***Equipment***

The basic cost of equipment usually is determined by all of the costs necessary to acquire the asset and place it into service. Included in the cost of equipment in addition to the net invoice cost are freight charges, in-transit insurance, applicable taxes, the cost of special foundations or bases; and assembly, installation, and testing costs.

***Works of Art and Historical Treasures***

The cost of works of art and historical treasures includes the amount paid or fair value at the date of acquisition if donated, and other costs necessary to put the asset into its intended use or place of exhibition. Included in the cost of works of art and historical treasures are freight charges, in-transit insurance costs, applicable taxes, the cost of special foundations or bases, and assembly, and installation costs. All of these costs are necessary to obtain the asset and get it ready for its intended use or exhibition.

**Valuation of Donated Property**

Land, buildings, works of art, historical treasures, equipment, and/or intangible assets received as a gift or donation should be recorded in the agency's records at their fair market value at time of donation. The fair market value is generally established by an appraisal performed by a qualified appraiser.

**Capitalization of Interest on Constructed Assets for Proprietary Funds**

Agencies that construct assets, where construction of those assets are accounted for in a proprietary fund (e.g., an enterprise fund) should capitalize interest (in accordance with FASB Statement No. 34, Capitalization of Interest Costs) as part of the ancillary cost of the asset if long-term debt is recorded within the proprietary fund. Interest should not be capitalized on constructed capital assets accounted for as part of governmental activities, including the capital assets of internal service funds incorporated into governmental activities for the purpose of government-wide financial reporting or on capital assets constructed by the Capital Development Board (with general government resources/appropriations) that are subsequently transferred (contributed) to a proprietary fund.

The amount of interest to be capitalized represents interest that the proprietary fund could have avoided had the asset not been constructed. The amount of interest to be capitalized is determined by:

- multiplying the actual expenditures for the qualifying asset during the period
- multiplied by the number of months outstanding,
- multiplied by the appropriate interest rate.

OFFICE OF THE COMPTROLLER**

SECTION	ACCOUNTING AND FINANCIAL REPORTING POLICIES AND PROCEDURES	PROCEDURE - PAGE NO. 03.30.20 4 of 4
SUB-SECTION	CAPITAL ASSET AND DEPRECIATION EXPENSE REPORTING	EFFECTIVE DATE July 1, 2011
PROCEDURE	VALUATION OF CAPITAL ASSETS	REVISION NUMBER 12-001

---

The interest rate for capitalization purposes is to be based on the rates of the proprietary fund's outstanding borrowings. If the proprietary fund associates a specific new borrowing with the asset, it may apply the rate on that borrowing to the appropriate portion of the expenditures for the asset. A weighted average of the rates on other borrowings of the proprietary fund is to be applied to expenditures not covered by specific new borrowings.

Capitalized interest cannot exceed actual interest costs incurred during the period. If the effect of interest capitalization is immaterial (10% of the capitalization threshold of the category of capital asset being constructed or \$10,000; whichever is less), interest capitalization is not required. Capitalization of interest should cease upon the constructed asset being ready for use or put into use.

Additionally, interest shall not be capitalized for the following types of assets:

- Assets that are in use or ready for their intended use in the activities of the proprietary fund
- Assets that are not being used in the State's operations and that are not undergoing the activities necessary to get them ready for use in the State's operations
- Land that is not undergoing activities necessary to get it ready for its intended use

The amount of capitalized interest should be included as part of the asset's historical cost and reported on Form SCO-538. Capitalized interest included as part of the historical cost of an asset, should be depreciated over the useful life of the asset.

*Acquisition Value*

See SAMS Procedure 03.30.20 for guidance on valuation of capital assets.

*Salvage Value*

The salvage value of an asset is the value it is expected to have when it is no longer useful for its intended purpose. In other words, the salvage value is the amount for which the asset could be sold at the end of its useful life. This value can be based on (1) general guidelines from some professional organizations, (2) information from other governmental entities, (3) internal experience, or (4) professionals such as engineers, architects, etc. It is possible that certain assets will have no salvage value.

*Estimated Useful Life*

Capital assets should be depreciated over their expected useful lives. Agency management should give consideration to the nature of the asset's intended service and the design or acquisition objectives when determining useful lives. The following table is an example of useful lives by asset category:

Capital Asset Category	Estimated Useful Lives (In Years)
<b>Infrastructure:</b>	
Easements	No depreciation
Drainage Systems	20-40
Water Systems	20-40
Roads and Highways (not including right of way):	
Concrete	15-40
Asphalt-rural	20-40
Asphalt- urban	5-25
Non-paved	5-50
<b>Land &amp; Land Improvements</b>	No depreciation
<b>Site Improvements</b>	3-50
<b>Buildings</b>	10-60

<b>Works of Art and Historical Treasures</b>	5-10
<b>Intangible Assets</b>	3-25

Equipment maintained by the IOC's capital lease system will be depreciated over the life of the lease. The IOC will supply depreciation amounts as part of the annual GAAP reporting process.

***Depreciation Method***

There are many different methods used to calculate depreciation including straight-line, decreasing charge methods (i.e. declining balance, double declining balance, and sum of the year's digit), increasing-charge methods (i.e. sinking fund and annuity methods), and unit of production. For statewide financial statement purposes, the straight-line method should be used. The straight-line method requires that the salvage value be subtracted from an assets' acquired value to determine its depreciable basis. Using the straight-line method, the depreciable basis is divided by the estimated useful life (as outlined previously in this section), to calculate the amount of annual depreciation.

PROCEDURE	CONTRACT AND OBLIGATION RECONCILIATION	REVISION NUMBER 18-002

CONTRACT AND OBLIGATION RECONCILIATION

The Agency Contract Report and the Obligation Activity Report must be reconciled within 60 days of the month end. It is the responsibility of each agency to compare the information contained on these reports to their own internal records. Agencies with access to SAMS automated records, may perform alternate reconciliation methods. Once the reconciling items have been identified, the discrepancies must be reported to the Comptroller's Office immediately for correction.

This ensures the accuracy of the agency's internal records and the information recorded by the Comptroller. The reconciliation of these reports also avoids delays in processing of Obligations/Contracts and voucher payments that would otherwise be rejected due to errors in our respective files. There are two standardized forms to expedite the reconciliation process: Expenditure Transfer Request form (SCO-415) and the Obligation Reconciliation Notice (C-80-A).

Expenditure Transfer Request (SCO-415) (Exhibit 15.30.30-A)

The Expenditure Transfer Request must be submitted to the Funds, Receipts and Collections Section of the Comptroller's Office in the event a voucher transaction is charged to the wrong expenditure account. The completion of the obligation information on this form will allow the corrective action to be taken in regards to the obligation WITHOUT SEPARATE NOTIFICATION TO THE OBLIGATIONS SECTION. This form must be utilized when the adjustment involves an expenditure authority account code change. Refer to SAMS Procedure 11.40.30 for instructions on completing the Expenditure Transfer Request form.

Obligation Reconciliation Notice (C-80-A) (Exhibit 15.30.30-B and Exhibit 15.30.30-C)

The Obligation Reconciliation Notice must be submitted to the Funds, Receipts and Collections Section of the Comptroller's Office when an agency has identified an error in an obligation balance.

Examples of Possible Errors:

1. Voucher liquidated incorrect obligation within the correct expenditure account.

2. Voucher liquidated one obligation and should have liquidated multiple obligations.
3. The obligation number was not cited on the voucher.
4. Voucher liquidated the obligation, the warrant was subsequently canceled for redeposit.
5. Voucher liquidated the obligation, the warrant was subsequently refunded.

The Obligation Reconciliation Notice must be completed as follows:

- Mandatory entries are marked with an asterisk on the form.
- Complete boxes 6 through 10 to correct errors that occurred through the vouchering process. Attach a legible copy of the voucher.
- Complete boxes 15 through 18 to correct errors that occurred due to a refund. Attach a legible copy of the voucher and a copy of the approved Expenditure Adjustment Transfer form.

Do not include “in-transit” items on this form. This form is to be used ONLY for voucher transactions charged to an incorrect obligation within an expenditure authority account. For expenditure transfers involving obligations, see Exhibit 15.30.30-A

SUB-SECTION	OVERVIEW	EFFECTIVE DATE January 1, 2018
PROCEDURE	SYSTEM CONTROLS	REVISION NUMBER 18-002

SYSTEM CONTROLS

The primary system control associated with the vouchering process is known as pre-audit. Pre-audit is defined as the examination of a proposed financial transaction or a transaction in process for the purpose of determining its propriety. Pre-audit is conducted at two levels, agency and Comptroller. All vouchers are first pre-audited at the agency level. Agency level pre-auditing is defined as an examination by the agency head or designated individual for the purpose of determining the legality and propriety of a proposed transaction or a transaction in process. By affixing the signature to a voucher or agency file balancing report for paperless transactions, the agency official responsible for voucher approval or a duly authorized representative certifies that the voucher meets the above requirements. The second level of pre-auditing occurs in the Office of the Comptroller. Comptroller-level pre-auditing is defined as an examination by the Comptroller of a transaction in process for the purpose of determining its legality and regularity.

The first of the Comptroller's pre-audits involves checking all vouchers or agency file balancing report for approval by an agency official or representative. This signature validation process requires the signature to be on file; therefore, prior to the acceptance of any voucher or agency file balancing report as certified and authorizing payment, a Voucher Signature Authorization Form, shown in Exhibit 17.20.65-A, must be completed and sent to the Office of the Comptroller in accordance with Section 9.02 of the Finance Act. A Confirmation of Authorized Signatures, Exhibit 17.30.30-A, is periodically produced and sent to agencies for signature forms on file in the Office of the Comptroller.

When voucher transactions are submitted on electronic media, a balancing routine is performed on the file. If the file fails any of the edits, the entire file will be rejected and returned to the transmitting agency. When the transmitting agency receives notice of a rejected file, the agency should correct the original data on their system and submit a corrected file for processing. The corrected file must cite a different file number than the rejected file.

The Comptroller's subsequent pre-audits are performed at the transaction level. Those vouchers which fail the transaction pre-audits (for which the error cannot be corrected by contacting the agency) will be returned to the transmitting agency with a Delete Document Report (Exhibit 17.30.20-A) describing the error(s) encountered.

COMMERCIAL PAYMENT PROCESSING

Agencies provide payment and payment-related data to the Comptroller's Office via file. Agencies currently use the 900M file format (Version 1 or 2). The 900M format is used for the paperless Commercial transactions. Therefore, each 900M record contains imperative information needed by the Comptroller's Office to audit the transaction. This information is carried in a 360-character area that represents six (6) lines of sixty (60) characters each. These six (6) lines are printed on the remittance portion of the paper warrant document. For electronic payments, beginning September 1, 2000, an additional sixty (60) characters are allotted to provide for remittance information to be included in the addendum record. None of the six (6) lines for the hard copy remittance are included in the electronic remittance information, nor are the 60 characters for the electronic payment included in the hard copy remittance with the warrant. If Version 2 of the 900M format is utilized by agencies, two of the nineteen additional remittance fields from the Voucher Addenda Record (Customer ID, Billing Account) will appear on both the electronic record and the warrant stub.

The electronic 60-character remittance field is located in positions 379-438 on the 900M format. This field offers agencies the opportunity to enhance the quality of payment description provided to payees who have elected to receive electronic payments with remittance information. This field may contain descriptive information other than the invoice number, invoice date and paying agency code, which are passed electronically to direct deposit vendors. If an agency does not intend to use this remittance field for payment description, this field must be left blank. If left blank, the Comptroller's Office automatically fills that field with the payment voucher number and phone number of the SAMS Help Desk. Agencies are encouraged to use this field to provide additional remittance information to their EFT vendors. Agencies should communicate with their vendors to determine what information is needed.

**DIRECT DEPOSIT MANDATES**

Pursuant to Public Act 97-0348, vendors that receive 30 or more paper checks annually from the same agency may be charged \$2.50 for each paper check received thereafter. To prepare vendors for this law's implementation the IOC has set a threshold of paper checks a vendor may receive without being subjected to the fee. The threshold began at 1,000 paper checks on August 1, 2012, and decreased to the statutory limit of 30 on July 1, 2015.

**HARDSHIP EXEMPTION**

Subsection (d) of 15 ILCS 405/9.03 allows vendors to file a hardship petition requesting an exemption from the direct deposit mandates. A hardship petition is available for download on the Comptroller's website.

**CONFIDENTIALITY INDICATOR**

Agencies are given the opportunity to mark payment vouchers as confidential or non-confidential. For vouchers that are marked non-confidential, the Comptroller's Office will make the associated text information (bytes 379-438 and bytes 527-886) available through the Comptroller's website ([www.illinoiscomptroller.gov](http://www.illinoiscomptroller.gov)) to vendors. For vouchers that are marked confidential, the Comptroller's Office makes the associated text information available to vendors through Enhanced Vendor Remittance on the Comptroller's website. However, for vouchers marked confidential, the Comptroller will continue to make the current fiscal information available, along with the agency's contact telephone number.

The confidentiality indicator is located in byte 887 of the file layout. The allowable codes for that field are "Y", "N", or blank. A blank field or the code "Y" indicates that the associated text information is confidential and that it will only be disclosed in Enhanced Vendor Remittance on the Comptroller's website. The code "N" indicates that the associated text information is not confidential and will be disclosed on the Comptroller's website.

**ILLINOIS FUNDS**

Agencies making payments to the Treasurer's Illinois Funds participants should use the 60-character remittance field to describe the payment. For example: "IDOR – Replacement Tax." Agencies are encouraged to take advantage of this remittance description field. If the field is left blank, the Comptroller's Office system will add automatically the voucher number and the text "Illinois Funds Payment."

To ensure that payments are direct deposited into Illinois Funds, agencies must put an "8" in the EFT indicator field (byte 348) of the 900 or 900M commercial voucher file layout.

INTRODUCTION

The State of Illinois Payroll System generates payroll warrants or electronic direct deposit transactions for all employees paid from funds held in the State Treasury for which the State Treasurer is officio or ex-officio custodian. All payroll warrants and direct deposits must be supported by a precalculated payroll voucher submitted and approved by authorized agency personnel. Deductions from gross pay reflected on the payroll voucher file must in turn be supported by a deduction authorization maintained by the employing agency. After auditing and balancing the vouchers and files, the Comptroller's Office issues employee payroll warrants or makes electronic direct deposits for the net pay amount on the voucher. The Comptroller's Office returns these warrants or, in the case of direct deposits, earnings statements, to the agency for distribution to the employees or the Comptroller provides a file for agencies to create Electronic Earnings Statements. Trailer warrants, reflecting the amounts paid to insurance companies, credit unions, unions, associations, tax sheltered annuities, parking fees, involuntary withholding offsets, Illinois Gives and child support processing fees, will be distributed by the Comptroller's Office. Warrants representing Tax Levies, Garnishments, Unemployment Compensation, Bankruptcies and money owed another State agency will be returned to the vouchering agency for distribution.

The payroll section also includes sub-systems that issue and print Contractual payments (C02 Vouchers), process salary refunds and corrections, print miscellaneous reports for the legislature, and respond to requests for information concerning State employees.

Agencies may access Payroll, SAMS and Accounting Bulletins on the Comptroller's website at [www.illinoiscomptroller.gov](http://www.illinoiscomptroller.gov), under the Agencies tab, for future changes.

DOCUMENT DESCRIPTION

The documents pertaining to the Payroll System are categorized as either source documents or output documents. Source documents are segregated into three groups: Employee registration forms, Voucher Processing Forms and Salary Refund Forms. A brief description of each document follows.

SOURCE DOCUMENTS

I. Employee Registration Forms

The basic forms in the employee registration segment of the State payroll system are State and Federal W-4 cards, Form IL-W-5NR, the direct deposit authorization form and the payroll deduction authorization forms.

A. W-4 Cards (Exhibit 23.20.05-A)

State and Federal withholding forms provide the legal authorization for withholding taxes, and therefore must be completed by all employees and retained by the agency. (See Procedure 23.20.05.)

B. Employee's Statement of Nonresidence in Illinois, (Exhibit 23.20.10-A)

An Employee's Statement of Nonresidence in Illinois (Form IL-W-5NR) must be completed by employees claiming exemption from Illinois income tax withholding because they are residents of states which have reciprocal withholding agreements with Illinois. Reciprocal states are Iowa, Kentucky, Michigan, and Wisconsin. Agencies must have a copy of this form on file; it need not be filed with the Comptroller's Office (See Procedure 23.20.10.)

C. Authorization For Deposit of Recurring Payments (Exhibit 23.20.25-A)

Employees may authorize direct deposit of their salary payments by completing the Authorization for Deposit of Recurring Payments. A new form must be completed for changes in financial institutions or account number within a financial institution. (See Procedure 23.20.25.)

D. Deduction Authorization Form

This form which is distributed by the employing agency and/or vendor authorizes the Comptroller to withhold monies from an employee's gross pay for a specific purpose authorized by the employee (**5 ILCS 365/5**). Forms must be completed and signed by the employee and maintained by the agency. These deduction authorizations need not be filed with the Comptroller. (See Procedure 23.20.30.)

II. Voucher Processing Forms

There are three major source input documents that are required from agencies each pay period: the payroll voucher, the payroll voucher distribution schedule and the payroll voucher input file.

A. Payroll Voucher (Exhibit 23.20.50, Appendix F)

Payroll vouchers provide the basis for paying each employee and therefore must be submitted to the Comptroller's Office each pay period. Each voucher consists of four parts: (1) Abbreviated detail page, (2) Trailer page(s), (3) Total page, and (4) Certification page. For a contractual payroll, see Exhibit 23.20.50, Appendix I for the Certification page. The detail page(s) list name and social security number (last four digits of the social security number are acceptable) for each employee, reflecting gross pay and other payroll-related information. The trailer pages reflect the total amount to be paid to each vendor. The total page is the summary for selected payroll fields. The certification page must be signed by an authorized person(s) and match the signature cards on file.

B. Payroll Voucher Distribution Schedule (Exhibit 23.20.50, Appendix F)

A voucher distribution schedule must accompany all payroll vouchers and must reconcile to the total charges on the payroll voucher. The purpose of the schedule is to serve as a transmittal and control document, and to summarize all charges to appropriations made from the voucher. It therefore contains charges (if any) to State paid FICA or Medicare, retirement appropriations, and Insurance reimbursement in addition to personal services.

C. Payroll Voucher File

Agencies must submit a file in conjunction with their payroll vouchers. The file contains one detail record for each employee record on the payroll voucher and one trailer record for each vendor warrant.

III. Salary Refund System

The salary refund system provides agencies with the capability to completely or partially reverse the effect of payroll warrants that were issued in error. There are two major segments of the system: (1) the salary reversal procedure provides the capability to recover money that has previously been paid to vendors and now must be recovered, and (2) the salary refund form processing procedure which provides the vehicle for redepositing the money recovered into the State Treasury, crediting the appropriation from which it was paid and correcting the employee's year-to-date earnings and tax records. All salary reversals must have Comptroller's prior authorization.

A. Salary Reversal Procedure

This procedure allows agencies to recover erroneous salary payment deductions via the payroll system, as opposed to requesting cash refunds directly from the vendor. Reversed amounts must match amounts entered on the Salary Refund Form. However, agencies may obtain the refund directly from the vendor in some instances. The money recovered is then submitted to the Comptroller's Office with the Salary Refund Form. See Payroll Bulletin 2-13 for additional information.

B. Salary Refund Form (Exhibit 23.20.65-A)

The salary refund form is a transmittal document for depositing money in the State Treasury, crediting the appropriation accounts and adjusting the employee's earnings. The form must be accompanied by state warrant(s) or Treasury draft(s) for the amount to be redeposited. Due to timing issues, agencies must have any Treasury draft(s) prior to processing the reversal.

C. Salary Refund File Records

The voucher input file submitted by agencies must contain a file record that corresponds to each entry on the voucher.

IV. Other Documents

A. Authorization to Pick-Up Salary Warrants (Exhibit 23.20.70-A)

The authorization is used by State or Courier employees to provide specimen signatures to the Comptroller for person(s) authorized to pick up salary warrants from the Office of the Comptroller.

OUTPUT DOCUMENTS

I.    Payroll Warrant and Stub (Exhibit 23.30.10-A)

Exhibit 23.30.10-A shows the warrant and warrant stub used for all payroll warrants. Warrants will be picked up or mailed to the agencies for distribution to the employees.

II.   Agency Return File

Agency Return files will be provided to agencies upon request. Hard copy reports will not be provided.

III.   Wage and Tax Statement - Form W-2 (Exhibit 23.30.50-A)

W-2's are printed annually and reflect all payments made from State funds.

**INTERNAL SERVICE FUND BILLING (SCO-552)**

**PURPOSE**

The purpose of the Internal Service Fund Billing Form is to collect interfund activity information required to be reported on the government-wide financial statements.

When applicable, this form must be completed annually and sent to the Comptroller's Office as part of the year-end reporting package. Two copies should be retained by the agency: one to provide an internal record and one for the Auditor General or his representative.

**GENERAL**

The Internal Service Fund Billing Form should be completed by all funds classified as internal service funds by the Comptroller's Office. Governmental Accounting Standards Board (GASB) Statement 34 requires the "doubling-up effect" of internal service fund activity to be eliminated in the government-wide financial statements. The elimination will occur when internal service fund activity is combined with either governmental or business type activities. In order to eliminate the internal service activity, information regarding amounts billed by the internal service funds will be gathered. This information will be used to allocate excess (deficient) income from the internal service fund to functional expenses on the government-wide financial statements.

All amounts reported on this form must be rounded to the nearest thousand. Where a line does not apply, leave it blank. When completed on the Comptroller's WEDGE System, this form will automatically calculate certain fields.

INTRODUCTION

GENERAL

State property consists of land, land improvements, site improvements, buildings, building improvements and equipment. Equipment is defined in section 5010.200 of the Illinois Administrative Code (Title 44, Subtitle D, Chapter I, Part 5010, Subpart B). Other categories of State property are defined in 03.30.10 of the SAMS Manual.

Reporting by agencies to the Comptroller on State property ensures current statewide information applicable to property held by or on behalf of the State and ensures that agencies update property records, as necessary, to reflect the current balance of State property. It also enhances the accuracy of the statewide information reported by the agencies and the Comptroller.

The objective of the State property reporting process is to maintain current property information at a summary level. The reporting of detailed property information to the Comptroller at the transaction or individual property item level (except capital lease acquisitions) is not required at this time. This detailed information is to be maintained and made available to the Comptroller upon request.

DETAIL RECORD KEEPING

Although agencies are required to report to the Comptroller on the summary level, supporting detail records must be maintained. Such detail records are to be organized by major asset category and include the following information for each asset: (1) Cost (or other value); (2) function and activity; (3) reference to acquisition source document; (4) acquisition date and date placed in service; (5) name and address of vendor; (6) short description of asset; (7) organization unit charged with custody; (8) location; (9) fund and account from which the item was purchased; (10) method of acquisition; (11) estimated useful life; (12) estimated salvage value; (13) date, method and authorization of disposition; (14) tag number; (15) accumulated depreciation; (16) depreciation method; (17) depreciation convention; and (18) insured value (if applicable). This list is not exhaustive. An agency may include additional information for its own needs. Items of a nominal value may be excluded from the detail records; however, listings of the items are to be maintained for internal accountability purposes. For example, a list of nominal value items might indicate a description of the item, its location, and quantity.

**REPORTING TO THE DEPARTMENT OF CENTRAL MANAGEMENT SERVICES**

The State Property Control Act (30 ILCS 605) describes an agency's reporting responsibilities to the Department of Central Management Services (CMS). CMS is required to keep a master record of real property (e.g., land, buildings, etc.). Therefore, agencies are required to report to CMS any changes, additions, deletions, or other transactions affecting real property on a monthly basis. Forms will be furnished by CMS.

Agencies must also maintain a permanent record of all property. A listing of the permanent record is required to be submitted to CMS annually in a format prescribed by CMS. Annual or even more frequent inventories may be required by CMS. Detail reporting requirements will be transmitted to agencies by CMS.

**SYSTEM CYCLE**

The system cycle begins at the agency level with the preparation of the "Agency Report of State Property" (Form C-15). When the report is completed, it is submitted to the agency official responsible for approving it. After the official has reviewed and signed the report, it is submitted to the Office of the Comptroller for processing.

Purchased assets should generally be included on the "Agency Report of State Property" in the quarter the assets were received. Capital lease assets are to be included on the report for the quarter in which the lease was executed. Because capital lease assets include an interest component, their costs will be calculated for all State agencies by the Comptroller's Office. The Comptroller's Office will transmit information on the cost of each capital lease asset to the agency in a timely manner, allowing the cost to be included in the appropriate quarterly report.

Upon receiving the report from the agency, the Comptroller's Office will review it for completion of all data elements, clerical accuracy and reasonableness. The data from the report will be used for reporting purposes and for responding to inquiries by the general public and other users of statewide State property information.

**STATUTE REFERENCE**

The State Comptroller Act (**15 ILCS 405/17**), as revised by Public Act 98-0904, states that:

"The Comptroller shall maintain current inventory records of property held by or on behalf of the State or any State agency, which may be copies of the official inventory control records maintained by State agencies or summaries thereof. The Office of the Comptroller shall define reporting requirements and thresholds to be used by State agencies in the Comptroller's Statewide Accounting Management System (SAMS) manual. The Department of Central Management Services and each other State agency so holding such property shall report to the Comptroller, on forms prescribed by the Comptroller, all property acquired or disposed of by that agency, in such detail and at such times as the Comptroller requires, by rule, to maintain accurate, current inventory records. The Department of Central Management Services shall transmit to the Comptroller a certified copy of all reports it may issue concerning State property, including its annual report."

As a result of this mandate, the process for reporting on State property was developed to ensure a current summary of statewide State property information is available.

STATUTE REFERENCE

The statutory authority requiring State agencies to file reports on tax expenditures which they administer is contained in the State Comptroller Act (15 ILCS 405/16):

“In addition to the quarterly reports required by this Section, each agency shall on an annual basis file a report giving that agency’s best estimate of the cost of each tax expenditure related to each of the revenue sources administered by the agency. This annual report shall include the agency’s best estimate of the cost of each tax expenditure including: (a) a citation of the legal authority for the tax expenditure, the year it was enacted, the fiscal year in which it first took effect, and any subsequent amendments; (b) to the extent that it can be determined, the total cost of the tax expenditure for the preceding fiscal year together with an estimate of the projected cost for the next succeeding fiscal year along with a description of the methodology used to determine or estimate the cost of the tax expenditure; and (c) an assessment of the impact of the tax expenditure on the incidence of the tax in terms of the relative shares of revenue received under the provisions of the tax expenditure and the revenue that would have been received had the tax expenditure not been in effect. For purposes of this Act, the term ‘tax expenditure’ means any tax incentive authorized by law that by exemption, exclusion, deduction, allowance, credit, preferential tax rate, abatement, or other device reduces the amount of tax revenues that would otherwise accrue to the State.”

**PURPOSE**

The purpose of tax expenditure reports is to provide information required to satisfy the annual tax expenditure reporting requirement as specified in the State Comptroller Act 15 ILCS 405/16. This data will be summarized in a publication to be issued by the Comptroller's Office. Reports are necessary for each tax, license, fee, or registration authorized by state law and collected by state agencies. Reports are not necessary for taxes, licenses, fees, or registrations levied by units of local government and collected by state agencies, nor for taxes, licenses, fees, or registrations that are not deposited into state funds. The Comptroller's Office has an Internet-based Tax Expenditure Reporting System. Agencies reporting tax expenditures must use this system to simplify processing of tax expenditure information.

**GENERAL**

A tax expenditure is any incentive authorized by law that by exemption, exclusion, deduction, allowance, credit, preferential tax rate, abatement, or other device reduces the amount of tax revenue that would otherwise accrue to the State.

Exemptions from one state tax that are subject to another tax are not considered tax expenditures. Examples include the use tax exemption for transactions subject to the state sales tax and credits for taxes paid to other states.

When tax payments are deferred, the tax expenditure is the estimated interest loss to the State due to the deferral. An example of a deferral is a provision that excuses farmers from making estimated income tax payments.

**CONTENTS**

State agencies should use the online Tax Expenditure Reporting system at the Comptroller's website, <http://www.apps.ioc.state.il.us/office/TaxExpSQL/Login/>, for reporting tax expenditure information. Information requested is as follows:

- (2) Enter the Comptroller-assigned user ID and password.
- (3) Fill out the acknowledgement page with the name of the user and the user's telephone number, fax number, and email address. Click "yes" or "no" to indicate whether the agency had any tax expenditures in the applicable fiscal year.
- (4) Select Tax Expenditure Registry from the "Sections" tab in the toolbar and select a specific tax receipt from the center drop-down key. Click the "Find" button, and then click the "Proceed to Tax Receipt Information" link on the left side of the screen. Tax receipts from the previous fiscal year will already be there. Tax receipt names (revenue sources) may be added by going to the Tax Expenditure Registry and clicking the "Go to Add Form" button. Tax receipt names may be renamed or deleted only upon request. Users may request a record be renamed or deleted by clicking the "Update Record" button or the "Delete Record" button, respectively.
- (5) For each tax receipt, enter the statutory authority citation, year enacted, year effective, description (including the transactions or items on which it is levied and the rate), and receipts for the prior fiscal year and the current fiscal year. Amounts should be rounded to the nearest thousand.
- (6) Go to the Tax Expenditure Information page (link at bottom of screen) for a selected tax receipt. Tax expenditures may be added, deleted, or renamed via the procedures described in (4).
- (7) Enter the name of the tax expenditure.
- (8) Indicate whether there is a reportable cost estimate. If there is no reportable cost estimate, select an option to explain why: the tax expenditure cannot be calculated or the tax expenditure cost is insignificant.

- (9) Enter the Tax Expenditure Description (link at bottom of screen). Describe how the tax expenditure reduces the revenues that would otherwise accrue to the State. List any amendments since the effective date of this tax expenditure. Specify the type of tax expenditure (e.g., exemption, exclusion, deduction, allowance, credit, preferential tax rate, or abatement). Are those who qualify for the tax expenditure totally exempt from liability, or is their liability reduced from that of payers ineligible to benefit from the tax expenditure? If liability is reduced, how much is the reduction? Does the law include any changes in the tax expenditure since the previous fiscal year or in the upcoming fiscal year?
- (10) Enter the Tax Expenditure Methodology (link at bottom of screen). Describe how the cost of the tax expenditure was estimated. Include the data sources, such as calculated from tax returns, estimated from a sample of returns, based on data from federal returns for a similar tax, or derived from economic data. Describe any adjustments made to the base data. Is the difference between the current year's estimate and next year's estimate based solely on expected changes in receipts for the revenue source, or does it reflect any expected legal or other changes? Please note if the methodology has changed between the prior and current fiscal years.
- (11) Enter the Tax Expenditure Assessment (link at bottom of screen). Assess the impact of the tax expenditure on various classes of payers of the revenue source. Describe the groups that benefit from the tax expenditure.

- (12) Enter the Tax Expenditure Statutory Authority (link at bottom of screen). The Tax Expenditure Statutory Authority page includes a text box specifying the tax expenditure component for which the authority is being listed. If there is only one tax expenditure component, the component name should be identical to the tax expenditure name. If a tax expenditure has more than one component that was separately enacted, but the cost is being reported as a group, fill out a separate Tax Expenditure Statutory Authority for each one using the “Add Form” button. For example, the sales tax exemptions for coal, oil, and distillation machinery and equipment were separately enacted, but the Department of Revenue reports their cost as a group.
- (13) After entering the tax expenditure component name on the Tax Expenditure Statutory Authority page, enter the statutory authority for the tax expenditure from the Illinois Compiled Statutes (citation). Next, enter the fiscal year the tax expenditure was enacted. Finally, enter the first fiscal year that the specified tax expenditure reduced revenues that would otherwise accrue to the State (year effective).
- (14) Enter the Tax Expenditure Estimated Cost (link at bottom of screen) by fund for the state fiscal year just ended. A separate screen needs to be completed using the “Add Record” button for each fund that receives revenues from the tax source. Amounts should be rounded to the nearest thousand dollars. Amounts under \$1 million are not required to be reported.

SECTION	MISCELLANEOUS	PROCEDURE - PAGE NO. 33.20.20 1 of 8
SUB-SECTION	INPUT PROCEDURES	EFFECTIVE DATE January 1, 2010
PROCEDURE	SERVICE EFFORTS AND ACCOMPLISHMENTS (SEA) REPORTING	REVISION NUMBER 10-002

---

**PURPOSE**

The purpose of the Public Accountability Report (PAR) is to provide information on the service efforts, costs, and accomplishments of the agency or its major programs. This report is to be submitted annually to the Comptroller's Office as part of the year-end reporting package. The Public Accountability Report is due to the Comptroller's Office by October 15. Each year, the Comptroller's Office will notify those agencies that should submit information by the deadline.

The Comptroller's Office has developed an Internet-based reporting system for collecting data from state agencies. The reporting system is available through the Comptroller's Public Accountability web page.

**GENERAL**

The Governmental Accounting Standards Board (GASB) is the highest source of accounting and financial reporting guidance for state and local governments and retains ultimate authority over all external financial reporting by governmental entities. Through its due process procedures, GASB has established suggested guidelines for voluntary reporting of Service Efforts and Accomplishments (SEA) performance information.

The primary purpose of SEA reporting is to provide more information about a government's performance than can be provided by traditional financial statements. SEA reporting is intended to include information about the services provided and the effect of those services to assist users in assessing how well the government is achieving its goals and objectives.

In its Concepts Statement No. 1, *Objectives of Financial Reporting*, "is based on the belief that SEA information is necessary for assessing accountability and in making informed decisions; therefore, to be more complete, General Purpose External Financial Reporting (GPEFR) for governmental entities needs to include SEA information which will be reported separately from the Comprehensive Annual Financial Report (CAFR)." One of three objectives established by the Board in this document is that "financial reporting should provide information to assist users in assessing the service efforts, costs, and accomplishments of the governmental entity."

GASB's Concepts Statement No. 2, *Service Efforts and Accomplishments Reporting*, emphasizes this point when it states, "The assessment of a governmental entity's performance requires information not only about the acquisition and use of resources, but also about the outputs and outcomes of the services provided and the relationship between the use of resources and their outputs and outcomes."

SECTION	MISCELLANEOUS	PROCEDURE - PAGE NO. 33.20.20 2 of 8
SUB-SECTION	INPUT PROCEDURES	EFFECTIVE DATE January 1, 2010
PROCEDURE	SERVICE EFFORTS AND ACCOMPLISHMENTS (SEA) REPORTING	REVISION NUMBER 10-002

---

Currently, financial reporting provides information on whether funds are being used legally and for the purpose intended, but not whether they are being used efficiently and with the intended results. Both GASB and the Comptroller's Office recognize that (1) in the absence of SEA information, financial reports cannot meet the test of sufficient accountability, and (2) a change in this situation would call for an extension of the very concept of financial reporting itself.

As stipulated in Public Act 86-1415 (15 ILCS 405/6.01), effective September 11, 1990, the Comptroller is responsible for defining financial reporting requirements for Illinois state agencies:

*The Comptroller shall specify and establish the financial accounting and reporting standards and principles to be used by all State government and State agencies....These standards and principles shall be known as the Generally Accepted Accounting Standards and Principles for Illinois State Government, and shall, whenever possible, be compatible with any similar nationally existing generally accepted accounting standards and principles for government.*

The core mission of the Comptroller's Office is "to provide quality fiscal information." It is the position of the Comptroller's Office that fiscal information that consists solely of *financial* information is lacking an acceptable level of quality. Such financial information must be coupled with *non-financial* information (i.e., information on service efforts and accomplishments) if the financial information is to be meaningful.

This procedure will help establish standards for SEA reporting until GASB completes its due process activities. The following general principles and guidelines, which may be modified from time to time as new information or experience becomes available, will govern service efforts and accomplishments reporting in Illinois for the present:

- These guidelines are consistent with expectations and other reporting requirements regarding performance measurement already existing in Illinois State statutes. The Fiscal Control and Internal Auditing Act (30 ILCS 10/1001-3004) requires controls to assure that "resources are utilized efficiently, effectively, and in compliance with applicable law." (30 ILCS 10/3001(1)) It is not possible to demonstrate efficiency or effectiveness without appropriate measures of efforts, costs, and accomplishments. Additionally, the Civil Administrative Code of Illinois (Part 2) requires "annual accountability reports" from each Code agency (15 ILCS 20/50-15).

---

- These procedures establish principles for *reporting* information about state government's performance, including the categories and characteristics of SEA information. They do not establish the performance indicators, measures, or standards themselves. The Comptroller's Office may, from time to time, advise and direct agencies on generally accepted performance indicators for reporting on specific programs or services.
- Within the framework established by these principles and procedures, state agencies are expected to develop valid and generally accepted SEA indicators for approval by the Comptroller's Office; gather the data required for the indicators; and report performance results in the form prescribed herein. Based on statutory provisions and requirements previously cited above, it is assumed that a significant amount of information is already available for SEA reporting.
- Subject to the approval of the Comptroller's Office, State agencies may use judgment and discretion in reporting SEA information. Generally speaking SEA measures should be reported for all major programs, goals and objectives of the agency, as defined by the reporting entity in conjunction with the Comptroller's Office. It is assumed that not every agency function will be included in such reporting. At the same time, reporting on the smallest, discrete program within an agency is not sufficient. Part of the challenge in SEA reporting is rationalizing the program structure as a framework for SEA measurement. Where possible, agencies may report at the "corporate" or "enterprise" level for the department as a whole. Another approach would be to report on the highest organizational level possible or the programs or functions with the largest funding.
- Agencies should not intermingle SEA information from different programs or services, but should prepare separate SEA reports for each distinct agency function, program, or service being reported.
- Agencies should be able to substantiate their reports by maintaining adequate and appropriate documentation to support their mission statements, goals, objectives and performance measures. This would include such elements as statutory or other authoritative sources for programs, mission statements, goals and objectives, definitions of performance indicators and data, the data collection and reporting process, the data storage and retrieval environment, etc.
- In *Concepts Statement No. 2, Service Efforts and Accomplishments Reporting*, the GASB has provided guidance on the characteristics that agencies should strive for in performance data:

Characteristics Performance Information Should Possess

28. Performance information should meet the characteristics of relevance, understandability, comparability, timeliness, consistency, and reliability. The application of these characteristics to performance information is discussed below.

Relevance

32. SEA performance information is a representation of performance and includes a broad variety of measures. SEA performance information needs to cover the major goals and objectives of the programs and services being reported on, while maintaining a focus on key results so as not to overwhelm users with more information than can be used. In order to provide a broad picture of performance, it is important for all elements of relevant SEA performance measures to be included.

Understandability

35. In order for the information within an SEA report to be understandable, it needs to be expressed simply and clearly. Users have different purposes for reviewing SEA performance information, as well as different interests, needs, and levels of understanding, education, and public involvement. Governments, therefore, need to obtain feedback from actual or potential users of an SEA report in order to enhance the understandability of reported SEA performance information. It is also important to communicate SEA performance information in different forms and at different levels of detail so that the information can be understood by those who may not have a detailed knowledge of a government's programs and services.

37. The manners of presentation commonly used in SEA reports include charts and tables with numeric measures of SEA performance, graphs showing the relationships between two or more pieces of data, and objective narrative description of results. Tables, charts, or graphs can be used to enhance understandability by showing many different types of comparisons, such as to targets, previous periods, citizen feedback, or other governments.

Comparability

**40. SEA performance measures, if presented alone, do not provide a basis or context for assessing SEA performance. If the information presented within an SEA report is comparable and comparisons are presented, then the information provides a frame of reference for users to assess SEA performance. To assess whether the reported SEA**

**performance is improving, deteriorating, or remaining the same, users need comparative information such as measures from earlier periods, established targets, industry standards, or other similar governments. The types of comparative information reported may depend on issues such as the availability of reliable and relevant information, the purpose of the report, and the needs of the users.**

Timeliness

44. The report needs to be issued soon enough after the reported events to affect decisions or assessments of accountability.

Consistency

46. Consistency in reporting SEA performance information means measuring and reporting the same SEA performance measures in the same way from period to period. Consistency in the manner of presentation avoids confusing users and helps them to assess changes in SEA performance over time.

47. Changes in presentation formats, performance targets, or goals and objectives can occur and, in many cases, result in improved SEA performance measures. If SEA performance measures are modified or replaced or the manner of presentation is changed, then it is important to communicate to users that a change has taken place and the reasons for the change.

Reliability

48. SEA performance measures need to be verifiable to provide assurance that the information in an SEA report would be replicated by independent evaluators using the same measurement methods. SEA performance information needs to be derived from systems producing verifiable data.

**REPORTING DATES**

State agencies report SEA information annually to the Comptroller's Office, as prescribed in the following instructions, according to the schedule below:

By **August 15**, agencies submit for the approval of the Comptroller's Office a list of all programs administered by the agency—identifying those programs to be reported on—with the (briefly stated) purpose and the current fiscal year budget and staffing figures for each program, summing to the total

budget and staffing of the agency. Agencies will also submit for the approval of the Comptroller's Office a list of the specific performance measures (Input Indicators, Outcome Indicators, External Benchmarks, Output Indicators, and Efficiency/Cost Effectiveness Indicators) that the agency proposes for each of the programs to be included in the Public Accountability Report (Exhibit 33.20.20-A). (This information is to be submitted on worksheets provided by the Comptroller's Office. See Exhibit 33.20.20-B.)

By **October 15**, agencies submit their final SEA data to the Comptroller's Office using the PAR system.

Failure to submit these reports by the deadlines could result in a delinquency letter to the Office of the Auditor General.

### **INSTRUCTIONS**

State agencies should use the on-line Public Accountability Reporting system at the Comptroller's web site, <http://www.apps.ioc.state.il.us/office/par/login/>, for reporting SEA information. Information requested is as follows:

- 1) Agency: Indicate the name of the agency, department, board, or commission submitting the report.
- 2) Program: Identify the program under which the performance data are grouped or classified.
- 3) Fund(s): Identify the state fund or funds supporting the program or service.
- 4) Statutory Authority: Cite the statute from which authority is derived for the program and its mission and goals.
- 5) Mission Statement: Provide a general statement of the program's purpose and reason for being as derived from its origin (statute or other authoritative source). A mission statement should define what the program aims to do, why and for whom.
- 6) Goals: Provide broad, but clear statements of intent that project the general outcomes the program was designed to accomplish. Goals anticipate the outcome indicators (see below) but are not as specific or measurable.
- 7) Objectives: Provide specific measurable objectives in support of the goals which describe the end results that a service or program is expected to accomplish in a given time period.

- 8) Performance Indicators: The report form provides for definition of performance indicators and reporting of performance data. First, indicate the specific performance indicators for each category of indicator (input, output, outcome, etc.). Then, provide the specific data for each performance indicator for each year applicable. Also report the targets that were set for each indicator for the current fiscal year and establish targets for the ensuing fiscal year. The categories of indicators include:

**Measures of Accomplishments**

- 9) Input Indicators: These are measures of the financial and non-financial resources applied in providing services (e.g., total expenditures, total appropriated expenditures, full-time equivalents, etc.). All SEA reports should identify at a minimum the total dollar value of resources provided to the program or service being reported.
- 10) Output Indicators: These are measures of the number of units produced or services provided by a program (sometimes referred to as activity or workload measures). They are measures of the quantity of the work produced (e.g., the number of students enrolled or clients served, number of projects completed, etc.).

**Measures of Efforts**

- 11) Outcome Indicators: These are measures of the results achieved, at least in part, because of the services provided (e.g., percentage of lane-miles of road maintained in a certain condition, the change in students' test scores, level of customer satisfaction, etc.).

**Measures Relating Efforts to Accomplishments**

- 12) Efficiency/Cost-Effectiveness Indicators: These are measures of the cost per unit of output or outcome (e.g., cost per lane-mile of road repaired, cost per student graduated, etc.).

**Other Measures**

- 13) External Benchmarks: For comparative purposes, a program's outcome and efficiency/cost-effectiveness indicators should be presented, where possible, in conjunction with similar measures of a comparable program, a regional or national average or an established industry or federal standard. These measures should come from an authoritative source.

- 14) Explanatory Information: Provide any explanatory information that helps clarify the specific performance information reported. Particular emphasis should be placed on outcomes. Agencies who claim “cost savings” or “jobs created” must use this part of the report to present their methodologies for making those calculations. Other types of explanatory information might include:
- environmental, external, or other factors which can influence performance or help explain the context for the reported performance, including factors over which the agency has little or no control (e.g., demographics) and factors substantially within the control of the agency (e.g., staffing patterns);
  - the limitations of the performance measurement system or specific performance measures;
  - information which comments on or helps explain the specific level of performance;
  - information on actions which may alter or affect performance in the future.
- 15) Agency Narrative: Provide a brief narrative comprised of:
- a) A summary table of all the agency’s programs with their associated expenditures and average monthly staffing, summing to the totals of the agency as a whole;
  - b) A brief description of the agency’s mission; and
  - c) A brief description of the agency’s key programs and performance.

Each agency should submit one narrative only for all programs. Do not complete this section of the form for each program.
