BACKGROUND

Recording of expenditures/expense and the related liabilities depends on the basis of accounting applied. Due to the distinctive nature of fund financial statements and fund accounting requirements, some long-term liabilities should be reported in fund financial statements, while some should be reported only in the governmental activities column in the government-wide financial statements.

PROCEDURES

Recognition Standards for Governmental Funds Financial Statements

The governmental funds financial statements use the current financial resources measurement focus and modified accrual basis of accounting (see Procedure 03.20.20). Under the current financial resources measurement focus, governmental funds should report expenditures, which generally do not include the deferral and allocation or amortization of costs that benefit one or more future periods. Expenditures and related liabilities should be recognized in the accounting period in which the liability is incurred, except for the following general long-term liabilities which should not be recognized until they are due (mature):

- Debt issues (including lease and financed purchase liabilities);
- Unmatured interest on general long-term debt;
- Compensated absences;
- Claims and judgments;
- Special termination benefits; and
- Landfill closure and postclosure care costs.

Accordingly, the portion of general long-term liabilities that is not matured (due for payment) should not be reported as governmental fund liabilities. Debt service and interest on formal debt issues (such as bonds and leases) generally should be recognized as a governmental fund liability and expenditure when due (matured). Compensated absences, claims and judgments, special termination benefits, and landfill closure and postclosure care costs should be recognized as governmental fund liabilities and expenditures to the extent the liabilities are "normally expected to be liquidated with expendable available financial resources." In general, agencies are normally expected to liquidate those liabilities with expendable available financial resources to the extent that the liabilities mature (come due for payment) each period.

The recognition of expenditures and governmental fund liabilities for compensated absences, claims and judgments, special termination benefits, and landfill closure and postclosure care costs is based on the maturity of the liabilities and does not depend on how an agency accumulates resources to pay those liabilities. Even though some agencies may advance-fund part or all of the liabilities covered by the "normally expected" criterion, that advance funding should not result in recognizing additional governmental fund expenditures or liabilities. Those accumulated net assets should be reported as a part of governmental fund balance—for example, as unreserved, designated fund balance, if appropriate.

Recognition Standards for Government-wide, Proprietary Fund, and Fiduciary (Trust) Fund Financial Statements

The government-wide, proprietary fund, and fiduciary (trust) fund financial statements use the economic resources measurement focus and accrual basis of accounting (see Procedure 03.20.20). Under the economic resources measurement focus, the activity statements report expenses, which include the deferral and allocation or amortization of costs that benefit one or more future periods. Under the accrual basis of accounting, expenses resulting from exchange and exchange-like transactions are recognized when the exchange takes place; expenses from nonexchange transactions are recognized in accordance with GASB Statement No. 33, as explained in Procedure 03.50.40.

Summary of Recognition Standards

The table on the following pages provides a summary of reporting for expenses/ expenditures and the related liabilities.

BACKGROUND

Long-term debt instruments that the State may issue include the following:

- **General Obligation Bonds** – General obligation bonds pledge the full faith and credit of the State to pay debt principal and interest. The State Constitution provides that the State may issue general obligation bonds for specific purpose in such amounts as provided either by the General Assembly with a three-fifths vote of each house or by a majority of voters in a general election.
- **Special Obligation Bonds** – Special obligation bonds are secured by a pledge of a dedicated portion of the State resources (e.g., sales tax, horse racing privilege tax, etc.).
- **Revenue Bonds** – Revenue bonds are secured by a pledge of income from assets constructed or acquired. Revenue bonds are not supported by the full faith and credit of the State. The bond indentures include a pledge from the issuing agencies and authorities that income derived from acquired or constructed assets be used to retire the debt and service-related interest.
- **Certificates of Participation** – Certificates of participation are instruments of indebtedness issued to finance equipment or facilities that are leased to a State agency. The lease payments are pledged to pay the debt principal and interest. The State issues certificates of participation representing the right to receive a proportionate share in lease-purchase or financed purchase payments to be made for the benefit of State agencies for the acquisition or improvement of real or personal property, refinancing of such property, payment of expenses of such property or payment of expenses related to the issuance. The State also finances the purchase of certain State-owned real and personal property through non-State issued certificates of participation. These non-State issued certificates of participation are sold by private concerns and are repaid by State agency appropriations pursuant to financed purchase agreements.
- **Notes** – Notes payable are unconditional written promises signed by the maker (i.e., a State agency or authority) to pay a certain sum in money on demand or at a fixed or determinable time either to the bearer or to the order of a person designated therein.
- **Lease Obligations** – Lease obligations are liabilities for payments under financed leases (i.e., the present value of the minimum lease payments).
- **Financed Purchase Obligations.** Financed purchase obligations are liabilities for the payments under an financed purchase contract.

PROCEDURES

Accounting for Proprietary Fund and Fiduciary Fund Long-Term Debt

Liabilities

Liabilities arising from long-term debt (including general obligation bonds) that are directly related to and expected to be paid from proprietary funds should be reported in the proprietary fund and government-wide financial position statements. Liabilities arising from long-term debt that are directly related to and expected to be paid from fiduciary funds should be reported only in the statement of fiduciary net assets.

Interest Expense and Related Liability

Interest expense accrues with the passage of time. In the government-wide financial statements as well as the proprietary and fiduciary fund financial statements, interest should be expensed and a related liability should be recorded for the respective time frame which has elapsed since the last payment date and the end of the reporting year.

Issuance Discounts and Premiums

The discount or premium resulting from the issuance of long-term debt instruments is not an asset or liability separable from the debt instrument which gives rise to it. Therefore, the discount or premium for proprietary and fiduciary fund debt should be reported in the applicable statements of net assets as a direct deduction from or addition to the face amount of the debt. It should not be classified as a deferred charge or deferred credit. Debt issuance discount or premiums should be amortized as interest expense or income over the life of the debt using the effective interest method, which is described in APB Opinion No. 12. The objective of the effective interest method is to arrive at a periodic interest cost (including amortization) which will represent a level effective rate on the sum of the face amount of the debt and (plus or minus) the unamortized premium or discount and expense at the beginning of each period. The difference between the periodic interest cost so calculated and the nominal interest on the outstanding amount of the debt is the amount of periodic amortization.

Debt Issuance Costs

Debt issuance costs for proprietary and fiduciary fund debt should be deferred and recorded as an "other asset" in the statements of net assets. Debt issuance costs should be amortized over the life of the debt using a method that approximates the effective interest method (i.e., gives consideration

LEASES/FINANCED PURCHASES/CERTIFICATES OF PARTICIPATION

ACCOUNTING FOR LEASES-LESSEE

In governmental accounting, under GASB Statement No. 87, there is now a single model for lease accounting. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset. A lease is defined as "a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment." [1]

Short-term leases are excluded from this requirement. A short-term lease is defined as "a lease that, at the commencement of the lease term, has a maximum possible term under the lease contract of 12 months (or less), including any option to extend, regardless of their probability of being exercised. Lessees … should recognize short-term lease payments as outflows of resources … based on the payment provisions of the lease contract.[1]

A lessee should recognize a lease liability and a right to use asset at the beginning of the lease term, unless the lease is a short-term lease (as described above) or it is an financed purchase. The lease liability will be measured as the present value of the payments over the lease term, less any lease incentives. The right to use asset will be measured as the amount of the initial lease liability plus any payments made to the lessor at the beginning of the lease term.

Lease transactions are processed by the Comptroller's Office using a form SCO-560, which is completed by agencies. The future commitments for leases are recorded as part of "Leases Payable" in the agency's financial statements.

ACCOUNTING FOR FINANCED PURCHASES

Financed purchase transactions are those in which payments of the purchase price are made in installments over an extended period. These transactions are processed like leases by the Comptroller's Office, with agencies filling out the required SCO-560. Unlike a lease, however, the title passes to the buyer at the beginning of the payment schedule, not the end, and the property is reported in the appropriate asset category (e.g., equipment, buildings) rather than as a lease asset. The future commitments are recorded as part of "Leases Payable" in the agency's financial statements.

1 Governmental Accounting Standards Board, Statement No. 87--*Leases*

ACCOUNTING FOR CERTIFICATES OF PARTICIPATION

The State is authorized to issue certificates of participation representing the right to receive a proportionate share in lease-purchase or financed purchase payments made for the benefit of State agencies for the acquisition or improvement of real or personal property, refinancing of such property, payment of expenses of such property, or payment of expenses related to the issuance. State agencies are required to submit to the Comptroller's Office a copy of the certificate of participation's official statement/prospectus, the notice of sale, if available, and Bond Interest and Redemption Schedule within 30 days of the closing date or the beginning date of the borrowing, whichever is later. (See SAMS procedure 31.30.10.) The balance of these certificates is recorded as "Certificates of Participation" in the agency's financial statements.

DISCLOSURE OF LEASES-LESSEE

The following information with respect to leases, other than short-term leases, shall be disclosed in the lessee's financial statements or the footnotes thereto.

a. "A general description of its leasing arrangements, including (1) the basis, terms, and conditions on which variable payments not included in the measurement of the lease liability are determined and (2) the existence, terms, and conditions of residual value guarantees provided by the lessee not included in the measurement of the lease liability
b. The total amount of lease assets, and the related accumulated amortization, disclosed separately from other capital assets
c. The amount of lease assets by major classes of underlying assets, disclosed separately from other capital assets
d. The amount of outflows of resources recognized in the reporting period for variable payments not previously included in the measurement of the lease liability
e. The amount of outflows of resources recognized in the reporting period for other payments, such as residual value guarantees or termination penalties, not previously included in the measurement of the lease liability
f. Principal and interest requirements to maturity, presented separately, for the lease liability for each of the five subsequent fiscal years and in five-year increments thereafter.
g. Commitments under leases before the commencement of the lease term
h. The components of any loss associated with an impairment (the impairment loss and any related change in the lease liability)."[1]

2 Governmental Accounting Standards Board, Statement No. 87--*Leases*

Criteria for the accounting and disclosure of leases from the standpoint of the lessor are also included in the Governmental Accounting Standards Board Statement No. 87.

DISCLOSURE OF FINANCED PURCHASES

The following information with respect to financed purchases shall be disclosed in the buyer's financial statements or the footnotes thereto:

1. Future payments, broken down between principal and interest, as of the balance sheet date for the next five fiscal years and in five-year increments, thereafter.

2. Financed purchase assets with a fair market value greater than $5000 are recorded under the appropriate asset category (e.g., equipment, buildings), not leased assets, since the title to the property has already passed. In governmental funds, the asset value of new current year financed purchases must be recorded in the year end GAAP package as an increase in other financing sources. Payments made on financed purchases are originally recorded as expenditures. At year end, these payments must be reclassified out of expenditures and recorded as debt service principal and interest. To convert to the government-wide statements the amount shown as other financing sources should be reversed and shown as an addition to assets and a liability. Principal payments during the year should be eliminated from expenditures and shown as a reduction in the liability account. In proprietary funds, the related liability is recorded on the balance sheet at the beginning of the financed purchase. As payments are made, the amounts applicable to the principal are recorded as a reduction to the liability account. The interest portion is shown as an expense on the agency's records in the accounting period in which the liability is incurred.

DISCLOSURE OF CERTIFICATES OF PARTICIPATION

The outstanding year end balance of Certificates of Participation (COPs) and the future COPs debt service requirements for the next five years and in five-year increments thereafter must be disclosed in the financial statement footnotes. COPs are recorded in the financial statements in a manner similar to other long-term debt instruments, e.g., revenue bonds. Refer to procedure 03.50.20.

Category	A group of related expenditures aimed at accomplishing a major activity such as operations, awards and grants, capital improvements, waterway improvements, highway construction, debt service and tax refunds.
Certificates of Participation	Instruments of indebtedness issued to finance equipment or facilities that are leased to a State agency. The lease payments are pledged to pay the debt principal and interest. The State issues certificates of participation representing the right to receive a proportionate share in lease-purchase or financed purchase payments to be made for the benefit of State agencies for the acquisition or improvement of real or personal property, refinancing of such property or payment of expenses related to the issuance. The State also finances the purchase of certain State-owned real and personal property through non-State issued certificates of participation. These non-State issued certificates of participation are sold by private concerns and are repaid by State agency appropriations pursuant to financed purchase agreements.
Charges for Services	Revenues that arise from charges to customers or applicants who directly benefit from the goods, services, or privileges provided or are otherwise directly affected by the services.
Clearing Account	An account used to accumulate total charges or credits for the purpose of distributing them later among the accounts to which they are allocable or for posting the new difference to the proper account. Also, a check-clearing demand deposit account maintained by the Treasurer.
Collections	Cash received by an agency which may or may not have been deposited in a cash-clearing account.
Combined Financial Statement	A financial statement showing individual statements of each fund of a particular group of funds in separate, adjacent columns. Interfund transactions are not eliminated and financial data of the respective funds is not combined.
Commitments	For GAAP reporting purposes, relates to contracts or projects authorized, but in the pre-contract stage or unobligated.
Committed Fund Balance	That portion of fund balance consisting of amounts that can only be used for specific purposes, pursuant to formal action of the government’s highest level of decision-making authority.

Commodities	Articles of a consumable nature which show a material change or significant depreciation with first usage, as well as repair parts and equipment, having a unit value less than the agency's capitalization policy amount.
Compensated Absences	Paid time off available to employees in connection with vacation leave, sick leave and similar benefits. For financial reporting purposes, compensated absences are strictly limited to leave that (1) is attributable to *services already rendered* and (2) is not contingent upon a specific event (such as illness) that is outside the control of the employer or employee.
Component Unit	A legally separate organization for which the elected officials of the primary government are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with a primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.
Composite Methods	Calculating depreciation for a collection of similar assets (e.g. traffic signals or lane-miles) or dissimilar assets (e.g. all assets composing a transportation network or building).
Construction in Progress	The accumulation of costs incurred during the construction of an asset. The accumulated costs are held in Construction in Progress until such time as the project is determined to be "substantially complete" (i.e. ready for its intended use).
Contingency	An existing condition, situation or set of circumstances involving uncertainty as to a possible gain or loss that will ultimately be resolved when one or more future events occur or fail to occur. Financial Accounting Standards Board No. 5, *Accounting for Contingencies*, provides guidelines for recognizing a loss liability in these situations. Examples of contingencies include the following: • Collectibility of receivables • Threat of expropriation of assets • Tax refund claims • Unemployment compensation • Pending or threatened litigation • Actual or possible claims and assessments • Guarantees of indebtedness of others • Agreements to repurchase receivables or the related property that have been sold.

13. Reimbursement to the Petty Cash Fund should only be made when either 50% of the fund has been exhausted, or a sufficient number of payment entries are available to fill a complete invoice voucher, or a large number of invoice tickets are on hand or immediately prior to dissolving the Petty Cash Fund. These processing guidelines should insure (1) the fund will not be depleted prior to receipt of the reimbursement warrant, (2) multi-page vouchers are not required for reimbursements, and (3) the possibility of losing petty cash invoices is kept to a minimum. The reimbursement voucher should detail the individual transaction in Block 10 (Description Block) of the C-13 State voucher form. A copy of the vendor invoices/statements or petty cash voucher forms are to be attached to the reimbursement voucher (C-13). See Exhibit 09.10.40-A. Detail object 1201 (Petty Cash Fund Reimbursements) should be cited on the reimbursement voucher.

C. Decrease/Dissolution of a Petty Cash Fund

1. Agencies wishing to decrease or dissolve a Petty Cash fund should return the excess amount or the total approved amount to be dissolved to the fund from which the Petty Cash Fund was originally established. If, at the time of fund dissolution, the amount to be returned is less than the total approved amount, and if the discrepancy is not due to a reason outlined in Section D., below, then a letter or memo must be submitted and signed by the head of the agency or designee explaining the reason for the discrepancy. (See 25.20.10 for instructions on returning funds to the State Treasury.)

2. After the Receipt Deposit Transmittal form C-64 has been returned from the Comptroller's office, submit a copy, with a completed Application to Establish or Dissolve a Fund form C-68 (See 09.20.20 for instructions on completing form C-68), to the Comptroller's Office, State Accounting Department.

3. The Office of the Comptroller, State Accounting Department, will review the application and approve or disapprove the decrease or dissolution of the Petty Cash Fund.

D. Stolen and/or Lost Imprest Cash Funds

1. Stolen

   An official police report must be made. A copy will be required for reimbursement.

2. Loss by Fire

   The fire should be reported to one of the three listed Fire Marshal's offices dependent upon the locality of the fire. A copy of the Fire Marshal's report or communication from the Fire Marshal should be made and a copy retained by the custodian.

   NOTE: A loss due to a natural disaster should be reported to either the police or Fire Marshal's Office whichever is appropriate.

   Change funds cash overages/shortages should be accounted for in accordance with generally accepted accounting principles. Agencies should have written internal procedures in place to monitor recurring cash shortages, investigate problems and identify steps for disciplinary action when necessary.

3. Voucher Processing Due to Funds Stolen, Lost or Destroyed

   a) An agency "petty cash voucher" shall be initiated and signed by the custodian and agency head verifying that the funds were stolen, lost or destroyed.

   b) The "petty cash voucher" and the official police report and/or Fire Marshal's report shall be submitted with the State invoice voucher via normal reimbursement procedures.

   c) These procedures do not release the custodian from the responsibility of safeguarding imprest funds, but are applicable only when said funds are stolen due to criminal action or lost as a result of fire or any other natural disaster.

E. Protection of the Fund

1. The Petty Cash Fund must be kept intact and not commingled with any other funds, e.g., the agency's daily cash receipts. Note that it is appropriate to commingle Change Funds with daily receipts as long as procedures are in place to reconcile daily receipts and properly record any cash overages/shortages.

2. The Petty Cash Fund is to be maintained on an imprest basis, i.e., cash on hand or in bank plus vendor's invoices/petty cash vouchers plus reimbursement vouchers in transit must equal the amount of the established fund at all times. All cash shortages are the responsibility of the custodian in charge of the fund.

3. As noted in paragraph G, audits are to be conducted periodically of the petty cash funds. In addition, the fund is subject to audit at any time by the Office of the Comptroller.

F. Annual Petty Cash Fund Usage Report (Form C-18)

1. "The Petty Cash Fund Usage Report" (Form C-18) must be completed for those petty cash funds exceeding $100 and should be filed with the Comptroller's Office no later than January 31 for the preceding calendar year. Electronic signatures are acceptable.

   A separate C-18 should be prepared for each Petty Cash Fund maintained.

(NOTE: An example of the "Usage Report" is shown in Exhibit 09.10.40-B-C.)

2. A vital part of the "Petty Cash Fund Usage Report" is the "Petty Cash Turnover Rate." This rate is arrived at by taking the annual disbursements and dividing them by the approved level of the fund. On an annual basis, the Petty Cash Fund should turn over approximately six times in order to insure the proper dollar level of the fund.

   If the "Annual Petty Cash Fund Usage Report" shows that an increase in the fund is needed because of the amount of activity, then the agency may request an increase to an upper limit of $1,000, subject to approval by the Comptroller.

   On the other hand, if the C-18 report shows insufficient activity to support the present dollar level of the fund, then a reduction should be made accordingly. If the turnover rate is less than six times annually and the custodian wishes to maintain the current fund level, please attach an explanation to the C-18, when filed, stating why the current level of the fund is needed, e.g., high seasonal activity.

   The report should be submitted to the following address:

   Office of the Comptroller
   State Accounting Department
   325 West Adams Street
   Springfield, Illinois 62704

G. Petty Cash Internal Control Certification (form C-86)

The Petty Cash Internal Control Certification (Form C-86) must be completed, at a minimum, biennially (once every two years) for each petty cash and change fund, which has been established for one year and exceeds $100.00. Annual submission is required for any petty cash fund that receives reimbursements of more than $5,000 in a fiscal year.

As soon as possible after the beginning of each fiscal year, the Comptroller's Office will send a list of qualified petty cash and change funds to each agency's fiscal officer or authorized agency representative required to submit the biennial certification.

1. Funds with greater than $5,000 reimbursements in a fiscal year.

   It is the responsibility of the Agency's Management to insure an internal audit is performed and a Petty Cash Internal Control Certification (form C-86)) is submitted to the Comptroller's Office for those fiscal years in which reimbursements to the fund exceeded $5,000. Such an audit is required by the State Finance Act (30 ILCS 105/13.3). The Fiscal Control and Internal Auditing Act (30 ILCS 10/2001) provides for the designation of which state agencies shall have a full-time program of internal auditing. This statute also contains a provision that agencies which do not have a full-time internal audit program may have internal audits performed by the Department of Central Management Services.

2. Funds with $5,000 or less reimbursement in a fiscal year.

   A Petty Cash Internal Control Certification (Form C-86) must be submitted to the Comptroller's Office for all Petty Cash funds over $100.00 on a biennial basis. This certification must be prepared by someone other than the custodian. Electronic signatures are acceptable. This independent preparer should review sufficient records to support their attestation for each item listed in the certification. This review will suffice for an audit when the petty cash fund has reimbursements of $5,000 or less in a fiscal year.

DISSOLUTION OF FUNDS

Dissolution of funds may be initiated by the General Assembly for funds created by statute; administering agencies for Federal Trust Funds, State Trust Funds, temporary trust funds or locally-held bank deposits; or the Comptroller, pursuant to 30 ILCS 105/5(c).

Temporary trust funds and bank deposits are automatically dissolved in accordance with the Illinois Compiled Statutes, 30 ILCS 230/2A.2. Authorization for continuance of the fund must be enacted within 30 days of the sine die adjournment of the General Assembly's next regular session or the fund will be dissolved and the remaining money deposited into the General Revenue Fund. For Federal Trust Funds and State Trust Funds, agencies are urged to initiate dissolution procedures when such a fund is no longer needed. Procedure 09.20.20 describes the steps necessary to initiate the dissolution of a fund by an agency.

FUND TRANSFERS

Transfer of monies from one fund to another may only be made under specific statutory authority. The Governor and the Governor's Office of Management and Budget initiate transfers on a regular basis; agencies initiate transfers according to the provisions of the statute authorizing the transfers. Procedure 09.20.30 should be followed when initiating a fund transfer.

NON-APPROPRIATED SPENDING

The current position the State follows regarding "non-appropriated" spending is that "non-appropriated" spending is permissible if the resources and purpose(s) for which they are to be spent were for (1) purposes and/or resources which were not appropriated by the General Assembly, (2) the spending of the resources does not commit the General Assembly to provide State "matching" resources, (3) the General Assembly has not specifically denied the purpose, (4) the agency has the statutory authority to carry on the activities of the program and (5) the spending is not required to be appropriated by a specific statute. In addition, "start-up" monies must be provided on an advance basis.

This position was taken by the Office, in lieu of specific guidance from the General Assembly or the Courts to react to State Agencies' need of implementing and operating programs which the General Assembly has not had sufficient time to consider or did not consider in the appropriation process.

The Office has taken the position that any non-appropriated spending from federal trust funds will be allowed for the first year of the program; however, it should be appropriated for any subsequent fiscal year.

Some individuals have expressed a concern regarding "non-appropriated" spending since the Constitution of 1970 states:

> "The General Assembly by law shall make appropriations for all expenditures of public funds by the State." (Ill. Constitution, Article VIII, Section 2)

In reviewing the Illinois Compiled Statutes, the only substantive guidance regarding the intent of this Constitutional provision is Section 34 of "An Act in Relation to State Finance," **(30 ILCS 105/34)**, which appears to authorize the State Treasurer to hold in a special fund and the State Comptroller to maintain accounts for such "public fund" which are not subject to appropriation. It states: "All public funds received or held by any State agency as defined in Section 7 of the 'State Comptroller Act' and not subject to appropriation, except funds held or directly administered by a

State agency pursuant to (a) any Act in relation to revenue bonds, (b) any bond indenture or other legally binding bond contract, (c) limitations legally imposed by the source of such funds, or (d) another statute, shall be paid over to the State Treasurer within 10 days of their receipt or within such other applicable period as may be specified in rules or regulations promulgated under subsection (b) of Section 2 of 'An Act in relation to the payment and disposition of moneys received by officers and employees of the State of Illinois by virtue of their office or employment,' approved June 9, 1911, as now or hereafter amended, and shall be held by the State Treasurer in a special fund for such agency. The Comptroller shall set up and maintain accounts for such funds as may be appropriate in conformity with the 'State Comptroller Act' and the rules and regulations adopted under the Act. Payments out of such funds shall be made by the Treasurer only upon warrant drawn and presented by the Comptroller in compliance with the 'State Comptroller Act." (Emphasis added)

Thus, the General Assembly, it appears, has taken the position that some "public funds" are "not subject to appropriation" and where "not subject to appropriation" a special fund may be established for the receipt of such funds, appropriate accounts set up and maintained whose uses are to be in conformity with the State Comptroller Act (and adopted rules and regulations), and, for which payments are to be made by the Treasurer upon warrants drawn and presented by the Comptroller.

Until further substantive guidance from the General Assembly or the Courts is received, the position this Office has implemented appears to be a method whereby the State can implement Programs, which do not commit the State to provide its general resources when spending the Program funds. In order to determine that an agency's request to establish a new fund or expenditure authority account meets the criteria specified in the first paragraph, the agency must submit along with the C-68 form or C-45 form (1) the executed copy of the grant program (or other appropriate document) which identifies the financial arrangements agreed to by the State agency and the grantor, (2) a copy of the State statute which allows the agency to conduct the activities of the program, (3) reference the State agency identifier (SAI #) number assigned by the Governor's Office of Management and Budget, clearing house section, if applicable, (4) identify which appropriated line(s) provided by General Assembly if state matching required, and (5) grant agreement must provide for advance funding for the non-appropriated portion of the program.

The Comptroller will hold an incomplete request for funds, non-appropriated account or revenue budget account establishment for two weeks. If the requesting agency is unable to provide necessary supporting documentation, such as signed grant awards, court orders, statutory citations, etc., within the two-week period, the request will be returned "not approved". Requests for account establishment may be resubmitted for review once a documentation package has been completed.

Where a fund is established pursuant to an appropriation bill (or in substantive law), the above documents need not be filed.

SYSTEMS CONTROL

The obligation accounting system provides computer reports detailing each agency's obligation transactions. Computer reports provide information necessary for each agency to reconcile their obligation balances with those maintained by the Comptroller.

Monthly Obligation Activity Report (Exhibit 15.30.20-A)

The Comptroller provides a monthly report listing the obligation transactions processed against each agency's accounts. The report is available at https://illinoiscomptroller.gov/state-agencies/sams/sams-monthly-reports.

The monthly Obligation Activity Report provides unliquidated obligation balances at two levels:

- At the detail level for each obligation that was "open" during the month
- At a summary level for each expenditure authority account having "open" obligations during the month

Detail obligation activity is in the following order on the report:

- Agency
- Fiscal year
- Appropriation account code
- Obligation number
- Transaction amount
- Individual transactions

The monthly activity includes transactions establishing or amending obligations and vouchers processed reducing previously recorded obligations.

The following information is provided at the detail level for each obligation that was "open" during the month:

- Unliquidated obligation balance at the beginning of the month
- Listing of all monthly activity against the "open" obligation
- Unliquidated obligation balance at the end of the month
- Summarization of all detail activity at the expenditure authority account level

Agency Contract Report (Exhibit 15.30.10-A)

Implementing Section 19 of the State Comptroller Act, the Agency Contract Report is available at www.illinoiscomptroller.gov. The report is a listing of all Procurement, Professional or Artistic contracts, Construction, Financial Assistance, other contractual service agreements, leases for real property, and other leases filed by State agencies to satisfy the requirements of Section 7 of the State Comptroller Act, Section 20-80 of the Illinois Procurement Code, and Section 9 of the State Finance Act. The report is arranged in seven sections for each agency and is available for public inspection on the Comptroller's website at https://illinoiscomptroller.gov/state-agencies/sams/sams-monthly-reports. Each section is arranged by contract or lease number within the agency.

Detail contract information is in the following order on the report:

- Fiscal Year
- Agency Name
- Contract Type
- Contract/Obligation Number
- Class Code
- Taxpayer Identification Number (last 4 digits only)
- Legal Status
- Vendor Name
- Address (city, state, zip code only)
- Contract Description
- Term of Contract
- Current Year Contract
- Maximum Amount
- Annual Amount
- YTD Obligation Amount
- YTD Voucher Amount
- Award Code
- Method of Compensation
- Appropriation Account Code Contract Payable From
- Contract Type Total
- Agency total

For more detailed summary of the report, see section 15.30.10.

Reconciliation of the Monthly Obligation Activity Report and Agency Contract Report.

Each agency must verify and reconcile to internal records all monthly transactions processed by the Comptroller. (See 15.30.20.) Errors in processing agency obligation transactions can result in erroneous account balances, and may cause the rejection of subsequent vouchers or obligations. These reconciliations must be completed within 60 days of the month end.

PRE-AUDIT

Obligation documents and any attached contracts or leases will be pre-audited to ensure that:

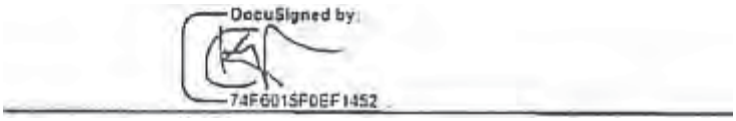
- The Contract Obligation Document (C-23 or COD) contains accurate information in all data fields, as specified in 15.20.10.
- The abstract information is completed on the Contract Obligation Document form.
- All statutory contract filing requirements are met.
- Specified contract content is met.
- Contract signature requirements include:
  - The agency signatory must have a Contract Authorization Signature Form (Form SCO-470) on file with the Comptroller's Office prior to filing a contract or affidavit.
  - Each designee must have written approval by the agency head in the form of a Contract Signature Authorization Form on file with the Comptroller's Office prior to executing a contract or affidavit.
  - Every contract signature applied using wet ink or a stamp must have the name and title of the signatory typed or printed legibly below their actual signature. If executed by a designee, the name and title of the agency head and designee are required.

Signatures applied electronically do not require the signatory's name and titletyped or printed below the actual signature unless the signature is unclear/not legible. See the following examples:

1. Name and title typed or printed below the signature line is **not** required.

2. Name and title typed or printed below the signature line is **not** required.

3. Name and title typed or printed below the signature line **is** required.



– Every contract signature must be dated.

– When any delegation of authority is revoked, the revocation of authority must be filed with the Comptroller's Office via a Contract Signature Revocation Form. (See 15.20.96.)

Any obligation document and/or attachment that does not meet all preaudit tests will be returned to the agency for correction and resubmission.

Obligations Delete Report (Exhibit 15.10.50-A)

State agencies will have five business days from the date of initial entry to correct any errors discovered through SAMS electronic edits or manual pre-audit. If the errors are not corrected in a timely manner, the transaction will be deleted from SAMS and the contract will be returned with a Deleted Documents Report (Exhibit 15.10.50-A).

It is important that the Comptroller's Office has accurate information on file specifying the agency personnel who will receive the reports and returned documents.

Obligations Error Messages for Online Agencies (Exhibit 15.10.50-B)

For errors detected during the Comptroller's manual pre-audit, the pre-audited obligation (PO) will be put "on hold" and the error message will be typed in SAMS screen POTX on line 98 and text lines 008-010 (Exhibit 15.10.50-B).

Deletion Requests From Agencies

To delete a document in the suspense file (SUSF), the agency must submit the request in writing on the SCO-052 "PO DELETION REQUEST" form (Exhibit 15.10.50-C). This document may be faxed. The form can be found at https://illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms.

INPUT REQUIREMENTS

Obligation data submitted to the Comptroller is used to establish and maintain a file of individual obligations by agency and account.

Comptroller-Approved Input Format

The Contract Obligation Document (C-23) is used to obligate contracts, leases, purchase orders, sub-orders, and printing orders. Specific examples of Contract Obligation Documents are included at the end of this section. Exhibit 15.20.10-A1 is a blank copy of the Contract Obligation Document (C-23) that is provided for agency use. The form is also available on the Comptroller's website at https://illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms.

The Contract Obligation Document (C-23), when submitted for contract and lease purposes, must contain those data elements indicated on Exhibit 15.20.10-A.

The following explain these data elements and the processing options they provide. The reference numbers next to each data element refer to the items shown in Exhibit 15.20.10-A and Exhibit 15.20.10-B.

(1) Agency Number

Enter the three-digit agency number contained in the organizational unit segment of the appropriation account code included in data element 12.

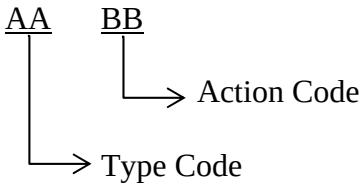
(2) Fiscal Year

Enter the last two digits of the fiscal year to which the obligation pertains. Thus, if an obligation pertains to fiscal year 2002, 02 is entered in this position.

(3) Transaction Code

Enter the four-digit code which indicates the type of obligation and processing action to be taken by the Comptroller. (See Exhibit 15.20.10-C.)

The four digits of the transaction code are structured as follows:



I. Type Code

The first two digits are the type code which indicate the type of contract, lease, or purchase being obligated and/or filed. On-line agencies should reference Purchase Order Type (XPOT) Table on Exhibit 15.20.10-E for crosswalk between SAMS and CUSAS order types.

A. Contracts and Leases

If the obligation relates to a contract or lease, the first two digits (type code) of the transaction code must be one of the following:

21 - Professional or Artistic - External Vendor
22 - Professional or Artistic - State Agency

23 - Construction

27 - Awards and Grants (Financial Assistance)

28 - Other Contract - External Vendor
29 - Other Contract - State Agency

*31 - Leases for Rental of Real Property

*38 - Other Lease/Financed Purchases - External Vendor

*39 - Other Lease/Financed Purchases - State Agency

years is necessary and is in the best interest of the institution. A lease under this subsection (a-5) may not exceed 30 years in length."

- Per Illinois Procurement Code 30 ILCS 500/25-47, renewable energy contracts and leases may be entered into for a period of time deemed to be in the best interest of the State, but not exceeding 25 years inclusive of proposed contract or lease renewals.

NOTE: Whenever a multi-year contract for equipment (where title may pass to the lessee) is filed with the Comptroller's Office, an Accounting for Leases-Lessee form (SCO-560) must be mailed to the Financial Reporting section at the IOC, provided the fair market value of the asset being leased is greater than $5,000. This applies to all contracts with a type code of 38 or 39 and some contracts with a type code of 31. For further information see SAMS Procedure 27.20.60.

NOTE: Leases of Real Property and Capital Improvement leases: Leases shall be for a term not to exceed 10 years and shall include a termination option in the favor of the State after 5 years. Illinois Procurement Code, 30 ILCS 500/40-25.

(15) Maximum Contract Amount

Enter the total of current and future year amounts reported in SAMS for the obligation.

(16) Current Fiscal Year of Contract

Enter the beginning and ending dates of the contracts pertaining to the current fiscal year.

(17) Annual Contract Amount

Enter the total amount payable under this contract for the current fiscal year, including reimbursement expenses, if applicable. Obligated amounts for estimated contracts should reflect the total estimated amount for the current fiscal period.

(18) Multiple Year Contract Amounts

Enter the dollar amount payable for each subsequent year 2 through 7. In the event the contract extends beyond 7 years the cumulative dollar amount for years 7 and

over should be entered in year 7. After the first year of a multiple year contract, all subsequent fiscal years are moved forward one block, i.e., the amount to be paid for the second year is entered in the annual contract amount block, the amount to be paid for the third fiscal year is entered in the second year's block, etc. Again, these data fields must reflect the current and future fiscal years' liabilities of the contracts.

(19) Description

Enter a reasonably detailed description of the contract or lease which must include items such as:

- "Not to Exceed" maximum amount, if applicable
- type of service to be rendered
- items being leased, etc.
- where service is received
- real property shall include location of property (square footage, address and county)
- master contract reference number, if applicable
- the legacy obligation number if transaction is part of a vendor change/ correction
- for award code M, an explanation of other method of source selection
- for award codes N-Z, a brief description for the exemption citing the applicable statutory reference
- Descriptions for modification transactions must include a statement about what the modification is, i.e., extending the contract, increasing the maximum amount, etc.

NOTE: Subsequent fiscal year filings of multiple year contracts must contain a complete description as originally filed to include the prior year's obligation/contract number. DO NOT use just "Reference back to Contract" as a description.

(20) Method of Compensation

Enter the rate and unit of measurement upon which payments will be based, e.g., $35.00 per HR (hour). If multiple rates apply, enter "00" in rate field and MR in "time" field and attach a rate sheet. DO NOT merely reference a rate sheet as a method of compensation. The rate sheet must be attached.

Use the following abbreviations to describe the unit of measurement.

This document describes the file format to be used to transmit contract/obligation information to the Comptroller.

I. File Characteristics

The file contains an 870 byte record. There will be six types of records on this file.

1. *File Header Record*
   This record will be the first record on the file. It is used to identify the file, agency, and file content.
2. *Batch Record*
   This record will be used if the individual documents are to be grouped.
3. *Document Header Record*
   This record will be the header portion of the Purchase Order (PO) document.
4. *Document Line Record*
   This record will be a line portion of the PO document. The document may have 99 lines per header.
5. *Document Text Record*
   This record will be the text associated with the PO document.
6. *File Trailer Record*
   This record is the last data record on the file. It is used to provide control totals for balancing the file.

II. File Order

The Batch Records should be sorted in ascending order. If applicable, the Document Header Records should be sorted in ascending order within the batch and with their associated line and text records following them. A computer generated balance report in suitable format should accompany each contract/obligation file sent to the Comptroller.

This report should show the contents of the File Header Record and the File Trailer Record in a labeled, clearly defined format.

By not specifying a particular format, it is hoped that each transmitting agency will be able to adapt one of its internal reports so that one report may satisfy the needs of both the Comptroller and the agency. At a minimum, the report must clearly identify the total number of obligation transactions and related total amount for the file.

ADDITIONAL REPORTING REQUIREMENTS

If a multiple-year real property lease/financed purchase does/may transfer title (ownership) of the asset to the lessee (i.e. financed purchase, lease containing bargain purchase option, etc.), the agency is required to complete a Real Property Lease Purchases Lessee Disclosure Document (form C-15-A). This form and related guidelines and instructions are contained in SAMS 15.20.41.

Real Property Lease Purchases-Lessee Disclosure Document (Form C-15-A)

In addition to the lease filing requirements in SAMS Procedure 15.20.40, agencies must also file a Real Property Lease Purchases- Lessee Disclosure Document (Exhibit 15.20.41-A) each time a multi-year real property lease/financed purchase agreement is initiated. The purpose of this form is to provide information concerning multi-year real property leases/financed purchases that do/may transfer title (ownership) of the asset to the lessee. See SAMS Procedure 27.20.60 for requirements, and complete Form SCO-560 as needed. Submission of this document will ensure that such financing relationships are accounted for as "capital transactions" in accordance with Generally Accepted Accounting Principles.

GENERAL

This form should be completed in all instances where real property is being purchased through multi-year lease and financed purchase agreements. These are agreements where the substance of the transaction may result in a purchase regardless if title passes at the beginning of the agreement, the end of the agreement, or by means of a bargain purchase option at a time(s) specified in the agreement.

INSTRUCTIONS

Each time an agency enters into a lease or financed purchase agreement that results in ownership of real property, a Real Property Lease Purchases-Lessee Disclosure Document must be completed. Also, attach an update of this document to each annual re-establishment of the obligation.

For those agencies that must obtain the approval of the Department of Central Management Services (DCMS) before an agreement can be finalized, the completed form must be attached to each real property multi-year lease purchase agreement submitted to DCMS for its review. DCMS will verify and approve the form as part of the transaction authorization process and will transmit one copy of the form to the Comptroller's Office Financial Reporting Department. The original and one copy of the document will be returned to the agency by DCMS. Agencies should submit the original copy of the form to the Comptroller's Office along with the Contract Obligation Document (C-23) and retain the copy as an internal record.

Note that the DCMS authorization section of this form does not require completion for annual re-establishments of the obligation unless a contract renewal or change has occurred.

For those agencies that do not submit their agreements to DCMS for approval, the original portion of the completed document should be submitted to the Comptroller's Office along with the C-23 Form (Contract Obligation Document). The agency must retain two copies as an internal record and send the remaining copy to:

Office of the Comptroller
Financial Reporting Department
325 West Adams Street
Springfield, Illinois 62704

The information provided on the form will be examined by the Comptroller's Office and agencies will be contacted concerning the proper asset value that should be reported on their "Agency Report of State Property" (C-15 Form) and their "Capital Asset Summary" (SCO-538 Form). This procedure will ensure that assets are correctly reflected on the State and agency's financial statements.

CONTENTS

Refer to Exhibit 15.20.41-B.

REFERENCE	CONTENTS
1	Enter the three digits Comptroller assigned lessee agency number.
2	Enter the contract/obligation number of the real property lease.
3	Indicate with an "X" the type of real property lease. This document need only be completed for real property leases which transfer or have the potential for transfer of title. The following lease types either transfer title or have the potential for transfer of title: Lease Purchase - Title to the real property passes at the end of the lease or with a nominal payment amount. Lease with Option to Purchase - The contract has a clause stipulating the lessee's ability to purchase the property. Financed Purchase - Title to the real property passes at the beginning of the lease.
4	Enter the last two digits of the current fiscal year. In the initial year of the contract this date will match the inception date (see **5** below). In subsequent years, the fiscal year will match the fiscal year indicated on the contract obligation document to which this form is to be attached.
5	Enter the original inception date of this real property lease. If this lease is a renewal, the original inception date would be the beginning date of the first contract, not the renewal.

Note that this section should be left blank on annual re-establishments of the obligation unless there was a contract renewal or change.

7 Enter the 16-digit expenditure authority account to which the proposed expenditure is to be charged. If more than one appropriation account code pertains to the same obligation, each account code must be listed on the form.

8 Enter the date, if known, that title is expected to transfer to the lessee.

9 Enter the name and address of the vendor to whom payments will be made.

10 Enter a reasonably detailed description of the lease which must include the location of property leased (address and county) and the square footage.

12 Enter the originating agency name.

13 Enter the phone number of the individual preparing this document.

14 Enter the date this document was prepared.

CONTRACT SIGNATURE AUTHORIZATION FORM (SCO-470)

PURPOSE

The Contract Signature Authorization Form (SCO-470) is available on the Comptroller's website at https://illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms. This form is used to provide specimen signatures to the Comptroller for persons authorized to sign the agency head approval line manually or electronically on contracts, interagency agreements, purchase orders, grants or leases, hereafter referred to as "contracts." The form is also prepared for designees authorized to affix the signature of the agency head on the agency head approval line on contracts, manually, electronically, with a stamp or signature machine (30 ILCS 105/9.02).

TIMING REQUIREMENTS

Frequency of submission of new Contract Signature Authorization Forms is dependent on when the use of a signature is authorized or the period for which the signature was valid has lapsed. Agencies must notify the Comptroller when a Contract Signature Authorization Form on file should be revoked. Notification must be submitted via a Contract Signature Revocation Form (available on the Comptroller's website at https://illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms).

DISTRIBUTION

The Contract Signature Authorization Form is prepared and filed with the Comptroller. Forms must be scanned as PDF documents and emailed to the Comptroller's Office to obligations@illinoiscomptroller.gov.

The subject line of the email must include the agency number and the name(s) of the individual(s) authorized must be contained in the body of the email.

The original signed document must be maintained by the Agency. Each agency document should be scanned as a separate document. Multiple forms can be sent in one email.

CONTENTS

Contract Signature Authorization Forms are prepared individually for each agency head and designee. All fields on the form are required and are to be typed or printed. Refer to Exhibits 15.20.95-A, B, C, D and E.

NOTE: This form is applicable to authorizations for contracts only. A separate form is required for Commercial and Payroll vouchers (SCO-095). All forms are available on the Comptroller's website at https://illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms.

REFERENCE - Corresponds to the Line/Section Number on the form.

1) Type/print the full agency name. Do not abbreviate.

2) Type/print the three-digit agency code as per Procedure 11.50.40: Organization Unit Code Assignment.

3) Provide the name, phone number and email of the individual to be contacted regarding signature authorizations for contracts.

4) Type/Print the name of either the agency head or designee who will be given authority to sign or affix the signature of the agency head.

5) Specimen Signature:

   a. If the individual named on Line 4 is the agency head, the agency head must manually sign or electronically apply his/her signature.

   b. If the individual named on Line 4 is a designee, the designee must manually sign or affix the signature with a stamp of the agency head with the designee's written signature ***precisely*** as it will appear on the contract. The designee may apply an electronic signature for the agency head that includes both the agency head and designee names.

      i. Place a ✓ or X in the appropriate box if the agency head's signature is affixed with a stamp or electronically.

   c. **Initials are not acceptable**.

6) Enter the effective date authorization is granted. Do not enter the current date unless it is the effective date for this authorization.

7) Type/print the agency head's title and agency name into the agency head Approval block.

8) Type/print the name of the agency head. The agency head must manually sign the Approval block. Manual (ink) signatures are required on all signature authorization and revocation forms.

Internal Revenue Service Requirements

IRS regulations require that each payee furnish his correct federal Taxpayer Identification Number (TIN) to the payer. Any vendor that fails to furnish his/her correct TIN to an agency is subject to an IRS penalty of $50 for each such failure unless the failure is due to reasonable cause and not willful neglect.

The TIN may be a Social Security Number (SSN) or an Employer Identification Number (EIN). Agencies should use the EIN for payments if the "vendor or payee" is a corporation, partnership, estate, legal trust, other business entity that is not a sole proprietorship or single member Limited Liability Company (LLC) that is a disregarded entity. If the payee is an individual, the individual's SSN should be used. For sole proprietorships, the payee should be the owner of the sole proprietorship and the TIN can be either the owner's SSN or EIN. The IRS and the Comptroller's Office recommend that a sole proprietor use an SSN to receive payments. For single member LLCs that are disregarded entities, the payee should be the name of the owner and the TIN must be the SSN or EIN of the owner. The EIN assigned to the LLC cannot be used. See detailed instructions in Procedure 19.10.30.

The payee should complete the most recent version of the IRS Form W-9 to provide the correct legal name, TIN and legal status. A form can be downloaded from the Internal Revenue Service website: www.irs.gov.

If the payee is a resident alien and does not have an SSN and is not eligible to obtain one, the payee should reference his/her individual tax identification number (ITIN) on the Form W-9. An individual may apply for an ITIN using Form W-7 (Application for IRS Individual Taxpayer Identification Number).

IRS Match of TIN/Payee Name

On IRS records, a Social Security Number matches only with the name of a person. The business name of a sole proprietorship will not match an SSN or an EIN. Therefore, when the payee is an individual or owner of a sole proprietorship, the owner's name must appear first in the vendor or payee box on the voucher. The owner's last name should precede the first name and middle name or initial. The "doing business as" (DBA) name should be entered on the second line:

sole proprietor: Doe John E
DBA Doe Contracting

When vouchering payments to business entities (other than sole proprietorships), only the payee's name as it appeared on the form used to apply for the entity's EIN will match IRS records. This is generally the entity's legal name. Therefore, if the payee is a smaller operating unit of a larger entity which is a corporation or partnership, the corporation or partnership name should be first, followed by the name of the operating unit:

corporation:	Healthcare Inc DBA Meadowbrook Nursing Home
partnership:	Tri-State Enterprises DBA Holiday Hotel

When the vendor's SSN or EIN is used and payments are mailed "in care of" a bank or other entity, the vendor's name should be first, followed by the bank's name:

sole proprietor:	Doe John E c/o First State Bank
partnership:	L & M Plumbing c/o First National Bank

When payments are made to an individual for services as an employee of a business entity, the individual's SSN must be used. This is true even when the individual must give all money received to the business. For example, Dr. Mary Pane is employed by the Midwest Clinic, a corporation. If Dr. Pane is the payee on the voucher, her SSN must be used. If the payee is Midwest Clinic, the EIN of the Clinic should appear on the voucher.

Backup Withholding

Under IRS regulations, the payer of amounts subject to 1099-MISC reporting must solicit the payee's TIN and the payee must furnish his or her TIN. If the payee fails to supply this number, the payer must impose "backup withholding" on any payments subject to 1099 reporting and remit amounts withheld to the IRS. Currently, the backup withholding rate is 24 percent of the total reportable payment.

To comply with IRS regulations, Invoice Vouchers containing a payment for goods or services must contain the vendor's correct TIN. Any voucher which does not contain a TIN shall be returned to the vouchering agency to obtain the necessary documentation.

If the payee fails to supply this information, the agency must contact the Comptroller's Office for processing instructions.

To prevent payment delays and avoid backup withholding, we urge all state agencies to obtain valid TINs from all payees prior to soliciting service.

Any questions regarding backup withholding should be referred to the Vendor Unit by calling 217/785-4422 or by email: vendor@illinoiscomptroller.gov.

Payments to Foreign Persons

Foreign persons are required to be certified as a vendor by the IOC prior to the processing of any payment voucher.

According to the Internal Revenue Service, a "foreign person" includes a nonresident alien individual, a foreign corporation, a foreign partnership, a foreign trust, a foreign estate and any other person that is not a U.S. person.

In order to avoid problems in the payment process, agencies should take the steps necessary to certify foreign vendors in advance of any business dealings with that vendor.

To be certified by the IOC, the foreign person must submit a properly completed form W-8 with a U.S. Taxpayer Identification Number provided. Form W-8 is available in four versions. Please review the form and related instructions at www.irs.gov.

An Individual Taxpayer Identification Number (ITIN) assigned to a foreign person is not valid for work purposes.

Vouchers submitted for payment to foreign persons vendors should use the following address format:

Vendor Name	Clark Thomas
Street Address	117 Russell Drive
City Zip Code	London W1P6HQ
Country FN 00000	England FN 00000

The state field should be FN.

The zip code field should be all zeroes.

Duplicate Taxpayer Identification Numbers

There are instances where the Comptroller may have a vendor on file with a valid SSN and an agency submits a voucher for another vendor whose EIN is the same 9-digit number. When this occurs, the Comptroller will assign a unique number for the purpose of processing the voucher and any associated contracts. The agency will be notified of this number assignment so that any future transactions will be processed with the correct number. This unique number is only valid for processing vouchers and contracts with the Comptroller's Office. It does not replace their EIN.

NEW VENDOR ENTRY SCREEN

The New Vendor Entry screen (NVEN) allows agencies to enter new non-business vendors using a Social Security Number (SSN) directly into SAMS in a non-certified status. Agencies cannot use NVEN to inquire, change, or delete any vendor information.

NVEN consists of seven mandatory input fields: "VENDOR", "LAST NAME", and "FIRST NAME, MI, SUFFIX, ADDRESS, CITY, STATE and 9-Digit ZIP CODE". All vendors entered on this screen will automatically be added to VEN2 and be forwarded to the Internal Revenue Service for purposes of certifying the vendor record.

NVEN is available during normal SAMS hours – 8:00 AM to 5:00 PM each State business day. To apply for authorization to add vendors on this screen, please contact the IOC Security Administrator at 217/782-0214. For any questions regarding use of the NVEN screen, please contact the Vendor Unit by calling 217/785-4422 or by email: vendor@illinoiscomptroller.gov.

NOTE: Effective April 1, 2011, agencies are required to submit all new non-business vendors with an SSN through the NVEN screen on SAMS.

RECORD ENTRY

Enter an "A" in the "ACTION" field, then tab to each subsequent field.

The SSN should be entered in the "VENDOR" field. This field has 9 bytes, all numeric. The only valid characters are 0 – 9. All other characters are invalid and will cause an error condition on NVEN. An error condition will also occur if the user enters less than 9 digits.

The "LAST NAME" field is limited to 17 bytes and must contain only the last name. The only valid characters are A-Z and hyphens. All other characters are invalid and will cause an error condition on NVEN. If a person has two last names, enter the last name as it is represented on the W-9 (i.e., if the W-9 indicates a hyphen between the two last names, enter a hyphen between the names or, if the W-9 does not indicate a hyphen between the two last names, enter one space between the names). Suffixes must be entered in the "FIRST NAME, MI, SUFFIX" field in the last position (i.e., TOM J JR).

The "FIRST NAME, MI, SUFFIX" field is limited to 11 bytes and the information should be entered in this sequence with one space between the data elements. The only valid characters are A-Z and hyphens. All other characters are invalid and will cause an error condition on NVEN. If a person has two middle names, enter both middle initials with one space between the initials. A complete name (either first or middle) must be entered in this field. Do not enter initials only.

The NVEN screen will require a valid address, city, state and nine-digit zip code. The zip code must be in XXXXX-XXXX format. The hyphen must be entered on the screen. See the example below.

After proofing entry for accuracy, press the Enter key to add the vendor. If the vendor has been successfully added, the message "ALL LINES ADDED" will appear at the bottom of the screen. If this message does not appear, refer to the section on NVEN Edits. Once the vendor has been successfully added, enter an "N" in the "ACTION" field and press the Enter key to clear the screen to prepare for the next entry.

Check VEN2 in two business days to determine whether or not the vendor has been certified. If the vendor has been certified by IRS, the "CERTIFICATION INDICATOR" field will have a "C," and the "CERTIFICATION TYPE" field will have an "I." If the vendor has not been certified, check the "COMMENT" field to determine if the vendor was returned by IRS as an "IRS TIN NAME MISMATCH" or an "INVALID TIN PER IRS." If either of these messages appears, a new W-9 must be obtained from the vendor with a different name or TIN. If there is no message in the "COMMENT" field, contact the Vendor Unit at (217) 785-4422 for guidance. NVEN entries must be based on a valid W-9. The supporting W-9s must be kept on file with the agency for a period of not less than seven years. The W-9s will be subject to IOC review upon request.

Payroll Voucher File

This document describes the file format to be used by State agencies transmitting payroll voucher information directly to the Comptroller. The agency return file uses same record formats.

I. FILE CHARACTERISTICS

Agencies must FTP the payroll voucher file. The file layout is 1170 bytes in length. Numeric fields are unpacked. An Excel version of the file layout can be found at https://illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms.

The Payroll Voucher File consists of two types of records as described below.

A. *Detail Record*
Payment information for employees on the payroll voucher.

B. *Trailer Records*
Accumulated deduction amounts for each specific deduction on the payroll voucher.

II. FILE ORDER

The file order is paycode, voucher number, then account code.

III. NAME FIELD CONVENTIONS/EXAMPLES

The following standards will be used for providing name information. Letters (A-Z), numbers (0-9), spaces ( ), hyphens (-), periods (.), and apostrophes (‘) are allowed in name fields. Do not use any other character or symbol.

ADDITIONAL PROCEDURES

DETERMINATION OF PAYROLLS AND PAY CODES

Each payroll must have a unique pay code. Agencies must request in writing the assignment of a pay code. The request must contain the title of the payroll, if it is code or non-code and the date on which it is to be paid. All changes to payroll titles must be approved by the Comptroller's Office.

A payroll is defined as a group of employees from an agency that are paid on the same pay schedule and appear on the same voucher. Since there can be multiple appropriations on a payroll voucher file, as long as each employee is charged to only one account, agencies have a great deal of flexibility in determining how many payrolls they should have. Payroll codes are assigned by the Comptroller's Office and must appear on each payroll voucher for employees that are assigned to that payroll. Pay codes consist of a two-digit agency identifier and a three-digit payroll identifier.

SUPPLEMENTARY PAYROLLS

The use of supplemental or "emergency" payrolls to pay employees omitted or processed incorrectly on the regular voucher should be minimized and will require the approval of the Comptroller's payroll section. Supplemental payrolls should be assigned the same pay code as normally used for that group of employees and must be marked "Supplemental."

FISCAL YEAR CUT-OFFS

Payroll vouchers (or warrants) may not be split between fiscal years. Therefore, bi-weekly pay periods which overlap fiscal years are required to be paid out of the new fiscal year appropriation. Payments from the previous year appropriations can be made throughout the lapse period; although these payments must be for previous fiscal year earnings and must appear on a separate voucher.

TRANSFERRED EMPLOYEES

Employees transferring from one agency to another agency necessitate the submission of new source documents. Employees transferring from one payroll to another payroll within an agency do not require new source documents. However, the payroll voucher should identify this change.

NEW EMPLOYEES

An Employee Address Certification form should be completed by all new employees prior to processing their first payroll. A copy of this form should be submitted to the Comptroller's Office prior to submitting their payroll voucher for agencies that do not submit electronic payroll address files. An employee status code of four (4), indicating that this is a new employee, and the effective date should be entered on the payroll voucher file.

TERMINATED EMPLOYEES

No source documents are required. Terminated employees will be identified by entering a one (1) in the employee status code field of the payroll voucher. After W-2's are printed, employees identified as terminated and employees with no activity in the previous calendar year will be removed from the Comptroller's Master Payroll File.

MULTIPLE WARRANT PROCEDURE

Employees paid simultaneously from multiple appropriations (accounting codes) will receive multiple payroll warrants in a pay period because one warrant cannot be charged to more than one account. The employee's warrant stub will reflect total earnings and taxes withheld. However, the Comptroller's system will only verify that the minimum taxes for the earnings reflected on a particular warrant have been withheld. It is the agency's responsibility to determine whether the sum of the Federal tax withholdings from each warrant meets minimum Federal requirements for the total earnings paid the employee.

DEDUCTION CORRECTION PROCEDURE

Erroneous deduction amounts can be corrected by debiting or crediting the employee's record on a subsequent voucher, as long as a sufficient balance remains in the deduction trailer record to offset negative entries (corrections for over-payments). This procedure should not be used to recover retirement or credit union adjustments. Corrections resulting from voided warrants or warrants generated for the wrong amount should be corrected through the salary refund system.

AUTHORIZED DEDUCTION COMPANY APPROVAL

Approval to deduct earnings from an employee's gross pay for a new vendor (insurance company, credit union, etc.) must be obtained from the Comptroller's Office by written request from that vendor. Upon approval, the Comptroller's Office will assign a payee code (actual code),

also known as a miscellaneous deduction code, to be used for further processing. Any new entities that receive a payroll or retirement voluntary deduction must sign up for direct deposit during the application process.

TRAILER RECORD PAYMENTS

The Comptroller's Office will make all payments for deductions withheld from employee earnings. In accordance with amended 15 ILCS 405/9.03, all State payments to an entity from a payroll or retirement voluntary deduction must be made through direct deposit. If an entity receives a payment from a payroll or retirement voluntary deduction without using direct deposit, the Comptroller may charge the entity a processing fee of $2.50 per paper warrant.

The detail information, such as names, identifiers, and amounts, associated with a State payment to an entity from a payroll or retirement voluntary deduction must be retrieved by the entity from the Comptroller's website at https://illinoiscomptroller.gov/vendors/enhancedvendor-remittance1/. If the entity requires the Comptroller to mail the detail information, the Comptroller may charge the entity a processing fee up to $25.00 per mailing.

RECIPROCAL TAXES

An employee who is a resident of Iowa, Kentucky, Michigan, or Wisconsin should not have Illinois income tax withheld from compensation even though that compensation may be paid in Illinois. Under reciprocal agreements negotiated between Illinois and those states, compensation paid to residents of those states is exempt from Illinois withholding. Such employees must file Form IL-W-5NR (a declaration of their residence in Iowa, Kentucky, Michigan, or Wisconsin) with the employing agency to be entitled to this exemption. See Procedure 23.20.10. Employees from reciprocal states who have filed Form IL-W-5NR should have their state withholding tax amount calculated using that state's tax formula or table.

NONRESIDENT ALIENS

Salaries, wages, or any other compensation for the personal services of a nonresident alien employee performed in the United States are generally subject to withholding in the same manner as wages paid to a U.S. citizen; however, many tax treaties provide at least a partial exemption from tax for labor or personal services performed in the United States by a qualifying individual. The employee must provide the employer with a statement to claim a treaty exemption from withholding. Details of the statement content can be found in IRS Publication 515, *Withholding of Tax on Nonresident Aliens and Foreign Corporations.*

Special instructions for completing Form W-4 must be given to nonresident aliens. See Procedure 23.20.05.

Compensation paid to a nonresident alien employee (other than a resident of Puerto Rico) for services performed outside the United States is not considered wages and not subject to withholding. If the personal services are performed partly in the United States and partly outside of the United States, an allocation of income for services performed in the United States must be made.

Payments subject to federal withholding are considered compensation paid in Illinois and subject to Illinois withholding.

SOCIAL SECURITY NUMBER CORRECTIONS

When the Social Security Number on file in the Comptroller's Office is incorrect (and the employee has been paid under the incorrect number), the agency must submit a letter to the Comptroller's Office stating the incorrect Social Security Number, the correct Social Security Number, the employee's name and the pay code for the employee.

MOVING EXPENSE REIMBURSMENTS

Public Law 115-9, Tax Cuts and Jobs Act, suspended the exclusion for qualified moving expense reimbursements from employee income beginning in tax year 2018 through the end of 2025. Moving expense reimbursements paid to employees are considered taxable wages subject to Federal, State, FICA, Medicare, and retirement contribution withholdings.

Agencies paying moving expense reimbursements directly to an employee should submit these payments on a payroll voucher. These payments were previously paid on a C-13 Payment Voucher citing DOC 1249. The Illinois Office of Comptroller (IOC) has assigned Additional Gross Code "8" as "Employee Moving Expense Reimbursements". This code should be used when processing these payments. The additional gross code field is byte 167 of the IOC's payroll voucher file layout. The amount of the additional gross payment should be entered in bytes 168-174.

Agencies paying moving expense reimbursements directly to a vendor on behalf of an employee should continue to submit these payments to the IOC's Voucher Unit on a C-13 voucher, using detail object code 1250. However, these reimbursements paid directly to a vendor are now taxable to the employee. Agencies must enter the reimbursement paid to the vendor on the

employee's next payroll. The amount should be entered under the "Other Compensation Subject to Withholding" field in bytes 248-254 of the IOC's payroll voucher file layout. This will deduct applicable tax and accordingly report the taxable wages associated with the reimbursement.

CONTRACTUAL EMPLOYEES

The Internal Revenue Service (IRS) and the Illinois Department of Revenue require federal and state income tax withholding on compensation paid to individuals who perform personal services for the State on a contractual basis who are deemed "employees" under IRS regulations.

Contractual employees who work in certain State educational facilities may qualify for membership in the Teachers' Retirement System. Employers of members of the Teachers' Retirement System are required to withhold contributions to the System.

Contractual employees do not qualify for inclusion in the State Employees' Retirement System, the State Universities Retirement System, or the State Employees Group Insurance Program.

Contractual employees will be, in most cases, subject to the full 7.65% FICA tax if they are not covered under a pension plan that meets a specific defined contribution rule. (FICA, means the combined total of the Social Security tax (OASDI) of 6.2% and the Medicare tax (HI) of 1.45%). For calendar years 2011 and 2012, the employee's contribution rate for FICA was 4.2%.

The Internal Revenue Service has determined that an employee meets this minimum benefit rule if he or she contributes at least 7.5% of his or her State compensation to a pension plan.

It is the responsibility of each agency to determine whether payments to individuals who perform personal services for the State are to be treated as "wages" paid to "employees" for federal and state income tax withholding purposes. The following guidelines are to be applied. The terms "services" and "personal services" as used herein are to be interpreted in their generally accepted meanings; not as defined in the Illinois statutes. Payments for non-personal services, such as rent for the use of a building or other physical facility or reimbursement of travel and other similar expenses, are not subject to withholding. Similarly, the term "person" is limited to individuals; amounts paid to partnerships and corporations are not subject to withholding even though such payments may represent compensation for personal services rendered by a member or representative of such entities.

1. Generally, all payments to persons who provide personal services to the State who are deemed to be "employees" are subject to both federal and state income tax withholding. A person providing personal services may be a State employee for income tax purposes even though (a) he is paid out of the contractual services, awards and grants, permanent improvements, lump sums, or other line-item budgets, rather than through the regular payroll, (b) his agreement with the State provides that he is an independent contractor, and (c) he is not treated as an employee for State insurance and pension benefits. The test for determining whether a person who provides such services is an employee for income tax purposes is whether the State has the right to control and direct the performance of the services, not only as to the result to be accomplished, but also as to the details and means by which that result is to be accomplished. Thus, a person will be deemed an employee of the State for income tax if he is subject to the will and control of the State, not only as to what shall be done, but also as to how it shall be done. It is not necessary, however, that the State actually direct or control the manner in which the services are performed; it is sufficient if it has the **right** to do so. Moreover, the fact that a person may provide services for a short period of time does not preclude him from being classified as an employee for income tax purposes. For example, a secretary may be an employee even though she works for only one day.

2. Except as provided in the last sentence of paragraph 3 and in paragraph 4, all persons who provide personal services to the State shall be treated as State employees for federal and state income tax purposes. The term "employees" shall be deemed to include (but is not limited to) the following persons:

   a. a person who, at the time he enters into a contract with the State, is expected to be placed on a regular payroll, but is paid out of a budget other than the "personal service budget" prior to his being placed on a regular payroll;

   b. except as described in paragraph 4, a person who provides secretarial, general office, keypunch, janitorial or other ministerial services; and,

   c. a teacher or teacher's aide.

   All persons deemed to be employees for federal and state income tax withholding purposes will receive a Form W-2 reflecting gross earnings and federal and state

taxes withheld for all payments processed by the Comptroller on a Contractual Service Voucher.

3. A person who provides personal services to the State for which he is compensated other than on a regular payroll shall be treated as a State employee for income tax purposes unless he or she can prove that the contractual services are provided as part of a business which he or she regularly conducts. (See paragraph 4 (b).) Notwithstanding the preceding sentence, official court reporters who are compensated on a regular payroll (with respect to which they are employees) shall not be treated as employees with respect to transcription fees paid by the State, either on behalf of indigent criminal defendants or juveniles adjudged delinquent pursuant to the Illinois statutes and Rules of the Supreme Court of the State of Illinois or as a party to litigation.

4. The following persons are generally considered not to be State employees:

   a. a person performing professional services, such as a doctor, lawyer, dentist, architect, veterinarian, engineer or CPA, unless such person (1) is on a regular payroll, or (2) is expected to be placed on a regular payroll at the end of the contract period. (However, a person who is not an employee with respect to the rendering of one type of service can be an employee with respect to the rendering of another type of service. For example, a doctor will be treated as an employee of a medical school at which he teaches on a regular basis, even though he is not an employee with respect to a private practice which he conducts out of his office.);

   b. a person who has bona fide business in which he regularly makes available to the public services which are similar to those rendered to the State. (For example, if an individual provides janitorial services to the State and other persons as part of regular business which he conducts, he will not be an employee of the State with respect to such services.);

   c. a person such as an expert witness, portrait painter, management consultant or computer programmer retained to design a particular program, who provides services over which the State does not have the right to control or direct the manner in which the work is done (even though the State can control or direct the result).

5. Payments for personal services made to a person who is deemed not to be an employee for income tax purposes constitute self-employment income which the recipient will be required to include in his or her taxable income for federal or State purposes. (The State will provide each person who receives $600 or more of self-employment income from the State with a Form 1099, indicating the amount of self-employment income paid by the State.)

   Payment for services provided by an independent contractor must be submitted on an Invoice-Voucher (C-13) with a statement indicating the individual is exempt for tax withholding.

6. In certain limited cases payments to an individual may be considered in the nature of welfare payments which are not taxable income. In such cases, notwithstanding anything stated in these guidelines to the contrary, the payments are not subject to withholding. For example, payments under Title V of the Federal Economic Opportunity Act of 1964 are not taxable to the recipient and therefore are not subject to withholding.

7. Payments which represent reimbursement of nontaxable expenses under an accountable plan or payment for services which are not personal services (such as rental of office space) are not subject to withholding. In situations in which a single warrant is to be issued for personal services and reimbursement for nontaxable expenses, the voucher submitted to the Comptroller must identify the amount which represents payment for personal services.

PAYROLL TRANSACTION EXCEPTIONS

30 ILCS 105/13.2(g) states “For State fiscal year 2024 and each fiscal year thereafter, if requested by an agency chief executive officer and authorized and approved by the Comptroller, the Comptroller may direct and the Treasurer shall transfer funds from the General Revenue Fund to fund payroll expenses that meet the payroll transaction exception criteria as defined by the Comptroller in the Statewide Accounting Management System (SAMS) Manual. The agency shall then transfer these funds back to the General Revenue Fund within 7 days.”

A payroll transaction exception occurs when a payroll voucher rejects during processing at the IOC. An agency with a payroll transaction exception may request the transfer allowed under this part by submitting a request letter to the Comptroller’s Office. The request must be signed by the Agency Head or their designee and include or be accompanied by documentation supporting the

return of funds to the General Revenue Fund within 7 days. Documentation may include proof of a pending federal draw or other receipt. The request must also include a completed C-55 (Fund Transfer Request).

Within 7 days of the transfer from the General Revenue Fund, the agency must repay the funds via a fund transfer from the agency's fund back to the General Revenue Fund. Agencies shall submit a C-55 to initiate the repayment transfer.

AGENCY TRANSMITTALS – CASH REFUNDS

GENERAL

The State Comptroller Act (15 ILCS 405/10.14) requires appropriation credit to be provided when any warrant, or portion thereof, is returned to the State Treasury as a result of an erroneous or overpayment made from a treasury held fund. The statute further states that if the appropriation to which the original warrant was so charged has lapsed, the fund on which the warrant was drawn shall receive credit for the amount returned to the State Treasury.

The Expenditure Adjustment Transmittal form, SAMS Procedure Exhibit 25.20.20-A, is to be used when submitting cash refunds (excluding salary refunds) to the Comptroller for ordering of monies into the State Treasury. The data reported on this form will be used to credit the applicable fund and expenditure authority account, if not lapsed, as well as the SAMS Object Account(s) which were charged when the expenditure was made. If the refund applies to the current calendar year and the original payment was subject to the 1099 reporting requirements of the Internal Revenue Service, the information on the Expenditure Adjustment Transmittal form will also be used to adjust the vendor's earnings record.

Again, if the money being remitted to the Comptroller for deposit in the treasury is <u>not an erroneous or overpayment</u> as prescribed by the State Comptroller Act (15 ILCS 405/10.14) it is <u>not</u> a cash refund and must be receipted on the form C-64, Receipts Deposit Transmittal.

An agency may report up to two (2) cash refunds for the same agency within the same fund on a single document for the current fiscal year. An agency cannot mix a current fiscal year with a prior fiscal year on the same refund document. They must be entered on a separate document. (Multiple prior years may be reported on one document). Multiple forms may be submitted when one deposit instrument, such as a Treasurer's Draft, is applicable to more than two (2) cash refunds or different funds. If an agency has numerous refunds to a single appropriation, it should contact the Comptroller's Office for batching procedures in order to decrease the amount of forms submitted. If an agency identifies a prior-year cash refund but cannot complete all the required fields, contact the Comptroller’s Office for processing instructions.

It is important to note that the deposit instrument(s) accompanying an Expenditure Adjustment Transmittal(s) for a cash refund should be monies only for cash refund(s). The deposit instrument should not contain monies applicable to receipts. When depositing cash

refunds and cash receipts into a Treasurer's Clearing Account, it is the agency's responsibility to request separate drafts -- one for cash refunds and one for cash receipts. Any exceptions to this procedure require approval by the Comptroller's Office prior to processing.

INSTRUCTION FOR COMPLETION OF THE EXPENDITURE ADJUSTMENT TRANSMITTAL

PURPOSE

The purpose of this procedure is to provide instructions for completing the Expenditure Adjustment Transmittal. This form requests the Comptroller to return monies into a State Treasury Fund. If the monies returned to the State Treasury should be re-issued to a different payee, the request should be submitted to the IOC on an Invoice Voucher, form C-13, for processing through the Commercial Warrant Writing System. A copy of the approved C-63 form should be attached to the C-13. For additional information, contact the Voucher Pre-Audit Unit at 217/782-3060.

PREPARATION OF FORM

The instructions for completing the form are set forth below. SAMS Procedure Exhibit 25.20.20-A illustrates a blank form with the instruction reference numbers on it. SAMS Procedure Exhibit 25.20.20-B illustrates a properly completed form. SAMS Procedure Exhibit 25.20.20-C is a blank form for agency use. DEFINITION OF RECEIVABLES & RELATED TERMS

Receivables

Receivables represent amounts or claims owed to the State or State agencies by any individual or entity. These claims are for the future receipt of cash resulting from the sale of goods or services or other types of transactions. There are two criteria essential to the creation of an account receivable:

A) The transaction must be completed to the extent that payment is the only unconsummated act (i.e., the income is earned), and,

B) The claim must be measurable in terms of the assignment of a monetary value established by State law and administrative regulations. Receivable classifications include:

1. Taxes and related penalties and interest;
2. Loans and notes receivable;
3. Amounts due for licenses and fees;
4. Amounts due under grants, contracts, and contributions;
5. Amounts due for goods and services provided;
6. Other receivables.

The Comptroller's Office accounting definition of a receivable differs dramatically from the definition of a receivable from a legal perspective. Receivables, for purpose of this procedure should be recognized when goods are delivered or services are performed (accounts receivable) or when the State's claim for future cash is reasonably estimable. For example, when an assessment is issued and the agency has a reasonable basis for issuing the assessment, it should be reported to the Comptroller's Office as a receivable. An appropriate allowance for uncollectible amounts based on the agency's best estimate or on past experience should also be established where appropriate.

Receivables which are protested are a special category since they are disputed. However, the protest process should not be considered an "unconsummated act" in applying the above criteria. Since their monetary value has been reasonably established, receivables in protest are subject to accounts receivable reporting

requirements. In order to distinguish receivables in protest from those not in protest or protestable, separate quarterly reports are required for each category. The form is designed so that the preparer can indicate the particular category reported (i.e., "in protest" and "not in protest or protestable").

Receivables, however, do not include amounts which are maintained within an agency's internal records which are not reasonably estimable. For example, "balloon" assessments which are issued in order to assure accessibility to audit a client/taxpayer's books and records or prevent the expiration of the statute of limitations are not receivables since the amount of the "balloon" assessment has no reasonable basis. These amounts which are maintained on the agency's internal records for control purposes should be maintained in a separate category (e.g., "memorandum only" category) but should not be reported to the Comptroller's Office on the quarterly reporting forms.

Receivables may be due from private individuals or business entities, State employees, other State agencies and institutions, and local government agencies. Federal receivables are no longer required to be reported to the Comptroller's Office. This definition does not preclude the reporting of receivables for GAAP reporting purposes in accordance with the Comptroller's Office revenue accrual instructions.

Taxes Receivable and Related Penalties and Interest

Amounts owed to the State or State agencies by individuals or organizations for uncollected taxes including individual and corporate income taxes, sales taxes, motor fuel taxes, public utility taxes, etc. For purposes of interim reporting as required by the State Collection Act of 1986, Taxes Receivable will be limited to those amounts due the State as actually assessed at the time of reporting, either as reported but uncollected, additional tax and penalty and interest, or delinquent taxes.

Loans and Notes Receivables

Amounts which have been loaned to individuals or organizations other than State agencies.

Licenses and Fees Receivables

Amounts due from individuals and organizations for the purchase of licenses and the payment of various statutorily or agency assessed fees.

Interagency/Intergovernmental Receivables

Interagency/Intergovernmental receivables are amounts which are due from other State agencies ("Due from's") or from local governments. These receivables include:

1. Amounts for goods or services provided by one State agency to another;

2. Cost reimbursements due from another State agency (which is the grantor or subgrantor);

3. Amounts due from another State agency:
   a) to the grantor State agency when the amount granted is in excess of the grantee's expenditures and must be returned to the grantor; and
   b) to the grantee State agency when the grantee's allowable grant expenditures have not been fully reimbursed and are due from the grantor State agency.

4. Amounts due to the State or State agencies as provided for under the terms of local or other government grants or contracts.

5. Any other amounts due from other State agencies or local governments including overpayments, amounts paid in error, etc.

Interagency receivables must also be recorded on form SCO-565, "Interfund Payable/Receivable Analysis" (SAMS Manual Procedure 27.20.65) for year-end GAAP reporting purposes by agencies which provide goods and/or services to another State agency. For interfund grant activity, year-end receivables are reported on forms SCO-567 (grantee) or SCO-568 (grantor). See SAMS Manual Procedure 27.20.65 for relative definitions of "services" and "grants". Intergovernmental receivables are reported on SCO-563, "Grant/Contract Analysis," for year-end GAAP reporting (See SAMS Manual Procedure 27.20.63).

Interagency receivables ("due from's") must be verified and acknowledged with the corresponding agency at fiscal year-end (June 30) for GAAP reporting purposes to ensure that statewide "due from's" equal "due to's".

Other Receivables

Any other amounts or claims owed to the State or a State agency for which a category has not been provided on the receivable summary report. These include amounts due from employees, such as travel and salary overpayments.

Formal Due Date

The date on which a receivable is formally due and collectible by the State. The procedures for establishing formal due dates are outlined below.

Delinquent (Past Due) Receivables

Receivable amounts that remain outstanding beyond their formal due dates which would include individual installment payments that are past due.

Allowance for Estimated Uncollectible Accounts

A valuation account that is credited with an estimate of the amount of receivables that the agency believes will ultimately be uncollectible. The balance in this account is subtracted from total gross receivables to arrive at an estimate of net receivables that will be realized by the State or State agency.

Write-Off of Uncollectible Accounts

The removal of certain transactions deemed uncollectible from the accounts of an agency's financial accounting records which have been certified as uncollectible according to the procedures outlined in SAMS Procedure 26.40.40. Normally, accounts receivable are written off on a transaction by transaction basis (i.e., only certain portions of a particular account are written off).

TIMING & METHODS OF RECOGNITION

Actual or Known Revenues

Funds which are subject to accrual or modified-accrual accounting for revenues shall recognize and record a receivable at such time that the amount due the State or State agency becomes measurable, such as at the time of billing or assessment, the time of expenditure for cost reimbursement grants, or the time of delivery of goods or services.

Estimated or Self-Assessed Revenues

For annual GAAP reporting purposes, agencies may accrue certain "self-assessed" revenues based upon actual collections during the "lapse period" immediately following the reporting date, thus establishing the receivable retroactively. Self-assessed revenues include most State taxes and certain fees.

Interim financial reporting on a quarterly basis as discussed in this SAMS procedure, will require agencies to report only those receivables which are due the State at the time of reporting, such as delinquencies, assessments and penalties but not estimates of self-assessed revenues.

Annual GAAP Project accruals for the major revenue sources within each agency will continue to be required for annual GAAP reporting. GAAP adjustments vary by agency within the following areas:

1. Lapse period collections;
2. Deferred revenue;
3. Assessment collections in the lapse period;
4. Refunds & credits.

Specific guidelines for each agency will be addressed, as in the past, with instructions issued at year-end.

ESTABLISHING FORMAL DUE DATES

When a formal due date for a receivable is not established by law, it will be established at the time that the receivable is recognized as outlined above. It is recommended that due dates fall no later than thirty days after the receivable is recognized unless contractual terms or specific industry standards require other treatment.

As an example, a receivable recognized and recorded on January 15, would have a formal due date no later than February 14, of the same year.

DETAILED ACCOUNTS RECEIVABLE INFORMATION

To support the recognition and tracking of receivables, detail information related to each receivable must be recorded and maintained by each State agency. It is recommended, as a minimum, the following items be included. Individual agencies may supplement this information as appropriate.

1. Debtor's name;

2. Debtor's social security number, federal employer's identification number (FEIN), or other Comptroller- approved identifying number;

3. Debtor's last known address;

4. Amount of the debt;

5. "Source of Revenue" code, where applicable;

6. Nature of the debt;

7. Formal due date of the debt;

8. The agency and fund(s) to which the debt is due;

9. Documentation of all collection efforts. (See SAMS Manual Procedure 26.40.10)

PURPOSE

The purpose of accounts receivable reporting is to file accounts receivable information with the Comptroller's Office as required by the Illinois State Collection Act of 1986, Ill. Rev. Stat., 1985, ch. 15, par. 151**(30 ILCS 210/1)**.

GENERAL

The accounts receivable reports, as explained in SAMS Manual Procedures 26.30.20 through 26.30.50 provide a summary of the status of the State's receivables and related collections activity. These reports consist of agency reports to the Comptroller summarizing receivables activity, aging of receivables and estimates of uncollectibles and collections activity on a quarterly basis.

Quarterly Reporting

State agencies shall report receivables information to the Comptroller quarterly. The summary information will include:

- Receivable activity by fund and major revenue source
- Aging of receivables by fund and major revenue source
- External collection activity of accounts over 180 days past due by agency.

The agency shall report this information by completing the following three reports. Reports 1 and 2 listed below should be completed for each fund in which the agency deposits money and has outstanding receivables at the end of the quarter or to account for receivables reported in a prior quarter which no longer exist (because of collection or write-off). Report **3** should be completed on **an agency-wide basis and not by fund.**

1. Quarterly Summary of Accounts Receivable - Accounts Receivable Activity. (Form C-97, Exhibits 26.30.20 A and B) This form requests information about quarterly totals for adjustments to receivables, additions to accounts receivable, collections, write-offs, estimated uncollectibles, and number of accounts for gross receivables at the end of the quarter and write-offs.

2. Quarterly Summary of Accounts Receivable – Aging of Total Gross Receivables. (Form C-98, Exhibits 26.30.30 A and B) This form requests information about quarterly totals for aging of past-due accounts and interest and penalties charged.

3. Quarterly Summary of Accounts Receivable - External Collections Activity for Accounts Over 180 Days Past Due. (Form C-99, Exhibits 26.30.40 A and B) This form requests information about the status of collection efforts for accounts over 180 days past due. This form is to be completed on an agency wide basis and not by individual fund.

Quarterly receivables reporting will include only those amounts which are due the State at the time of such reporting. Self-assessed revenues, including most taxes, will not be estimated for interim reporting. Report only those components of self-assessed revenue sources that represent known receivables due from specific individuals and entities. These amounts may include delinquent taxes, additional assessments and penalties, and amounts reported but unpaid.

The forms for these reports require agencies to supply information about the amounts, aging, and collection status of their receivables. Receivables are reported by major revenue source within each fund as categorized below:

(21) Enter the contact telephone number for questions regarding this claim submission.

B. COMPTROLLER'S PROCEDURES UPON RECEIVING NOTIFICATION OF A CLAIM IN FAVOR OF THE STATE

The Office of the Comptroller will review the information provided by the agency submitting the claim and ascertain the amount due and payable to the State. Additional information may be requested of the submitting agency to ensure the debt has been established in compliance with statutory and IOC requirements.

Upon ascertaining the amount due and payable, the Comptroller will deduct the amount of the claim from a voucher(s) from any State agency payable to the person or business which is processed after the claim is received. This withheld amount will be deposited into the State Offset Claims Fund. If the amount of the claim in favor of the State is less than the amount to which the person or business is entitled, a warrant for the balance of the voucher will be prepared and issued to the payee. The agency submitting the voucher against which a Section 10.05 offset claim is applied will have its appropriation charged with the entire amount of the voucher.

In cases where offsets are to be made against a State employee's wages, no more than 25% of the employee's disposable earnings may be subject to offset. Final compensation payments paid to a person when the person leaves the employ of a State agency for accrued vacation, sick leave or overtime are exempt from the 25% limitation and are offset up to 100% of the voucher amounts. State agencies may submit claims for offset for the entire amount owed to the State agency and the Comptroller's Offset System will compute the required 25% available for the offset.

In the event that the calculation of 25% of the employee's disposable earnings exceeds the employee's take home pay (i.e., the net amount of the warrant), that employee's payroll voucher will be returned to the submitting agency. A payroll reversal must be processed and the employee's voluntary deductions must be canceled or reduced so that the employee's take-home pay on the Supplemental Payroll to the employee will be sufficient to satisfy the amount calculated as available for offset. Agencies should contact their employees to determine which of the voluntary deductions on the payroll are to be canceled or reduced.

Additionally, where an agency is aware of ongoing offsets against one of its employees, any final compensation payments for vacation, overtime or sick pay must be vouchered separately from any current pay period wages. The separate voucher for the lump sum payment must carry 0 (zero) in the base to allow 100% offset.

In cases where offsets are to be made against a retirement benefit payment, no more than 25% of the disposable earnings may be subject to offset. State agencies may submit claims for offset for the entire amount owed to the State agency and the Comptroller’s Offset System will compute the required 25% available for the offset.

In the event the calculation of 25% of the retiree’s disposable earnings exceeds the employee’s take home pay (i.e., the net amount of the warrant, that retiree’s retirement voucher will be returned to the submitting agency. A reversal must be processed, and the

retiree's voluntary deductions must be canceled or reduced so that the retiree's take-home pay will be sufficient to satisfy the amount calculated as available for offset. The Retirement System should contact the retiree to determine which of the voluntary deductions are to be canceled or reduced.

C. NOTIFICATION OF THE COMPTROLLER'S EXERCISE OF SECTION 10.5

Whenever the Comptroller exercises his/her authority granted under Section 10.05, the payee will be sent a notification of the deduction.

Notification to the debtor is a form letter (Exhibit 26.40.20-D) which advises the debtor of the name of the claiming agency, the amount withheld and nature of the debt. The Involuntary Withholding Agency Notification Report (IWAN) is sent to the claiming agency via the IDROP Portal or mailed weekly if the agency is not in IDROP. This same report can be accessed via IDROP on a daily basis. It is renamed Involuntary Withholding Offset Notification report (IWON). The vouchering agency receives, on a weekly basis, the Involuntary Withholding Vouchering Agency Report (IWVA). The Comptroller's Office will provide these reports to the respective agencies unless advised that the copy is not needed.

If after 60 days have elapsed from the date the Comptroller gives notice of the offset, no protest is made by the person subject to the offset, the Comptroller shall issue a warrant or interfund payment on the State Offset Claims Fund for the amount of that deposit to the agency entitled thereto. If a protest is made, the Comptroller shall not issue such warrant/interfund payment to the State agency on the State Offset Claims Fund until he ascertains the amount due and payable.

D. PROCESSING CHARGE

The Comptroller's Office will deduct a processing charge, not to exceed $15, for each payment that is intercepted for a STATE OFFSET, and not to exceed $20 for each payment that is intercepted for a LOCAL OFFSET. The processing charge will be paid by the debtor and will not reduce the amount of the debt owed to the agency. The standard processing charge is $15 per payment; however, if a payment that is being offset is less than $30, the processing fee will be 50% of the payment amount and the remaining 50% will be utilized to satisfy the debt.

DEFINITION OF COVERED DEBTS

Interagency receivables are amounts that are due from other State agencies ("Due from's") including the following:

1. Amounts for goods or services provided by one State agency to another;
2. Cost reimbursements due from another State agency (which is the grantor or subgrantor);
3. Amounts due from another State agency (which is the grantee) when the amount granted is in excess of the grantee's expenditures and must be returned to the State agency grantor;
4. Any other amounts due from other State agencies including overpayments, amounts paid in error, etc.

STANDARDS & PROCEDURES FOR REMOVAL OF UNCOLLECTIBLE STATE ACCOUNTS

Interagency receivables due from another State agency may be written off if the agency has pursued all reasonable and appropriate means of collection, and if the amount meets the following criteria:

1. Is payable from an appropriation which has lapsed;
2. May not properly be charged against a current appropriation; and
3. Was not originally payable from federal funds, a trust fund, or locally held funds.

REPORTING REQUIREMENTS

Each agency which writes off claims or receivables pursuant to the standards outlined above, must maintain a list of the write-offs. Although detailed information is not required to be submitted to the Comptroller, the list must include the following information:

1. Debtor agency's name;
2. Amount of the debt;
3. Nature of the debt;

4. Formal due date of the debt;

5. The agency and Comptroller assigned fund to which the debt is due;

6. "Source of Revenue" code of the debt;

7. The date the debt was written off.

INTRODUCTION

Year-end financial reporting in accordance with generally accepted accounting principles (GAAP) has been commonplace in the private sector for many years. However, until the issuance of the National Council on Governmental Accounting (NCGA) Statement 1, there was some uncertainty as to what constituted GAAP basis financial reporting for State government. Since NCGA Statement 1, there has been an increased awareness of the need for better financial information in the public sector which is a direct result of the financial crisis of many large cities.

This section outlines the general procedures for 1) year-end GAAP reporting to the State Comptroller's Office and 2) preparation of GAAP basis financial statements by those State agencies, authorities, boards and commissions considered part of the State's reporting entity.

Year-end GAAP Reporting to the State Comptroller's Office

All State agencies (excluding those agencies whose GAAP reporting packages are completed by the Comptroller's staff in consultation with agency personnel - referred to as "in-house") are required to submit annual GAAP reporting packages for any fund or funds in which they expend from and/or deposit receipts. Generally, GAAP reporting packages are due between August 10 and August 31 except for university, component unit and pension packages, which are due between September 1 and September 30. Those agencies whose reporting packages are completed "in-house" are indicated by footnote in Procedure 27.50.10. Year-end GAAP reporting to the Comptroller including reporting forms and instructions is presented in the following SAMS Manual Chapter 27 procedures.

Financial Reporting Representations by Agency Management

As part of the agency reporting process, the agency director, or equivalent, will be required to submit a letter representing that, to the best of their knowledge and belief, the GAAP financial reporting information is complete and accurate. Universities should obtain signature of an individual with, at a minimum, the overall responsibility for accounting and financial reporting. The required form and content of the representation letter is included in Exhibit 27.10.10-A.

GAAP Basis Financial Statements

In addition to the above requirement, in certain instances (explained below), State agencies are also required to submit a complete set of GAAP basis financial statements (including footnote disclosures) to the Comptroller's Office by October 15th.

Agencies which are required to prepare and submit GAAP basis financial statements to the Comptroller's office are indicated in Exhibit 27.10.10-B. GAAP basis financial statements for these agencies are necessary to obtain adequate audit coverage for the statewide general purpose financial statements.

General

Preparation of GAAP reporting packages and resultant GAAP basis financial statements requires careful examination of both financial and non-financial data. Financial data refers to those items that are products of the accounting system. Examples of financial data used in the GAAP compilation process include agency expenditure records and SAMS financial reports. Non-financial data refers to information that does not flow through the accounting system. Examples of non-financial data used in the GAAP reporting process include such items as personnel records for documenting compensated absences (form SCO-580), and records of pending litigation for contingent liabilities (form SCO-599). Another example is when agencies receive goods and services as payment in lieu of cash (i.e., "in-kind" payments). The fair market value of such goods and services must be recorded as revenue and expenditures/expenses in the appropriate GAAP reporting fund package. Any questions concerning the GAAP reporting implications of these non-financial transactions should be directed to the Comptroller's GAAP reporting staff.

The Honorable_____
Comptroller
201 State House
Springfield, Illinois 62706-0001

Dear Comptroller:

In connection with your preparation of the financial statements of the various funds and account groups of the State of Illinois at June 30, 20XX, and for the year then ended, I recognize that obtaining representations from me concerning the information contained in this letter is a significant procedure in enabling you to prepare the financial statements, and accordingly, I make the following representations which are true to the best of my knowledge and belief.

I recognize, as a member of management of the State, that management is responsible for the fair presentation of the financial statements. I believe the (Agency) trial balances are fairly presented in conformity with generally accepted accounting principles.

There are no agency material transactions that have not been properly recorded in the accounting records underlying the (Agency) trial balances including those receivables required to be reported within the requirements of the Illinois State Collection Act of 1986 (30 ILCS 210/1). All information necessary for accurate and fair preparation of the Schedule of Federal Financial Assistance has been included on Form SCO-563. Transactions with related parties, as defined in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 850, and related amounts receivable or payable, including sales, purchases, loans, transfers, leasing arrangements, and guarantees have been properly recorded or disclosed in the financial statements, We are responsible for identifying all laws, rules and regulations that govern the operations of the (Name of Agency); and we are responsible for ensuring compliance with laws, rules, and regulations that have a direct and material effect on the determination of financial statement amounts. We have complied with all aspects of laws, regulations, and contractual agreements that would have a material effect on the financial statements in the event of noncompliance except for those specifically noted in writing to your office.

No (Agency) event or transaction has occurred since June 30, 20XX, pending or in prospect, which would materially affect the (Agency) trial balance at that date or which is of such significance in relation to the State's financial or operational affairs as to require mention in the notes in the State's financial statements in order to make them not misleading as to the financial position, results of operations or changes in fund balances.

Very truly yours,

ACCOUNTING FOR LEASES-LESSEE (SCO-560)

PURPOSE

The purpose of the Accounting for Leases-Lessee Form (Exhibit 27.20.60-A) is to provide information used in calculating the lease liability and right to use asset as required by Governmental Accounting Standards Board (GASB), Statement No. 87.

This form is to be completed on a transaction by transaction basis as new lease agreements are initiated and sent to the Comptroller's Office. This form only needs to be prepared if the total lease payments of the asset/assets being leased are greater than $100,000. This form also needs to be prepared when there is an early termination of an existing lease or when changes are made to existing lease provisions, including changes in the appropriation from which payments are made, or when requested by the Comptroller's Office. Two copies should be retained by the agency: one to provide an internal record and one for the Auditor General or his representative.

The completion of this form will enable the Comptroller's Office to determine the total lease liability and right to use asset value to be recorded on the agency's books, including the Agency Report of State Property (Form C-15) and the Capital Asset Summary (SCO-538).

GENERAL

All agencies who lease property must complete Form SCO-560 for each multiple period lease that falls within the scope of GASB Statement No. 87. However, agencies who administer proprietary funds, as well as universities and component units, do not have to report on Form SCO-560 if the agency uses their own lease calculating system and the agency reports this information on Form SCO-535, Proprietary Fund Schedule of Footnote Disclosure Information or Form SCO-585, Component Unit Schedule of Footnote Disclosure Information. Form SCO-560 is used to assist the Comptroller's Office in calculating the appropriate cost at which the agency should record the leased asset in their State property control records. This amount will also be reflected on Form C-15, Agency Report of State Property and Form SCO-538, Capital Asset Summary.

Universities and component units may adopt a different threshold when calculating lease liabilities and right to use assets. Universities and component units should adequately document these thresholds within each entity's policies and procedures.

Per GASB Statement No. 87, all leases are to be reported on an agency's financial statements, except short-term leases. To be considered a short-term lease, the lease must have a maximum possible term at commencement date of 12 months or less. If there are any options to extend beyond the 12 months, it is not considered a short-term lease.

Form SCO-560 should be submitted for financed purchases in order to determine the asset value to record on the agency's property records. A financed purchase agreement is an agreement where title to the property (ownership) vests in the purchaser immediately. The Transfer of Ownership field (21) should be marked as yes to indicate a financed purchase.

INSTRUCTIONS

Form SCO-560 must be prepared for financed purchases and for multiple-period or multiple-year contracts that fall within the scope of GASB Statement No. 87. Most of the contracts will have a transaction code of 38 (Other Lease-External Vendor), 39 (Other Lease-State Agency) or 31 (Leases for Rental of Real Property), but agencies should review all contracts to ensure all leases are correctly identified. Contracts with a transaction code of 31 require a C-15A form to be filed in accordance with SAMS 15.20.41. A separate Form SCO-560 must be filled out for each contract. Do not complete “Lease Number.” This will be completed by the Comptroller’s Office.

CONTENTS

Refer to Exhibit 27.20.60-B.

REFERENCE	CONTENTS
(1)	Enter the last two digits of the fiscal year for which this form is being completed.
(2)	Enter the official agency name.
(3)	Enter the three-digit Comptroller assigned agency number.
(4)	Enter the official fund name.
(5)	Enter the four-digit Comptroller assigned fund number.

REFERENCE	CONTENTS
(6)	Enter the obligation number of the lease, up to ten digits.
(7)	Provide a brief description of the leased item.
(8)	Check the appropriate lease processing category. (Check One Only)
(9)	Enter the appropriate asset type as follows: B= Building L= Land M= Machinery and Equipment O= Other If the lease includes both land and building(s), and the lease does not contain a bargain purchase option (refer to (22)) or transfer of ownership at the end of the lease term and the fair value of the land is less than 25% of the total, enter a "B" for Building. If the fair value of the land is more than 25% of the total, or the lease contains a bargain purchase option or a transfer of ownership at the end of the lease term, prepare separate forms (including Form C-15A) for the land portion and the building portion.
(10)	Enter the calendar month the lease begins (not the month of inception) as numeric characters. For example, 1 for January, 2 for February, etc. The inception date of the lease is the date the lease has been signed by all parties. If this information cannot be determined from agency records, it can be obtained from the lessor.
(11)	Enter the last two digits of the year the lease term begins (not the year of inception).
(12)	Enter the date the agency was given control of the asset. For example, if the lease is for a building, enter the date when the agency was able to occupy the building. If the lease is for equipment, enter the date when the equipment was delivered to the agency's office for them to begin using it.

REFERENCE	CONTENTS
(13)	Enter the total estimated economic life of the leased property (in years). Refer to SAMS Manual Procedure 03.30.40.
(14)	Enter the total estimated economic life remaining in the asset (in years) at the beginning of the lease term (not the inception of the lease). If the asset is new, the remaining life will equal (13).
(15)	If the lease is with a State University or Component Unit, enter Y. If not, enter N.
(16)	If the answer to (15) is yes, indicate which University or Component Unit is the lessor.
(17)	Enter the number of payments per year. Allowable entries are 1, 2, 3, 4, 6 or 12. For example, if lease rental payments are made quarterly, enter 4.
(18)	Enter the number of periods from beginning of the lease term to the termination of the lease term. For example, if the payment periods are quarterly and the lease life is 10 ½ years, enter 42. Do not include time from the inception to the beginning of the lease term. The lease term consists of: a. The original noncancelable term stated in the lease. b. Optional renewal periods if the lessee is reasonably certain to exercise this option. c. Periods after an optional termination date if lessee is reasonably certain not to exercise the termination option.
(19)	Enter BEG if paid at the beginning of the payment period (payments in advance). Enter END if paid at the end of the payment period (payment in arrears).
(20)	Enter the interest rate stated in the lease. If a rate is not stated, the Comptroller's Office will complete this section based on average general obligation bond rates at the date of inception.

REFERENCE	CONTENTS
(21)	If the lease automatically transfers ownership of the property to the lessee by the end of the term, enter Y. If not, enter N. If an entry other than 0 is to be made in (22), enter N.
(22)	Enter the dollar amount of the bargain purchase option. If there is no bargain purchase option, enter 0. If an entry of Y has been made in (21), enter 0. NOTE: To determine if the purchase option stated in the lease is a bargain purchase, complete the following steps: a. Determine the dollar amount of the fair value of the leased property at the date the purchase option becomes exercisable. The fair value is defined as the price for which the leased property could be purchased. b. Determine the dollar amount of the lessee's purchase price as stated in the lease agreement. c. If the lessee's purchase price is sufficiently less than the fair value, then the option is a bargain purchase option.
(23)	If the obligation is for a financed purchase (title passes at the **beginning** of the payment schedule), enter Y. If the obligation is not for a financed purchase, enter N. The contract may contain a section termed "Title" indicating whether title passes upon acceptance of the equipment (beginning).
(24)	If the obligation is for a certificate of participation, enter Y. If the obligation is not for a certificate of participation, enter N. The Department of Central Management Services has arranged for financing or refinancing of certain equipment purchases with certain banks. If an obligation is for a certificate of participation, it should be evidenced by a signed lease agreement and the lease payments would be made to the bank. Please forward the Comptroller's Office a copy of the certificate of participation.
(25)	Enter the noncancelable lease period as stated in the lease agreement.

REFERENCE	CONTENTS
(26)	If the lessee has the option to terminate the lease, enter Y. Also indicate at what point the lessee is able to terminate the lease. If the lessee does not have this option, enter N.
(27)	If the lessor has the option to terminate the lease, enter Y. Also indicate at what point the lessor is able to terminate the lease. If the lessor does not have this option, enter N.
(28)	Enter the number of payment periods after an optional termination date (if lessee is reasonably certain not to terminate the lease). Note: If the answer in both Box 26 and Box 27 are "N," the number of payments in Box 28 should be 0.
(29)	Enter the number of payment periods in the optional renewal periods (if the lessee is reasonably certain to exercise the renewal options). Note: If both the Lessor and Lessee must agree to the renewal, then the number of periods in Box 29 should be 0.
(30)	Enter the total number of periods from the payment schedule completed on page 2 of the SCO-560 form (Box (59)).
(31)	Enter the total amount of payments from the payment schedule completed on page 2 of the SCO-560 form (Box (60)). If this amount is deemed to be immaterial based on current IOC materiality guidance, this form does not need to be submitted.
(32)	Enter any initial direct costs required to place the leased asset into service. Any initial direct costs that would be considered debt issuance costs are not included, but would rather be expensed when incurred. In addition, include any payments made before the lessee obtains control of the asset.

REFERENCE	CONTENTS
(33)	Enter Y if any common area maintenance expenses are included in lease payments. If so, please indicate the amount included in each lease payment. If this amount is not stated in the lease agreement, agency should provide an estimate of the amount of the lease payments that are for common area maintenance.
(34)	Enter the fund(s) and appropriation code(s) used to make payments for the leased asset. If more than one appropriation code was used, enter the percentage of payments from each appropriation code.
(35)	Enter the signature of the employee responsible for the information contained on this form.
(36)	Enter the telephone number where the responsible employee can be reached for further information.
(37)	Enter the number of periods covered by the first fixed payment on the lease.
(38)	Enter the total amount of rent to be paid by the lessee for each period (month, quarter, etc.) as defined in (17). **Do not include maintenance costs in the periodic payment.** Fixed payments are considered a known amount (not dependent on an index or rate). Fixed rates can change over the course of the lease term. Do not include period from inception of the lease to beginning of the lease term. Examples include: a. if a lease has rentals of $5,000 for twenty periods, enter 20 in (37) and 5,000 in (38). b. If no rent is payable for the first 6 months of the lease term, and then rentals are $5,000 for 18 months, on the first line enter 6 in (37) and $0 in (38); on the second line enter 18 in (37) and $5,000 in (38). c. If a 24 period lease has rentals of $5,000 for twenty periods and $6,000 for the last four, on the first line enter 20 in (37), and $5,000 in (38); on the second line enter 4 in (37), and $6,000 in (38).
(39)	Multiply the number of periods entered in box (37) by the amount in box (38) for each line and enter in box (39).

ACCOUNTING FOR SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS (SCO-560S)

PURPOSE

The purpose of the Accounting for Subscription-Based Information Technology Arrangements (SBITAs) Form (Exhibit 27.20.60S-A) is to provide information used in calculating the subscription liability and subscription asset as required by Governmental Accounting Standards Board (GASB), Statement No. 96.

This form is to be completed on a contract by contract basis as new subscription-based arrangements are initiated and sent to the Comptroller's Office. This form only needs to be prepared if the total subscription payments for the software and related IT asset(s) are greater than $100,000. This form also needs to be prepared when there is an early termination of an existing SBITA or when changes are made to existing provisions, including changes in the appropriation from which payments are made, or when requested by the Comptroller's Office. Two copies should be retained by the agency: one to provide an internal record and one for the Auditor General or his representative.

The completion of this form will enable the Comptroller's Office to determine the total subscription liability and subscription asset value to be recorded on the agency's books, including the Capital Asset Summary (SCO-538).

GENERAL

All agencies who have subscription-based information technology (IT) arrangements must complete Form SCO-560S for each multiple period arrangement that falls within the scope of GASB Statement No. 96. However, agencies who administer proprietary funds, as well as universities and component units, do not have to report on Form SCO-560S if the agency uses their own SBITA calculating system and the agency reports this information on Form SCO-535, Proprietary Fund Schedule of Footnote Disclosure Information or Form SCO-585, Component Unit Schedule of Footnote Disclosure Information. Form SCO-560S is used to assist the Comptroller's Office in calculating the appropriate cost at which the agency should record the subscription asset in their State property control records. This amount will also be reflected on Form SCO-538, Capital Asset Summary.

Universities and component units may adopt a different threshold when calculating subscription liabilities and subscription assets. Universities and component units should adequately document these thresholds within each entity's policies and procedures.

Per GASB Statement No. 96, all SBITAs are to be reported on an agency's financial statements, except short-term arrangements. To be considered a short-term arrangement, the SBITA must have a maximum possible term at commencement date of 12 months or less. If there are any options to extend beyond the 12 months, it is not considered a short-term arrangement.

INSTRUCTIONS

Form SCO-560S must be prepared for multiple-period or multiple-year contracts that fall within the scope of GASB Statement No. 96. A separate Form SCO-560S must be filled out for each contract. Do not complete "SBITA Number." This will be completed by the Comptroller's Office.

ACCOUNTING FOR LEASES-LESSOR (SCO-561)

PURPOSE

The purpose of the Accounting for Leases-Lessor Form (Exhibit 27.20.61-A) is to provide information used in calculating the lease receivable and deferred inflow of resources as required by Governmental Accounting Standards Board (GASB), Statement No. 87.

This form is to be completed on a transaction-by-transaction basis as new lease agreements are initiated and sent to the Comptroller's Office. This form only needs to be prepared if the total lease payments of the asset/assets being leased are greater than $100,000. This form also needs to be prepared when there is an early termination of an existing lease or when changes are made to existing lease provisions, including changes in the revenue source code to which payments are made, or when requested by the Comptroller's Office. Two copies should be retained by the agency: one to provide an internal record and one for the Auditor General or his representative.

The completion of this form will enable the Comptroller's Office to determine the total lease receivable and deferred inflow of resources to be recorded on the agency's books.

GENERAL

All agencies who lease property must complete Form SCO-561 for each multiple period lease that falls within the scope of GASB Statement No. 87. However, agencies who administer proprietary funds, as well as universities and component units, do not have to report on Form SCO-561 if the agency uses their own lease calculating system and the agency reports this information in their GAAP package. These agencies shall provide necessary disclosure information for these leases to the Comptroller's Office upon request. Form SCO-561 is used to assist the Comptroller's Office in calculating the appropriate value at which the agency should record the lease receivable in their records.

Universities and component units may adopt a different threshold when calculating the lease receivable. Universities and component units should adequately document these thresholds within each entity's policies and procedures.

Per GASB Statement No. 87, all leases are to be reported on an agency's financial statements, except short-term leases. To be considered a short-term lease, the lease must have a maximum possible term at commencement date of 12 months or less. If there are any options to extend beyond the 12 months, it is not considered a short-term lease.

INSTRUCTIONS

Form SCO-561 must be prepared for multiple-period or multiple-year contracts that fall within the scope of GASB Statement No. 87. Agencies should review all contracts to ensure all leases are correctly identified. A separate Form SCO-561 must be filled out for each contract. Do not complete "Lease Number." COMPENSATED ABSENCES (SCO-580)

PURPOSE

The purpose of the Compensated Absences Form (Exhibits 27.20.80-A-B) is to gather information regarding compensated absences of governmental fund types in order to provide the appropriate disclosure in the statewide financial statements.

When applicable, this form must be prepared annually and sent to the Comptroller's Office as part of the year-end reporting package. Two copies should be retained by the agency: one to provide an internal record and one for the Auditor General or his representative.

GENERAL

The Compensated Absences Form should be completed to recognize a liability for leave that has not been used or leave that has been used but not yet paid in cash or settled through noncash means. For leave that has not been used, the leave must be attributed to services already rendered, the leave must accumulate, and the leave must be more likely than not, expected to be used for time off or otherwise paid in cash or settled through noncash means. Generally, the State of Illinois' liability for compensated absences will consist of vacation, sick leave, personal, compensatory time, paid time off (PTO), floating holidays, and other leave earned by employees, but not taken, as well as, the balance of a shared employee leave pool and sporadic leave time. The accrual of this liability is subject to certain conditions. The conditions for each type leave are different and discussed separately below. Agencies must review internal policies to determine the appropriateness of each liability recorded.

Vacation, personal, compensatory time, PTO, floating holidays, and other leave should be recorded as a liability when benefits are earned by the employee regardless of whether the agency's policy is to pay employees for the unused time or not.

Sick leave should be recorded as a compensated absence when the benefit is earned, provided it is probable the employee will be compensated for the benefit through the use of sick time or cash payments at separation or retirement depending on the years the sick time was accrued.

> Sick leave – Paid - Pursuant to 30 ILCS 105/14a, only sick leave accumulated from January 1, 1984, through December 31, 1997, is eligible for compensation at 50%, through cash payments at separation or retirement. This calculation will be based upon the sick leave accumulated at the balance sheet date.

Sick Leave – Unpaid – Sick leave earned *before* January 1, 1984, and *after* December 31, 1997, is recorded as a compensated absence liability if the sick time is expected to be used prior to retirement or termination and not converted to service credit. The portion of sick time that is expected to be converted to service credit should not be recognized as a compensated absences liability.

Shared employee leave pool is a type of leave that is not attributable to a specific employee but generally consists of a group of employees who are eligible to participate.

Sporadic leave is a type of leave that is dependent upon a specific occurrence and generally affects a small proportion of employees. Examples of sporadic leave include parental leave, military leave, and jury duty. These types of leave should not be recorded as a compensated absence liability until the leave has commenced.

Another component of the liability for compensated absences for vacation, personal, compensatory time, PTO, floating holidays, other leave, sick leave, and sporadic leave, as well as the liability for the shared employee leave pool is an amount for salary related payments directly and incrementally associated with the usage or payment of compensated absences. Salary related payments include the employer's share of social security taxes, medicare taxes and any other charge having a direct and incremental relationship with the compensated absence payment. Salary related payments should be accrued using the rates in effect at the balance sheet date. The current rates in effect for employer contributions are 6.2% for social security and 1.45% for medicare. Therefore, if social security and medicare contributions are applicable, the total employer FICA contribution rate is 7.65% of taxable wages. Computations will vary by employee since certain employees are not subject to social security and some employees will exceed the social security wage cap. Employer contributions for retirement should not be considered salary related costs because that liability is currently accounted for as part of the accrued retirement costs.

All amounts reported on this form must be rounded to the nearest thousand. Where a line or column does not apply, leave it blank.

INSTRUCTIONS

Compensated absences generally should be computed using the specific identification method (except for the shared employee leave pool where a representative and estimated compensation rate is used). The specific identification method can be accomplished by multiplying the actual number of leave hours for each employee by the employee's hourly salary as of June 30. The employee's hourly salary can be determined by dividing a computed annual salary based on the

June 30 payroll by 261 (daily) and dividing this by the number of hours accounted for by the agency's normal work day (in hours). Form SCO-580 applies to governmental fund types only. Compensated absences for employees paid from proprietary, pension/investment/private purpose trust funds, or component units should be reported on Form SCO-540.

Vacation, personal, compensatory, PTO, floating holidays, and other leave – The liability represents the dollar amount owed to employees by the State for each employee's hours of vacation, personal, compensatory, PTO, floating holidays, and other leave outstanding at the end of the year multiplied by the employee's hourly salary. The net change from the prior-year ending balance to the current-year ending balance may be entered as an addition for a net increase or deletion for a net decrease.

The current portion due within one year of vacation leave represents the portion of the liability estimated to be used or paid in cash within the next fiscal year. Agencies will need to analyze individual policies to determine the current portion due within one year of personal, compensatory, PTO, floating holidays, and other leave. The current portion represents the portion of the liability estimated to be used within the next fiscal year. If the accrued personal, compensatory, PTO, floating holiday, and other leave time does not accumulate from year to year, it is assumed the entire balance is current.

Salary related costs – Vacation, personal, compensatory, PTO, floating holidays, and other leave - represents the liability for the State's share of Social Security and Medicare costs associated with the liability to be paid to an employee. To calculate the liability for salary ending costs - vacation, personal, compensatory, PTO, floating holidays, and other leave, multiply each employee's ending balance dollar amount of leave (subject to the applicable taxable wage limitations) by the appropriate percentage for the employer's share of FICA (7.65%). If social security does not apply, multiply by the appropriate percentage for the employer's share of Medicare (1.45%). The net change from the prior-year ending balance to the current-year ending balance may be entered as an addition for a net increase or deletion for a net decrease.

The current portion due within one year of salary related costs - vacation leave represents the portion of the salary related costs liability estimated to be used or paid in cash within the next fiscal year. Agencies will need to analyze individual policies to determine the current portion due within one year of the salary related costs - personal, compensatory, PTO, floating holidays, and other leave. The current portion represents the portion of these salary related costs - liabilities estimated to be used within the next fiscal year. If this accrued time does not accumulate from year to year, it is assumed the entire balance is current.

Sick – paid (50% of time accrued from 1/1/84-1/1/98) – The liability represents the dollar amount owed to employees by the State for each agency employee's unused sick leave earned after January 1, 1984, and before January 1, 1998, outstanding at the end of the year multiplied by the employee's hourly salary. The net change from the prior-year ending balance to the current-year ending balance should be a decrease as employees are no longer able to earn sick-paid leave.

The current portion due within one year of the sick liability represents the portion of the sick liability estimated to be paid in cash within the next fiscal year due to employees' separation from State employment.

Salary related costs – Sick - paid - represent the liability for the State's share of Social Security and Medicare costs associated with the sick liability to be paid to an employee. The net change from the prior-year ending balance to the current-year ending balance should be a decrease as employees are no longer able to earn sick-paid leave.

The current portion due within one year of the salary related costs – sick – paid liability represents the portion that is estimated to be paid in cash within the next fiscal year due to employees' separation from State employment.

Sick – unpaid (all other) – The liability represents the value of agency employees' unused sick leave earned *before* January 1, 1984, and *after* January 1, 1998, expected to be used before termination, retirement, or separation from the State outstanding at the end of the year multiplied by the employee's hourly salary. The liability should exclude any time expected to be converted to pensionable time or service credit. The net change from the prior-year ending balance to the current-year ending balance may be entered as an addition for a net increase and a deletion for a net decrease.

The current portion due within one year of the sick-unpaid liability represents the portion of the sick-unpaid liability estimated to be used within the next fiscal year.

Salary related costs – Sick-unpaid - represent the liability for the State's share of Social Security and Medicare costs associated with the sick-unpaid liability. To calculate the salary related costs – sick-unpaid leave liability, multiply each employee's ending balance dollar amount of leave (subject to the applicable taxable wage limitations) by the appropriate percentage for the employer's share of FICA (7.65%). If social security does not apply, multiply by the appropriate percentage for the employer's share of Medicare (1.45%). The net change from the prior-year ending balance to the current-year ending balance may be entered as an addition for a net increase or deletion for a net decrease.

The current portion due within one year of the salary related costs – sick-unpaid liability represents the portion that is estimated to be used within the next fiscal year.

Shared employee leave pool – The shared employee leave pool liability represents the dollar amount owed by the State for the balance of the sick bank pool expected to be used. Agencies should analyze the historical usage of the sick bank pool and determine whether the historical usage meets the more likely than not to be used criteria. An estimated liability should be calculated based on hours more likely than not to be used multiplied by an estimated pay rate representative of the eligible employee population. The net change from the prior-year end balance to the current-year end balance may be entered as an addition for a net increase or deletion for a net decrease.

The current portion due within one year of the shared employee leave pool liability represents the portion of the shared employee leave pool liability estimated to be used within the next fiscal year.

Salary related costs – Shared employee leave pool - represent the liability for the State's share of Social Security and Medicare costs associated with the shared employee leave pool liability. To calculate the liability for salary ending costs – shared employee leave pool, multiply the ending balance dollar amount of leave (subject to the applicable taxable wage limitations) by the appropriate percentage for the employer's share of FICA (7.65%). If social security does not apply, multiply by the appropriate percentage for the employer's share of Medicare (1.45%). The net change from the prior-year ending balance to the current-year ending balance may be entered as an addition for a net increase or deletion for a net decrease.

The current portion due within one year of the salary related costs – shared employee leave pool liability represents the portion of the salary related costs – shared employee leave pool liability estimated to be used within the next fiscal year.

Sporadic leave – The sporadic leave liability should be recognized when the leave commences and represents the dollar amount owed to employees by the State for each employee's hours of sporadic leave used that has not been paid at year end or leave that has commenced and is ongoing at year end multiplied by the employee's hourly salary. The sporadic leave must have commenced by year-end. The net change from the prior-year ending balance to the current-year ending balance may be entered as an addition for a net increase or deletion for a net decrease.

The entire sporadic leave liability would be assumed to be current or due within one year due to the nature of the liability.

Salary related costs – Sporadic leave - represent the liability for the State's share of Social Security and Medicare costs associated with the sporadic leave liability to be paid to an employee. To calculate the liability for salary ending costs – sporadic leave, multiply each employee's ending balance dollar amount of leave (subject to the applicable taxable wage limitations) by the appropriate percentage for the employer's share of FICA (7.65%). If social security does not apply, multiply by the appropriate percentage for the employer's share of Medicare (1.45%). The net change from the prior-year ending balance to the current-year ending balance may be entered as an addition for a net increase or deletion for a net decrease.

The entire balance of salary related costs – sporadic leave liability would be assumed to be current or due within one year due to the nature of the liability.

TRANSACTION REPORTING: PERIODIC PAYMENT OF PRINCIPAL AND INTEREST

GENERAL INFORMATION

Transaction reporting is required where there is a redemption of principal and payment of interest. A single form C-08, "Notice of Payment of Bond Interest and/or Principal" (Exhibit 31.30.20-A) is to be used for the reporting of both types of transactions. A C-08 should be prepared and submitted within 30 days from the date the payment is made. If the due date falls on a weekend, the C-08 should be submitted no later than the subsequent business day.

Early redemption involving the payment of a premium by the issuing agency must be reported on the form "Notice of Payment of Bond Interest and/or Principal." The amount of premium paid should be footnoted on the form for informational purposes. Also, an adjusted maturity schedule should be submitted on the Form C-05 as set forth in Exhibit 31.30.10-A.

All forms and schedules should be submitted via: https://bits.illinoiscomptroller.gov. Failure to submit these documents on the appropriate date shall result in a delinquency letter sent to the Auditor General, and a copy sent to the agency.

FILING INSTRUCTIONS

Most tax expenditure data for each fiscal year must be submitted to the Comptroller's Office by the November 1 following the conclusion of the relevant fiscal year, though reports pertaining to state income taxes may be delayed until April 30 following the conclusion of the relevant fiscal year to obtain more complete data from the preceding tax year. For example, data for fiscal year 2025 must be submitted no later than November 3, 2025, while income tax data must be submitted no later than April 30, 2026.

PURPOSE

The purpose of Debt Transparency Act reports is to provide information required to satisfy the monthly state agency reporting requirement as specified in the State Finance Act 30 ILCS 105/9.08. This data will be summarized in a publication to be issued by the Illinois Office of Comptroller.

GENERAL

State agencies and universities are required to report monthly, among other items: the current liabilities held at the agency, the major fund source of the liabilities, whether the liabilities are appropriated and, if applicable, the estimated Prompt Payment Interest or Timely Pay Interest accrued.

Debt Transparency Act reports should be submitted to the Illinois Office of Comptroller in Excel format using only the appropriate SCO-961 form (available on the Comptroller's website at illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms) and rounded to the nearest thousand dollars, not reported in thousands of dollars (e.g., $12,745,890 should be reported as $12,746,000).

To maintain uniformity and consistency among agency submissions, which are posted on the Office of Comptroller's website, only SCO-961 forms provided by the Office of Comptroller should be used and submitted to the Office of Comptroller. Forms should not be modified or altered beyond entering the required data and explanatory information. Reports should not be submitted in PDF format.

The data submitted to the Office of Comptroller is intended to capture agency liabilities as of the last day of the reporting period (i.e., the last business day of the month).

Reports are due on the 10th calendar day of each month. If the 10th calendar day falls on a State holiday and/or weekend, the report is due the business day prior to that State holiday and/or weekend.

The report should be sent via email to dtareport@illinoiscomptroller.gov. The subject of the email should be "Debt Transparency Act Report" and the body of the email should include the following fields: agency name, agency number, agency contact person, and agency contact phone

number. The Excel report should be attached to the email. If the agency is reporting $0 liabilities, that should be noted in the body of the email, and the Excel attachment is not required.

The formatting of the Debt Transparency Act report should be followed, with columns corresponding to the SCO-961 form, as explained below. Submissions that do not follow the format prescribed by the Office of Comptroller in this manual may be considered non-compliant.

CONTENTS

Column A: Major Fund Source – Agencies should report their liabilities held at the agency as one of the three following major fund sources: General Funds (as defined in 15 ILCS 20/50-40), Federal Funds or All Other Funds (also see SAMS Manual procedures 09.50.10 – 09.50.55). Agencies should report their total liabilities in the major fund source row. Additionally, if any single, individual fund has more than $1 million in liabilities in any column as of the reporting period date, the fund must be disclosed on a separate row in the report.

Column B: Agency Liabilities –This column should include all current liabilities of at least $500 in total held at the agency as of the last day of the reporting period, regardless of whether the agency has sufficient appropriation to cover the liability. Liabilities associated with continuing or non-appropriations should also be included in the agency's liabilities. For the purposes of this report, a liability is recognized when the agency is in receipt of an invoice/bill or other documentation containing sufficient information necessary to process a payment. Although the assignment of an appropriation is not required to be considered a liability, the fund or funds from which the payment(s) will be made will need to be specified. If the fund is not determinable at the reporting period date, the liability should be assigned to the most likely fund from which it will be paid.

Intergovernmental payments (including Revolving Fund payments) and agency liabilities that have been initiated into the Court of Claims process should be included in each agency's individual report. Payroll liabilities (including accrued vacation and sick pay) should not be included.

Column C: Late Payment Interest – This column should include Prompt Payment Interest payments (30 ILCS 540) or Timely Pay Interest payments (215 ILCS 5/368a) when the associated warrants have already been issued by the Illinois Office of Comptroller and the agency has not sent the interest vouchers to the Illinois Office of Comptroller. These Prompt Payment Interest and Timely Pay Interest payments should not be included in Columns B, G, H, I, J or K.

Column D: Estimated Pending Liabilities – An estimate of any fund liabilities over $1 million incurred by the State but not yet properly invoiced to the State should be reported as pending liabilities. Agencies should develop an estimation technique with documented procedures that can be reviewed by the Illinois Office of Comptroller upon request or by the agency's auditors. Agencies should use the Narrative section of the SCO-961 form to describe the estimation technique used or provide any other relevant explanations or comments. The estimated liabilities in Column D should not be included in Column B.

Column D should not include Prompt Payment Interest or Timely Pay Interest calculated on vouchers that are still held by the agency. This Prompt Payment Interest should be reported in columns G, H, I and J, and the Timely Pay Interest should be reported in Column K.

Intergovernmental payments (including Revolving Fund payments) should be included in each agency's individual report. Payroll liabilities (including accrued vacation and sick pay) should not be included.

Column E: Estimated to be submitted within 10 days – In this column, identify the portion of liabilities from columns B, C and D that are anticipated to be submitted to the Office of Comptroller for payment processing within 10 days after the conclusion of the respective reporting period.

Column F: Insufficiently Appropriated (Unappropriated Liabilities) – This column should report any projected shortfalls in appropriations for the current fiscal year relative to the expected liabilities (including anticipated payroll costs) estimated for the fiscal year. These shortfalls may result in the need for supplemental appropriations to pay all liabilities in the current fiscal year. For example, an agency expects to incur $250,000 of liabilities from the General Revenue Fund for fiscal year 2022, but it only has $235,000 in appropriation authority. The agency would report $15,000 in Column F. This amount can include estimated shortfalls in the current fiscal year that are expected to result from insufficient appropriations in prior fiscal years. This column is not intended for non-appropriated activity. If a shortfall is reported during any reporting period, an explanation is to be provided in the Narrative section on the SCO-961 form.

Columns G, H, I, J and K: Estimated Late Payment Interest Penalties – These columns should include Prompt Payment Interest or Timely Pay Interest calculated on vouchers that are still held by the agency. The interest should be calculated to the end of the reporting period. Prompt Payment Interest should be reported as to the age of the associated vouchers in the applicable column: Column G – Interest owed on vouchers aged between 91 and 120 days late; Column H – between 121 and 180 days late; Column I – between 181 and 365 days late; and

Column J – more than 365 days late. Timely Pay Interest should be reported in Column K for associated vouchers more than 30 days late. Agencies reporting Timely Pay Interest should complete the SCO-961A form to provide additional details on the interest. The form is available on the Comptroller's website at illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms.

Variance Analysis: If a separately reported fund from Column B or Column D has either a negative variance or a positive variance from the prior reporting period that is greater than $10 million, agencies must provide an explanation in the Variance Analysis section of the form. Agencies may also use this section to further explain any other variations in their Debt Transparency Act report.

Narrative: This section can be used to explain any estimation techniques used or to provide any other relevant explanations or comments the agency wishes to include.

Variance Analysis and Narrative example text: Example text for variance analysis and narrative is provided in the sample SCO-961 forms on the Office of Comptroller's website. If your agency requires a variance analysis or narrative for the respective reporting period, please revise text accordingly. If your agency has no variance analysis or narrative for the respective period, the lines of example text should be reported as N/A.

Universities: Due to unique funding, the Office of Comptroller has provided separate reporting requirements for state universities. Universities should complete the SCO-961B form available on the Comptroller's website at illinoiscomptroller.gov/state-agencies/bulletins-forms/accounting-forms.

PURPOSE

The purpose of the Public Accountability Report (PAR) is to provide information on the service efforts, costs, and accomplishments of state agencies and universities and their major programs. This report is to be submitted annually to the Illinois Office of Comptroller (IOC) as part of the year-end reporting package. The PAR is due to the IOC by December 15.

The IOC has developed an Internet-based reporting system for collecting data from state agencies and universities. The reporting system is available through the Comptroller's Public Accountability Report Portal.

GENERAL

The Public Accountability Report is consistent with expectations and other reporting requirements regarding performance measurement already existing in Illinois state statutes. The Fiscal Control and Internal Auditing Act (30 ILCS 10/1001, *et seq*.) requires controls to ensure "resources are utilized efficiently, effectively, and in compliance with applicable law." (30 ILCS 10/3001(1)) It is not possible to demonstrate efficiency or effectiveness without appropriate measures of efforts, costs, and accomplishments. Additionally, the Civil Administrative Code of Illinois requires "an annual accountability report" from each department of state government listed in 20 ILCS 5/5-15. (15 ILCS 20/50-15)

As stipulated in Public Act 86-1415 (15 ILCS 405/6.01), effective September 11, 1990, the Comptroller is responsible for defining financial reporting requirements for Illinois state agencies:

> *The Comptroller shall specify and establish the financial accounting and reporting standards and principles to be used by all State government and State agencies.… These standards and principles shall be known as the Generally Accepted Accounting Standards and Principles for Illinois State Government, and shall, whenever possible, be compatible with any similar nationally existing generally accepted accounting standards and principles for government.*

The core mission of the IOC is to provide quality fiscal information. It is the position of the IOC that fiscal information that consists solely of *financial* information is lacking an acceptable level of quality. Such financial information must be coupled with *non-financial* information (i.e., information on service efforts and accomplishments) if the financial information is to be meaningful.

The Governmental Accounting Standards Board (GASB) is the highest source of accounting and financial reporting guidance for state and local governments and retains ultimate authority over all external financial reporting by governmental entities. GASB's Suggested Guidelines for Voluntary Reporting of Service Efforts and Accomplishments (SEA) Performance Information "are intended to help state and local governments that choose to communicate SEA performance information to citizens, elected officials, and other interested parties to do so effectively.... The reporting of SEA performance information better meets the needs of users of governmental financial information by enhancing both accountability and transparency of those governments who choose to report this information." (GASB News Release, July 14, 2010)

GASB's Suggested Guidelines are a useful reference for preparing an agency's PAR. This guidance includes the characteristics that agencies should strive for in performance data: relevance, understandability, comparability, timeliness, consistency, and reliability. It also includes criteria for indicators and other useful information.

In general, the IOC does not establish the performance indicators, measures, or standards for an agency's PAR. State agencies are typically expected to develop valid and generally accepted SEA-type indicators for approval by the IOC, which may advise and direct agencies on reporting for specific programs or services; gather the data required for the indicators; and report performance results in the form prescribed herein. It is assumed that a significant amount of information is already available for reporting using the SEA model based on the statutory provisions and requirements previously cited.

Agencies should not intermingle SEA-type information from different programs or services, but should prepare separate reports for each distinct agency function, program, or service being reported.

Agencies should also be able to substantiate their reports by maintaining adequate and appropriate documentation to support their mission statements, goals, objectives, and performance measures. This would include such elements as statutory or other authoritative sources for programs, mission statements, goals and objectives, definitions of performance indicators and data, the data collection and reporting process, the data storage and retrieval environment, etc.

REPORTING DATES

State agencies and universities report SEA information annually to the IOC, as prescribed in the following instructions, according to the schedule below:
