), (12), and (14) and enter the result.
- (16) Enter, on the appropriate line, the amount of transfers-in from the Capital Development Board (CDB), if any. The amount to be recorded is the amount received from the CDB on the "CDB Agency Turnover Report" for the current quarter. Amounts on the "CDB Agency Turnover Report" are not to be reported as construction in progress, but in the categories designated by CDB. CDB will provide two copies of the "CDB Agency Turnover Report" to the agency when property is transferred. One copy of this document must be attached to the C-15 filed with the Comptroller to support the "Transfers-in from CDB" amount. Note: Because the previous quarter's "Transfers-in from CDB" amount was not included in the "Amount Per Agency Records", it must be included as "Net Transfers" on the current quarter's C-15. (See reference #14 above)
- (17) Enter, on the appropriate line, those items which were transferred from CDB that are not capitalized, if any, (e.g., repair and maintenance, equipment items previously added to inventory) by the reporting agency.

## PURPOSE

The purpose of tax expenditure reports is to provide information required to satisfy the annual tax expenditure reporting requirement as specified in the State Comptroller Act 15 ILCS 405/16. This data will be summarized in a publication to be issued by the Comptroller's Office. Reports are necessary for each tax, license, fee, or registration authorized by state law and collected by state agencies. Reports are not necessary for taxes, licenses, fees, or registrations levied by units of local government and collected by state agencies, nor for taxes, licenses, fees, registrations that are not deposited into state funds, or for reimbursements for services provided to the State from collecting and remitting tax under the Retailers' Occupation Tax Act, the Use Tax Act, the Service Occupation Tax Act, or the Service Use Tax Act. The Comptroller's Office has an Internet-based Tax Expenditure Reporting System. Agencies reporting tax expenditures must use this system to simplify processing of tax expenditure information.

## GENERAL

A tax expenditure is any incentive authorized by law that by exemption, exclusion, deduction, allowance, credit, preferential tax rate, abatement, or other device reduces the amount of tax revenue that would otherwise accrue to the State.

Exemptions from one state tax that are subject to another tax are not considered tax expenditures. Examples include the use tax exemption for transactions subject to the state sales tax and credits for taxes paid to other states.

When tax payments are deferred, the tax expenditure is the estimated interest loss to the State due to the deferral. An example of a deferral is a provision that excuses farmers from making estimated income tax payments.

## CONTENTS

State agencies should use the online Tax Expenditure Reporting system at the Comptroller's website, <https://taxexpenditures.illinoiscomptroller.gov/login/>, for reporting tax expenditure information. Information requested is as follows:

- (4) Select Tax Expenditure Registry from the "Sections" tab in the toolbar and select a specific tax receipt from the center drop-down key. Click the "Find" button, and then click the "Proceed to Tax Receipt Information" link on the left side of the screen. Tax receipts from the previous fiscal year will already be there. Tax receipt names (revenue sources) may be added by going to the Tax Expenditure Registry and clicking the "Go to Add Form" button. Tax receipt names may be renamed or deleted only upon request. Users may request a record be renamed or deleted by clicking the "Update Record" button or the "Delete Record" button, respectively. Changes and deletions will require documentation supported by statute.
- (5) For each tax receipt, enter the statutory authority citation, year enacted, year effective, description (including the transactions or items on which it is levied and the rate), and receipts for the current fiscal year. Amounts should be rounded to the nearest thousand.
- (6) Go to the Tax Expenditure Information page (link at bottom of screen) for a selected tax receipt. Tax expenditures may be added, deleted, or renamed via the procedures described in (4).
- (7) Enter the name of the tax expenditure.
- (8) Indicate whether there is a reportable cost estimate. If there is no reportable cost estimate, select an option to explain why: the tax expenditure cannot be calculated or the tax expenditure cost is insignificant.

- (9) Enter the Tax Expenditure Description (link at bottom of screen). Describe how the tax expenditure reduces the revenues that would otherwise accrue to the State. List any amendments since the effective date of this tax expenditure. Specify the type of tax expenditure (e.g., exemption, exclusion, deduction, allowance, credit, preferential tax rate, or abatement). Are those who qualify for the tax expenditure totally exempt from liability, or is their liability reduced from that of payers ineligible to benefit from the tax expenditure? If liability is reduced, how much is the reduction? Does the law include any changes in the tax expenditure since the previous fiscal year or in the upcoming fiscal year?
- (10) Enter the Tax Expenditure Methodology (link at bottom of screen). Describe how the cost of the tax expenditure was estimated. Include the data sources, such as calculated from tax returns, estimated from a sample of returns, based on data from federal returns for a similar tax, or derived from economic data. Describe any adjustments made to the base data. Is the difference between the current year's estimate and next year's estimate based solely on expected changes in receipts for the revenue source, or does it reflect any expected legal or other changes? Please note if the methodology has changed between the prior and current fiscal years.
- (11) Enter the Tax Expenditure Assessment (link at bottom of screen). Assess the impact of the tax expenditure on various classes of payers of the revenue source. Describe the groups that benefit from the tax expenditure.
- (12) Enter the Tax Expenditure Statutory Authority (link at bottom of screen). The Tax Expenditure Statutory Authority page includes a text box specifying the tax expenditure component for which the authority is being listed. If there is only one tax expenditure component, the component name should be identical to the tax expenditure name. If a tax expenditure has more than one component that was separately enacted, but the cost is being reported as a group, fill out a separate Tax Expenditure Statutory Authority for each one using the "Add Form" button. For example, the sales tax exemptions for coal, oil, and distillation machinery and equipment were separately enacted, but the Department of Revenue reports their cost as a group.

**PURPOSE**

The purpose of the Fee Imposition Report is to obtain information specified in the Illinois State Auditing Act (30 ILCS 5/3-8.5). The information is compiled in a report by the Comptroller's Office and submitted annually in a preliminary manner to the General Assembly by September 1. The Comptroller's Office has an Internet-based Agency Fee Imposition Reporting System. All agencies must submit their reports using this system.

**GENERAL**

Fees are charges by State agencies to citizens and private organizations. They include assessments, fares, fees, fines, levies, licenses, penalties, permits, registrations, tolls, and tuition. They do not include the following:

- Criminal and civil penalties (e.g., court fines, speeding tickets).
- Charges to State employees for insurance and retirement.
- Charges commonly considered taxes (e.g., hotel operators' tax, liquor taxes, sales and use taxes).

Indicate whether the fee program goals as specified in (6) were met, and enter an analysis of the degree to which the goals were achieved. Do not use commas or cents when entering the administrative cost.
- (8) Indicate whether the fee is a user charge. User charges are charges intended to reimburse government for all or some of the cost of providing a service or operating a program; the revenues derived from a user charge must be deposited into a fund that supports the program. Tuition is an example of a user charge because it supports the operations of the university receiving the tuition. On the other hand, any fee with revenues deposited into the General Funds is not a user charge.
- If the agency user checks the box indicating that the fee is a user charge, a series of questions will appear after clicking the “Update Record” button. The user will need to indicate whether the user charge financially supported a program (a) fully, (b) partially, or (c) not at all. The user will then need to enter an analysis of the degree to which the user charge supported the program, and the percentage of program costs that were covered by the user charge revenues.
- (9) Go to the “Fee Description C” screen. Enter the names of programs funded with revenue from the fee. Enter the statutory citation from the Illinois Compiled Statutes and the citation from the Illinois Administrative Code that provides authority to fund the programs with revenue from the fee, along with any other appropriate sources that provide such authority.

When the revenues from a fee are used for multiple programs, the information for each program should be entered as a separate record. After the information is entered for each program, click the “Add Record” button to clear the screen and allow the new program to be described.

- (10) Go to the “Rates” screen. Describe the basis for determining the fee rate. If not set by statute, specify the methodology used to determine the fee rate. Enter the rate classification describing how the fee is levied (e.g., per license issued, per credit hour) and, for fees with multiple rates, the class to which the rate applies (e.g., rate for seniors 65 and older, rate for vehicles 8,000 lbs. to 12,000 lbs.). Enter the number of people who were charged the fee. Indicate whether the fee is in dollars, or is a percentage of spending. Lastly, enter the fee rate.

- (11) Go to the “Deposits” screen. A separate record needs to be completed for each SAMS receipt account (an account has a unique fund, class, and source number). For each receipt account receiving fee revenues, enter (a) the four-digit SAMS fund number; (b) the SAMS revenue class code; (c) the SAMS revenue source code; and (d) the SAMS receipt subsource code. The codes are available through drop down boxes. For each such record, enter the amount deposited during the applicable fiscal year.

If a fee is deposited into multiple receipt accounts, use the “Go to Add Form” button after all the deposit information has been entered for a receipt account to allow the information to be entered for the next receipt account. The “Next” and “Previous” buttons allow movement between deposits for a particular fee.

An example of the “Deposits” screen is on the following page.

Round up to enter dollar amounts. The system does not accept cents.

**PURPOSE**

The purpose of Debt Transparency Act reports is to provide information required to satisfy the monthly state agency reporting requirement as specified in the State Finance Act 30 ILCS 105/9.08. This data will be summarized in a publication to be issued by the Illinois Office of Comptroller.

**GENERAL**

State agencies and universities are required to report monthly, among other items: the current liabilities held at the agency, the major fund source of the liabilities, whether the liabilities are appropriated and, if applicable, the estimated Prompt Payment Interest or Timely Payment Interest accrued.

Debt Transparency Act reports should be submitted to the Illinois Office of Comptroller in Excel format using only the appropriate SCO-961 form (available on the Comptroller’s website at [illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms](https://illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms)) and rounded to the nearest thousand dollars, not reported in thousands of dollars (e.g., \$12,745,890 should be reported as \$12,746,000).

To maintain uniformity and consistency among agency submissions, which are posted on the Office of Comptroller’s website, only SCO-961 forms provided by the Office of Comptroller should be used and submitted to the Office of Comptroller. Forms should not be modified or altered beyond entering the required data and explanatory information. Reports should not be submitted in PDF format.

The data submitted to the Office of Comptroller is intended to capture agency liabilities as of the last day of the reporting period (i.e., the last business day of the month).

Reports are due on the 10th calendar day of each month. If the 10th calendar day falls on a State holiday and/or weekend, the report is due the business day prior to that State holiday and/or weekend.

The report should be sent via email to [dtareport@illinoiscomptroller.gov](mailto:dtareport@illinoiscomptroller.gov). The subject of the email should be “Debt Transparency Act Report” and the body of the email should include the following fields: agency name, agency number, agency contact person, and agency contact phone

number. The Excel report should be attached to the email. If the agency is reporting \$0 liabilities, that should be noted in the body of the email, and the Excel attachment is not required.

The formatting of the Debt Transparency Act report should be followed, with columns corresponding to the SCO-961 form, as explained below. Submissions that do not follow the format prescribed by the Office of Comptroller in this manual may be considered non-compliant.

## CONTENTS

Column A: Major Fund Source – Agencies should report their liabilities held at the agency as one of the three following major fund sources: General Funds (as defined in 15 ILCS 20/50-40), Federal Trust Funds or Other State Funds (also see SAMS Manual procedures 09.50.10 – 09.50.55). Agencies should report their total liabilities in the major fund source row. Additionally, if any single, individual fund has more than \$1 million in liabilities in any column as of the reporting period date, the fund must be disclosed on a separate row in the report.

Column B: Agency Liabilities –This column should include all current liabilities of at least \$500 in total held at the agency as of the last day of the reporting period, regardless of whether the agency has sufficient appropriation to cover the liability. Liabilities associated with continuing or non-appropriations should also be included in the agency’s liabilities. For the purposes of this report, a liability is recognized when the agency is in receipt of an invoice/bill or other documentation containing sufficient information necessary to process a payment. Although the assignment of an appropriation is not required to be considered a liability, the fund or funds from which the payment(s) will be made will need to be specified. If the fund is not determinable at the reporting period date, the liability should be assigned to the most likely fund from which it will be paid.

Intergovernmental payments (including Revolving Fund payments) and agency liabilities that have been initiated into the Court of Claims process should be included in each agency’s individual report. Payroll liabilities (including accrued vacation and sick pay) should not be included.

Column C: Late Payment Interest – This column should include Prompt Payment Interest payments (30 ILCS 540) or Timely Pay Interest payments (215 ILCS 5/368a) when the associated warrants have already been issued by the Illinois Office of Comptroller and the agency has not sent the interest vouchers to the Illinois Office of Comptroller. These Prompt Payment Interest and Timely Pay Interest payments should not be included in Columns B, G, H, I, J or K.

Column D: Estimated Pending Liabilities – An estimate of any fund liabilities over \$1 million incurred by the State but not yet properly invoiced to the State should be reported as pending liabilities. Agencies should develop an estimation technique with documented procedures that can be reviewed by the Illinois Office of Comptroller upon request or by the agency’s auditors. Agencies should use the Narrative section of the SCO-961 form to describe the estimation technique used or provide any other relevant explanations or comments. The estimated liabilities in Column D should not be included in Column B.

Column D should not include Prompt Payment Interest or Timely Pay Interest calculated on vouchers that are still held by the agency. This Prompt Payment Interest should be reported in columns G, H, I and J, and the Timely Pay Interest should be reported in Column K.

Intergovernmental payments (including Revolving Fund payments) should be included in each agency’s individual report. Payroll liabilities (including accrued vacation and sick pay) should not be included.

Column E: Liabilities to be Submitted Within 10 Days – In this column, identify the portion of liabilities from columns B, C and D, greater than \$10 million, that are anticipated to be submitted to the Office of Comptroller for payment processing within 10 days after the conclusion of the respective reporting period.

Column F: Insufficiently Appropriated (Unappropriated Liabilities) – This column should report any projected shortfalls in appropriations for the current fiscal year relative to the expected liabilities (including anticipated payroll costs) estimated for the fiscal year. These shortfalls may result in the need for supplemental appropriations to pay all liabilities in the current fiscal year. For example, an agency expects to incur \$250,000 of liabilities from the General Revenue Fund for fiscal year 2022, but it only has \$235,000 in appropriation authority. The agency would report \$15,000 in Column F. This amount can include estimated shortfalls in the current fiscal year that are expected to result from insufficient appropriations in prior fiscal years. This column is not intended for non-appropriated activity. If a shortfall is reported during any reporting period, an explanation is to be provided in the Narrative section on the SCO-961 form.

Columns G, H, I, J and K: Estimated Late Payment Interest Penalties – These columns should include Prompt Payment Interest or Timely Pay Interest calculated on vouchers that are still held by the agency. The interest should be calculated to the end of the reporting period. Prompt Payment Interest should be reported as to the age of the associated vouchers in the applicable column: Column G – Interest owed on vouchers aged between 91 and 120 days late; Column H – between 121 and 180 days late; Column I – between 181 and 365 days late; and

Column J – more than 365 days late. Timely Pay Interest should be reported in Column K for associated vouchers more than 30 days late. Agencies reporting Timely Pay Interest should complete the SCO-961A form to provide additional details on the interest. The form is available on the Comptroller’s website at [illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms](https://illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms).

Variance Analysis: If a separately reported fund from Column B or Column D has either a negative variance or a positive variance from the prior reporting period that is greater than \$10 million, agencies must provide an explanation in the Variance Analysis section of the form. Agencies may also use this section to further explain any other variations in their Debt Transparency Act report.

Narrative: This section can be used to explain any estimation techniques used or to provide any other relevant explanations or comments the agency wishes to include.

Variance Analysis and Narrative example text: Example text for variance analysis and narrative is provided in the sample SCO-961 forms on the Office of Comptroller’s website. If your agency requires a variance analysis or narrative for the respective reporting period, please revise text accordingly. If your agency has no variance analysis or narrative for the respective period, the lines of example text should be reported as N/A.

Universities: Due to unique funding, the Office of Comptroller has provided separate reporting requirements for state universities. Universities should complete the SCO-961B form available on the Comptroller’s website at [illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms](https://illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms).

**PURPOSE**

The purpose of the Public Accountability Report (PAR) is to provide information on the service efforts, costs, and accomplishments of state agencies and universities and their major programs. This report is to be submitted annually to the Illinois Office of Comptroller (IOC) as part of the year-end reporting package. The PAR is due to the IOC by December 15.

The IOC has developed an Internet-based reporting system for collecting data from state agencies and universities. The reporting system is available through the Comptroller's Public Accountability Report Portal.

**GENERAL**

The Public Accountability Report is consistent with expectations and other reporting requirements regarding performance measurement already existing in Illinois state statutes. The Fiscal Control and Internal Auditing Act (30 ILCS 10/1001, *et seq.*) requires controls to ensure "resources are utilized efficiently, effectively, and in compliance with applicable law." (30 ILCS 10/3001(1)) It is not possible to demonstrate efficiency or effectiveness without appropriate measures of efforts, costs, and accomplishments. Additionally, the Civil Administrative Code of Illinois (Part 2) requires "an annual accountability report" from each department of state government listed in 20 ILCS 5/5-15. (15 ILCS 20/50-15)

As stipulated in Public Act 86-1415 (15 ILCS 405/6.01), effective September 11, 1990, the Comptroller is responsible for defining financial reporting requirements for Illinois state agencies:

*The Comptroller shall specify and establish the financial accounting and reporting standards and principles to be used by all State government and State agencies.... These standards and principles shall be known as the Generally Accepted Accounting Standards and Principles for Illinois State Government, and shall, whenever possible, be compatible with any similar nationally existing generally accepted accounting standards and principles for government.*

The core mission of the IOC is to provide quality fiscal information. It is the position of the IOC that fiscal information that consists solely of *financial* information is lacking an acceptable level of quality. Such financial information must be coupled with *non-financial* information (i.e., information on service efforts and accomplishments) if the financial information is to be meaningful.

The Governmental Accounting Standards Board (GASB) is the highest source of accounting and financial reporting guidance for state and local governments and retains ultimate authority over all external financial reporting by governmental entities. GASB’s Suggested Guidelines for Voluntary Reporting of Service Efforts and Accomplishments (SEA) Performance Information “are intended to help state and local governments that choose to communicate SEA performance information to citizens, elected officials, and other interested parties to do so effectively.... The reporting of SEA performance information better meets the needs of users of governmental financial information by enhancing both accountability and transparency of those governments who choose to report this information.” (GASB News Release, July 14, 2010)

GASB’s Suggested Guidelines are a useful reference for preparing an agency’s PAR. This guidance includes the characteristics that agencies should strive for in performance data: relevance, understandability, comparability, timeliness, consistency, and reliability. It also includes criteria for indicators and other useful information.

In general, the IOC does not establish the performance indicators, measures, or standards for an agency’s PAR. State agencies are typically expected to develop valid and generally accepted SEA-type indicators for approval by the IOC, which may advise and direct agencies on reporting for specific programs or services; gather the data required for the indicators; and report performance results in the form prescribed herein. It is assumed that a significant amount of information is already available for reporting using the SEA model based on the statutory provisions and requirements previously cited.

Agencies should not intermingle SEA-type information from different programs or services, but should prepare separate reports for each distinct agency function, program, or service being reported.

Agencies should also be able to substantiate their reports by maintaining adequate and appropriate documentation to support their mission statements, goals, objectives, and performance measures. This would include such elements as statutory or other authoritative sources for programs, mission statements, goals and objectives, definitions of performance indicators and data, the data collection and reporting process, the data storage and retrieval environment, etc.

**REPORTING DATES**

State agencies and universities report SEA information annually to the IOC, as prescribed in the following instructions, according to the schedule below:
